Thinking Tournament Poker:

Tournament Hold 'em Hand By Hand: Neil D. Myers, 2008-02-01 Dear Aspiring Poker Tournament Winner Do you regularly play in No Limit Hold em tournaments Do you want to get to the final table more often Then this book is for you 10 000 TV tournaments that last for days require very different winning strategies than much faster paced tournaments that last for hours Most of us never play in the televised extravaganzas Instead we play regularly in No limit Hold em tournaments that have buy ins of 40 to 1 000 Many tourney entrants never win money A few savvy players know that small tournaments can be fun and profitable if you know exactly how to play them Hand by hand I will reveal why these players make more than their fair share of final tables and how you can join them You ll learn How to win despite a run of bad cards How to assess good value tournaments and avoid bad ones How to play when you are short stacked How to build a big stack and use your chips as a weapon The vital importance of position in tournament play When and how to change pace as the blinds and antes increase Some of the conventional advice about tournament play is just plain wrong Success requires more than a desperate attempt to survive and wait for big cards So if you want a chance to feel the thrill of a big payday at your next tournament buy this book now I ll see you at the final table

Think Like a Poker Pro Byron Jacobs, 2016-03-24 Do you suspect that your poker skill is insufficiently well rewarded Do you wonder how the professionals always get the money Would you like to know how top players study and refine their game If you have ambitions to join the ranks of the consistently winning players this book will help you plan your campaign Poker is a strange and fascinating game There is a great deal more to being a successful player than simply knowing how to play a good game Playing good poker is largely a technical skill which can be learned Being a consistently successful player is much harder and necessitates acquiring expertise in many other areas Byron Jacobs has been a successful online poker player for seven years In this book he identifies precisely how this can be achieved and shows how much of the battle actually needs to be conducted away from the table If you already play a fair game of poker but want to become one of the very few players who consistently play well then you need this book The concepts discussed in this book are brought into clear focus on the accompanying 180 minute CD of videos where the author can be seen explaining his decision making process Here is an extract

Thinking in Bets Annie Duke, 2019-05-07 NATIONAL BESTSELLER Poker champion turned business consultant Annie Duke teaches you how to get comfortable with uncertainty and make better decisions as a result in the ultimate guide to thinking about risk Charles Duhigg author of *The Power of Habit* A big favorite among investors these days *The New York Times* Outstanding Jason Zweig *The Wall Street Journal* In Super Bowl XLIX Seahawks coach Pete Carroll made one of the most controversial calls in football history With 26 seconds remaining and trailing by four at the Patriots one yard line he called for a pass instead of a hand off to his star running back The pass was intercepted and the Seahawks lost Critics called it the dumbest play in history But was the call really that bad Or did Carroll actually make a great move that was ruined by bad luck Even the best decision doesn't yield the

best outcome every time There s always an element of luck that you can t control and there is always information that is hidden from view So the key to long term success and avoiding worrying yourself to death is to think in bets How sure am I What are the possible ways things could turn out What decision has the highest odds of success Did I land in the unlucky 10% on the strategy that works 90% of the time Or is my success attributable to dumb luck rather than great decision making Annie Duke a former World Series of Poker champion turned business consultant draws on examples from business sports politics and of course poker to share tools anyone can use to embrace uncertainty and make better decisions For most people it s difficult to say I m not sure in a world that values and even rewards the appearance of certainty But professional poker players are comfortable with the fact that great decisions don t always lead to great outcomes and bad decisions don t always lead to bad outcomes By shifting your thinking from a need for certainty to a goal of accurately assessing what you know and what you don t you ll be less vulnerable to reactive emotions knee jerk biases and destructive habits in your decision making You ll become more confident calm compassionate and successful in the long run
