BLACK LIVES HAVE ALWAYS MATTERED A COLLECTION OF ESSAYS POEMS AND PERSONAL NARRATIVES edited by Abiodun Oyewole extends beyond the Black Lives Matter movement's primary agenda of police brutality to acknowledge that even when affronted with slavery segregation and Jim Crow racial injustice and inequality black lives have always mattered While written primarily by African American poets writers activists and scholars selections are also from people of the Latino and African diasporas and white activists Collectively these 79 contributors provide a call to action that challenges readers to confront long held values and beliefs about black lives as well as white privilege and fragility as it surveys the historical and contemporary ravages of racism and its persistence of structural inequality More importantly BLACK LIVES HAVE ALWAYS MATTERED provides a first hand perspective to a problem known to the African American community long before the Black Lives Matter movement revealed it to the general public that black lives have always mattered Connecting the past to the present the contributors of BLACK LIVES HAVE ALWAYS MATTERED provide an eye opening and engaging collection that has the potential to reignite a broader push for black liberation and equality for all Building Global Labor Solidarity in a

Building Houses out of Chicken Legs Psyche A. Williams-Forson, 2006-12-08 Chicken both the bird and the food has played multiple roles in the lives of African American women from the slavery era to the present It has

provided food and a source of income for their families shaped a distinctive culture and helped women define and exert themselves in racist and hostile environments *Psyche* Williams Forson examines the complexity of black women's legacies using food as a form of cultural work While acknowledging the negative interpretations of black culture associated with chicken imagery Williams Forson focuses her analysis on the ways black women have forged their own self definitions and relationships to the gospel bird Exploring material ranging from personal interviews to the comedy of Chris Rock from commercial advertisements to the art of Kara Walker and from cookbooks to literature Williams Forson considers how black women arrive at degrees of self definition and self reliance using certain foods She demonstrates how they defy conventional representations of blackness and exercise influence through food preparation and distribution Understanding these complex relationships clarifies how present associations of blacks and chicken are rooted in a past that is fraught with both racism and agency The traditions and practices of feminism Williams Forson argues are inherent in the foods women prepare and serve

Commercialization and dietary diversity of Rwandan smallholder farmers: A focus on women and youth headed households Mukangabo, Emerence, Warner, James, 2025-02-18 Using a household dietary diversity score as a proxy for household access to nutritious foods this paper assesses the relationship between commercialization and nutritional outcomes of Rwandan smallholder farmers with a particular emphasis on women and youth headed households The results indicate that commercialization has a strong positive effect on household dietary diversity but mixed results between sub categories of households For instance male headed households have higher overall dietary diversity compared to female headed ones but much of that variation can be explained by higher asset ownership and income However relative to male headed households female headed households appear to respond to increasing levels of commercialization by consuming more diverse foods an insight that could be useful for targeted interventions Importantly youth headed households exhibit greater household dietary diversity than those households headed by older individuals despite having both lower levels of assets and crop commercialization General determinants that positively influence household dietary diversity include the level of commercialization household non farm assets market access education of the household head the presence of children under five in the household irrigation use land size and livestock holdings The goal of this research is to enable policy makers to better identify the drivers of household dietary consumption particularly among more vulnerable households and how to encourage a more diverse diet for better nutritional outcomes
