Winning with the News Media Clarence Jones, 1998-11 **Winning with the News Media** Clarence Jones, 2005

Public Relations on the Net Shel Holtz, 2002 California based consultant on Internet communications Holtz has updated his 1998 guide by removing the basics of computer use that he can now assume readers to know and by replacing case studies from the period with ones that make sense four years later The Internet is one of the most significant tools for public relations he says but using it to best advantage requires strategic thinking about how to apply it to communication efforts Annotation copyrighted by Book News Inc Portland OR **Culture, Politics and Climate Change** Deserai A. Crow, Maxwell T. Boykoff, 2014-03-21 Focusing on cultural values and norms as they are translated into politics and policy outcomes this book presents a unique contribution in combining research from varied disciplines and from both the developed and developing world This collection draws from multiple perspectives to present an overview of the knowledge related to our current understanding of climate change politics and culture It is divided into four sections Culture and Values Communication and Media Politics and Policy and Future Directions in Climate Politics Scholarship each followed by a commentary from a key expert in the field The book includes analysis of the challenges and opportunities for establishing successful communication on climate change among scientists the media policy makers and activists With an emphasis on the interrelation between social cultural and political aspects of climate change communication this volume should be of interest to students and scholars of climate change environment studies environmental policy communication cultural studies media studies politics sociology The Media and Sino-American Rapprochement, 1963-1972 Guolin Yi, 2020-11-11 Winner of the ACPSS Research Award An important new cultural study of the Cold War Guolin Yi's *The Media and Sino American Rapprochement 1963 1972* analyzes how the media in both countries shaped public perceptions of the changing relations between China and the United States in the decade prior to Richard Nixon's visit to Beijing This book offers the first systematic study of Cankao Xiaoxi Reference News an internal Chinese newspaper that carried relatively objective stories the Xinhua News Agency translated from world news media for circulation among Communist cadres As the main channel for the cadres to learn about the outside world this newspaper provides a window into China's evolving foreign policy including the reception of signals from the Nixon administration Yi compares this internal communications channel with the public accounts contained in the more widely circulated newspaper People's Daily a chief propaganda outlet of the Chinese Communist Party CCP directed at its own people and China watchers all over the world A third level of communication emerges in classified CCP instructions and government documents By approaching the Chinese communication system on three levels internal public and classified Yi's analysis demonstrates how people at different positions in the political hierarchy accessed varying types of information allowing him to chart the development of Beijing's approach to the U S government In a corresponding analysis of the defining features of American reporting on China Yi considers the impact of

government media relationships in the United States during the Cold War Alongside prominent magazines and newspapers particularly the New York Times and the Washington Post in their differing coverage of key events Yi discusses television networks which proved vital for promoting the success of Ping Pong Diplomacy and the impact of Nixon's visit in 1972 With its comparative study of news outlets in the two countries *The Media and Sino American Rapprochement 1963-1972* presents a thorough and comprehensive perspective on the role of the media in influencing domestic Chinese and American public opinion during a critical decade
