from 1558 to 1718 Wallace Notestein,2012-05 Excerpt from preface This study of witchcraft has been limited to a period of about one hundred and sixty years in English history The year 1558 has been chosen as the starting point because almost immediately after the accession of Elizabeth there began the movement for a new law a movement which resulted in the statute of 1563 With that statute the history of the persecution of witches gathers importance The year 1718 has been selected as a concluding date because that year was marked by the publication of Francis Hutchinson s notable attack upon the belief Hutchinson levelled a final and deadly blow at the dying superstition

that the belief in witchcraft is no longer existent among intelligent people and that its history in consequence seems to possess rather an antiquarian than a living interest No one can tell the story of the witch trials of sixteenth and seventeenth century England without digging up a buried past and the process of exhumation is not always pleasant Yet the study of English witchcraft is more than an unsightly exposure of a forgotten superstition There were few aspects of sixteenth and seventeenth century life that were not affected by the ugly belief It is quite impossible to grasp the social conditions it is impossible to understand the opinions fears and hopes of the men and women who lived in Elizabethan and Stuart England without some knowledge of the part played in that age by witchcraft It was a matter that concerned all classes from the royal household to the ignorant denizens of country villages
