exploring the profound impact of their deeds on those in their wake Richard Yates and the Flawed American Dream Jennifer Daly, 2017-10-13 Richard Yates 1926 1992 has been described as a writer's writer but has never received the critical attention befitting that designation. Firmly rooted in the zeitgeist of 1950s, his work remains startlingly relevant, addressing themes of American identity, the nature of marriage and relationships between men and women, and what it means to get ahead in a society entranced by a flawed American Dream. This collection of new essays is the first to focus on this underappreciated author. It opens up his body of work for a new generation of readers and positions Yates as a writer of significance in the American tradition.

Schizophrenia Alfred Sparman, 2022-02-28 REX SCOTLAND had serious mental health issues as a child. Rejected by his father, siblings, and peers, he was considered a nobody. The only person that understood him was his mother, Jane Scotland, but then she died. Killing was a pastime for Rex. Most people avoid killing due to dire consequences; however, with a Schizoid personality, there are no boundaries. Rex's life was saved by the Doc on a plane from Costa Rica. A friendship ensued, and Rex went across the shores of the states, bringing down evil on all enemies of his new found and only friend. Now Rex had found a real reason to kill. Rex Scotland would make Charles Manson's work look like a child's play. Dr. Alfred Sparman is an interventional Cardiologist. He practiced in NY, Florida, and Tennessee. He now is the CEO of The Sparman Clinic and 4H Hospital in Barbados. He has published many medical articles and also is the author of *158 Seconds Switched* and *The Life Pill*.

Mysterious Disappearances Mark Chambers, AI, 2025-03-31 *Mysterious Disappearances* explores the perplexing realm of unexplained vanishings throughout history, focusing on people, ships, and aircraft that have disappeared without a trace. This true crime and history examination delves into the evolution of investigative methods from early historical disappearances to more recent incidents, highlighting the enduring mystery surrounding these events. The book uniquely emphasizes the human element, exploring the impact on families and communities affected by these unsolved cases. Cases range from maritime mysteries involving lost ships to aviation mysteries of missing aircraft, offering a detailed look at the factors contributing to these disappearances, such as navigational errors and mechanical failures. One intriguing insight involves the book's exploration of how these events illuminate human fallibility and the limitations of our understanding. Another is the examination of how cultural depictions in literature and film reflect our fascination with the unknown. Structured chronologically, the book progresses through categories of disappearances, starting with an overview of common challenges and then presenting detailed case studies. By integrating perspectives from diverse fields like criminology and atmospheric science, *Mysterious Disappearances* offers a holistic view, encouraging readers to critically evaluate information and appreciate the complexities of these enduring mysteries.
