in Women Fulvia Prever, Gretchen Blycker, Laura Brandt, 2023-06-28 Behavioural Addiction in Women gives insight into ongoing research efforts and clinical developments across the globe focusing specifically on women with behavioural addictions The book brings together an international network of clinicians and researchers to offer a unique transcultural female perspective on female specific aspects of addiction which is underrepresented in the available literature By compiling both research and clinical spotlights focusing on women with behavioural addictions across the six continents the book is an

important first step towards building a shared knowledge base on the subject starting from the importance of female specific diagnostic criteria to new therapeutic strategies prevention programs and harm reduction approaches This book will help us gain a better understanding of ongoing work and where to allocate our attention and efforts for helping a vulnerable and in many areas of the world still underserved and economically disadvantaged population The book will be of great interest to researchers and clinicians in the field of addiction *Addictions From an Attachment Perspective* Richard Gill,2018-05-15

This outstanding book is an important collection of papers from the 2013 John Bowlby Memorial Conference by accomplished clinicians from different modalities who share their experience of working with people with different kinds of addiction The papers bring together an in depth understanding that addictions are a response to and hold the pain of broken attachments and are best treated within healthy interpersonal relationships For a long time the person with an addiction has been seen as the problem with society being able to live in denial of the causes These papers open up innovative and effective ways of working with people troubled by addiction from an attachment informed perspective Contributors Cara Crossan Richard Gill Lynn Greenwood Bob Johnson Liz Karter Edward Khantzian Arlene Vetere Kate White Jason Wright Setting Limits Pekka Sulkunen,Thomas F. Marionneau,Janne Nikkinen,Jim Orford,Robin Room,Ingeborg Rossow,2018-12-06 Commercial gambling is a recent historical phenomenon It has developed into a profitable industry that supplies a range of recreational activities to its customers and is a significant way of collecting money from players to distribute to companies state budgets and other beneficiaries Many of these are civil society organizations using the money for producing services in sports culture social work and health care However gambling can also develop into pathological behaviour Using a public interest framework this book discusses the policies that will best serve the public good and minimize individual and collective harms After describing the historical context of the gambling and the current global burden of the activity available methods of regulating the industry are evaluated using the available scientific evidence By analysing the effectiveness of gambling policies and their alignment with the public interest the epidemiological obstacles to successful regulation are considered in detail There is good evidence for the effectiveness of restrictions on availability and access but preventing gambling related harm is not possible without limiting the overall volume of the activity and hence the profits for the gambling industry and governments Taking an international approach this book delivers a comprehensive review of the epidemiological evidence documenting the harmful effects of gambling on individuals communities and societies Essential reading for policymakers social and behavioural scientists in gambling research and public health researchers *Setting Limits* examines a global view of an emerging epidemic of gambling problems **Perspectives on Substance Use, Disorders, and Addiction** Margaret Fetting,2015-09-23
