Believing Minds. Fernando José Walsh, 2025-10-09 Is science truly the enemy of faith Can a practicing scientist believe in God Is there an inevitable clash between scientific knowledge and the Bible From Copernicus 1473 1543 to contemporary researchers 200 highly distinguished scientists provide compelling testimony that science clearly affirms a Creator one perfectly consistent with the God revealed in the Scriptures This book delves into the lives and powerful convictions of these titans of science who were also giants of faith The culmination of years of deep investigation this book uncovers a profound truth often obscured by media influence the supposed incompatibility between science and faith is a fallacy Instead it reveals that modern science was born and accelerated by thinkers who based their research on the foundational belief in a wisely designed universe They saw nature s laws as the imprint of a Supreme Creator who empowered humanity created in His image to discover these laws for universal good Explore the inspiring journeys remarkable achievements and deep spiritual convictions of legendary figures like Newton Galileo Pascal Morse Pasteur Edison Marconi and Einstein Featured within are over 30 Nobel Prize winners in crucial scientific fields alongside astronauts whose perspectives were transformed by their experiences Grounded in extensive meticulous research the book champions its thesis with undeniable clarity Science demonstrates that God exists Derek Barton 1918 1998 Nobel Laureate in Chemistry 1969 *Hope* Charlene Moorer, NCC LPC, 2022-08-25 Hope Heart of Peaceful Endurance A Godly Resilience In our ever evolving world where nefarious happenings are occurring regularly and positivity seems to be obscure we all seem to be searching for hope It is the possession we need and perhaps long for to encourage every passing day When things look impossible or in despair we have to build up our hope and lean on our faith Hope is a skill In this easy to read yet powerful book Charlene takes you through five practical steps on employing your hope skills There is exploration through subjective and dictionary definitions of hope before introducing the steps of this indistinct skill In addition we will journey through ways that hope can be stolen and conversely how we can sustain or reinforce our hope through action even during trying times We are more resilient than we give ourselves credit By using Bible verses real life narratives constructive levity and pragmatic ingenuity the goal is to convey to the reader how to identify and utilize the hope steps how to prevent the enemy from stealing your hope why you have to watch your words or words spoken over you what the Bible has to say about hope how to look for the butterfly moments and pursue resilience how antagonistic feelings can affect your hope why hope is the link between faith and wellness where our hope comes from why you are worth it and being kind to yourself During tough times hope is not the easiest to hold on to However it is the best gift you can give yourself Be encouraged and allow God to minister to you Happy reading **The Key Principles to Live a Happy, Healthy and Successful Life** D Livingstone M, 2011-10 This book gives you the key principles that if you read understand and apply your life will change and you will be on your way to achieving
