Thinking Politically Essays In Political Theory:

Thinking Politically Michael Walzer, 2007-01-01 A collection of the most important writings of Michael Walzer one of the world's most influential political thinkers Michael Walzer is widely regarded as one of the world's leading political theorists In a career spanning more than fifty years he has wrestled with some of the most crucial political ideas and questions of the day developing original conceptions of democracy social justice liberalism civil society nationalism multiculturalism and terrorism *Thinking Politically* brings together some of Walzer's most important work to provide a wide ranging survey of his thinking and the vision that underlies his responses to contemporary political debates The book also includes a previously unpublished essay on human rights David Miller's substantial introduction presents a detailed analysis of the development of Walzer's ideas and connects them to wider currents of political thought In addition the book includes a recent interview with Walzer on a range of topical issues and a detailed bibliography of his works This collection will be welcomed by scholars in politics and philosophy as well as anyone keen to engage in discussion on some of the key issues of our times Law and Democracy in Neil MacCormick's Legal and Political Theory Agustín José Menéndez, John Erik Fossum, 2011-03-29 This volume offers a collection of articles by leading legal and political theorists Originally intended as a celebration of MacCormick's work on the occasion of the completion of the four volume series on Law State and Practical Reason it has turned into a homage and salute after MacCormick's passing Cast in MacCormick's reflexive spirit the book presents a critical reconstruction of the Scottish philosopher's work with the aim of revealing the connections between law and democracy in his writings and furthering his insights in each specific field Neil MacCormick made outstanding contributions to the understanding of law and democracy under conditions of pluralism His institutional theory of law has elucidated the close connection between the normative character of law as a means of social integration and legal social practices This has produced a synthesis of the key insights of the legal and political theories of Kelsen Hart Alexy and Dworkin and has broken new ground by undermining the monolithic and nation state centered character of standard legal theories Political Theology and Pluralism Joseph Rivera, 2018-05-03 Reviving the ancient political wisdom of St Augustine in combination with insights drawn from contemporary political theorist John Rawls Joseph Rivera grapples with the polarizing nature of religion in the public square Political theology as a discipline tends to argue that communitarianism remains the only viable political option for religious practitioners in a complex pluralist society Unsurprisingly we are increasingly accustomed to think the religious voice is anti secular and illiberal On the contrary Christian theology and political liberalism Rivera argues are not incompatible Political Theology and Pluralism challenges the longstanding antithesis between theology and political liberalism by asking his readers to focus not on difference but on our common humanity Outlining real strategies for public dialogue in a liberal state Rivera offers the opportunity to discover what it means to practice civic friendship in pluralist context Routledge International Handbook of Contemporary Social and Political Theory Gerard Delanty, Stephen P.

Turner,2021-09-20 The triangular relationship between the social the political and the cultural has opened up social and political theory to new challenges The social can no longer be reduced to the category of society and the political extends beyond the traditional concerns of the nature of the state and political authority This Handbook will address a range of issues that have recently emerged from the disciplines of social and political theory focusing on key themes as opposed to schools of thought or major theorists It is divided into three sections which address the most influential theoretical traditions that have emerged from the legacy of the twentieth century the most important new and emerging frameworks of analysis today the major theoretical problems in recent social and political theory The Second edition is an enlarged revised and updated version of the first edition which was published in 2011 and comprised 42 chapters The new edition consists of 50 chapters of which seventeen are entirely new chapters covering topics that have become increasingly prominent in social and political theory in recent years such as populism the new materialism postcolonialism Deleuzean theory post humanism post capitalism as well as older topics that were not covered in the first edition such as Arendt the gift critical realism anarchism All chapters retained from the first edition have been thoroughly revised and updated The Routledge International Handbook of Contemporary Social and Political Theory encompasses the most up to date developments in contemporary social and political theory and as such is an essential research tool for both undergraduate and postgraduate students as well as researchers working in the fields of political theory social and political philosophy contemporary social theory and cultural theory

Tensions within and between Religions and Human Rights Johannes A. van der Ven,Hans-Georg

Ziebertz,2012-03-02 This volume contains theoretical and empirical articles on tensions within and between religion and human rights There are conflicts in the past histories of Christianity and Islam in regard to human rights but also in contemporary history There are also tensions in the sphere of human rights like the relation between natural law and human rights morality and law liberty and equality civil rights and socio economic rights and more specific ones like the rights of humans and citizens religious freedom and the separation of church and state religious freedom and freedom of speech and the state and religion on social welfare provisions The volume aims at theoretical clarification and empirical exploration on data from 14 countries Contributors include Jean Pierre Wils Piet Hein van Kempen Mathias Rohe Johannes Hans van der Ven Anders Sj borg Raymond J Webb Jack Curran Marion Reindl Leo W J M van der Tuin Clement D Fumbo and Hans Georg Ziebertz

Reading Walzer Yitzhak Benbaji,Naomi Sussmann,2013-10-30 Michael Walzer is one of the world s leading philosophers and political theorists In addition to his best known books such as Spheres of Justice and Just and Unjust Wars he has contributed to contemporary political debates beyond academia in the New York Times the New Yorker and Dissent Reading Walzer is the first book to assess the full range of Walzer s work An outstanding team of international contributors consider the following topics in relation to Walzer s work the moral standing of nation states individual responsibility and laws governing the conduct of war debates over intervention and non intervention human and minority rights moral and

cultural pluralism equality justice Walzer s radicalism and role as a critic All chapters have been specially commissioned for this collection and Walzer s responses to his critics makes Reading Walzer essential reading for students of political philosophy and political theory

The Last Utopia Samuel Moyn, 2012-03-05 Human rights offer a vision of international justice that today s idealistic millions hold dear Yet the very concept on which the movement is based became familiar only a few decades ago when it profoundly reshaped our hopes for an improved humanity In this pioneering book Samuel Moyn elevates that extraordinary transformation to center stage and asks what it reveals about the ideal s troubled present and uncertain future For some human rights stretch back to the dawn of Western civilization the age of the American and French Revolutions or the post World War II moment when the Universal Declaration of Human Rights was framed Revisiting these episodes in a dramatic tour of humanity s moral history The Last Utopia shows that it was in the decade after 1968 that human rights began to make sense to broad communities of people as the proper cause of justice Across eastern and western Europe as well as throughout the United States and Latin America human rights crystallized in a few short years as social activism and political rhetoric moved it from the hallways of the United Nations to the global forefront It was on the ruins of earlier political utopias Moyn argues that human rights achieved contemporary prominence The morality of individual rights substituted for the soiled political dreams of revolutionary communism and nationalism as international law became an alternative to popular struggle and bloody violence But as the ideal of human rights enters into rival political agendas it requires more vigilance and scrutiny than when it became the watchword of our hopes

Spheres of Injustice Bruno Perreau, 2025-04-08 How minority issues concern all of us and why a new conception of justice grounded in solidarity can revitalize democracy How can the rights of minorities be protected in democracies The question has been front and center in the US since the Supreme Court s repeal of affirmative action In Europe too minority politics are being challenged Reactionary groups abuse the notion of minority by demanding to be protected just as minorities are while the notion of a protected class risks encouraging competition among minorities Also in the age of algorithms the very concept of minority is being transformed the law of averages is replacing that of the greater number In Spheres of Injustice Bruno Perreau shows how can we revitalize minority politics and make the fight against discrimination beneficial for all Perreau proposes thinking about minority experiences relationally How one person is governed has a direct impact on how another is Legal provisions that protect gender can be used to protect race those that protect disability can protect age sexual orientation or class and so on This is what Perreau calls intrasectionality a new concept and an innovative legal strategy which builds on the idea of intersectionality This book takes up many concrete cases discrimination at work and access to healthcare new techniques of deliberation innovative teaching practices etc and connects them to the history of minority movements the sociology of violence and contemporary theories of justice Updating one of the greatest classics of political theory Spheres of Justice A Defense of Pluralism and Equality by Michael Walzer Perreau shows that minority presence can teach new forms of

responsibility to one another and that the resonances between experiences of injustice much more than a belief in shared moral principles ground a political community

International Society, Global Polity Chris Brown, 2014-11-03 This book provides an overview of the current state of the art in International Political Theory IPT It offers a coherent account of the field of IPT placing both traditional and modern work in a clear and logical framework The text moves from conventional accounts of the society of states to non state centric understandings of global politics The first part covers international law war human rights and humanitarianism The second part looks at the new human rights regime the responsibility to protect the ethics of war and global justice Each chapter includes annotated reading lists highlighting directions you can take to further your reading International Society Global Polity is perfect for students taking courses on International Political Theory International Theory Global Ethics and Global Justice

Modern Just War Theory Michael P. Farrell, 2013-06-20 Contributions to Illuminations A Scarecrow Press Series of Guides to Research in Religion provide students and scholars lay readers and clergy with a road map to research in key areas of religious study All commonly constructed with introductions to the topic and reviews of key thinkers concepts and events each volume includes surveys of the primary and secondary sources with critical evaluations of their places in the canon of thought and research on the topic Focusing primarily on the knowledge required by today s students and scholars each guide is a must have for any student of religion The twentieth century saw an explosion of wars and an accompanying explosion of literature on the morality of war Thinking among Christian clerics and scholars on the idea of just war shifted with developments on the battlefield Alternatives to just war theory such as pacifism and realism found new proponents in the published work of the neo Anabaptists and Niebhurians Meanwhile proponents of Christian just war theory had to address challenges from competing ideologies as well as ththose presented by the changing nature of warfare Modern Just War Theory A Guide to Research by scholar and librarian Michael Farrell serves as a manual for students and scholars studying Christian just war theory helping them navigate the wealth of just war literature produced in the twentieth and twenty first centuries Farrell s guide provides an introduction to the major developments of just war theory in the twentieth century including sections on how to research just war theory an overview of some of the most important theorists and developments of the twentieth century and discussions of key search terms and related topics Farrell then surveys and evaluates key primary and secondary sources for researchers on just war theory as well as related sources on Christian realism and the responses of just war theorists to proponents of pacifism and secular just war theories Modern Just War Theory will appeal to students and scholars of theology military history international law and Christian ethics

Just War Theory Thom Brooks, 2012-10-19 Just War Theory raises some of the most pressing and important philosophical issues of our day When is a war a just war if ever Do all soldiers in war have moral equivalence What is the difference between combatants and non combatants This book brings together some of the most important essays in this area written by leading scholars and offering significant contributions to how we understand just war theory The essays

have all appeared in the Journal of Moral Philosophy an internationally recognized leading philosophy journal **Arendt, Levinas and a Politics of Relationality** Anya Topolski, 2015-05-21 Born in Eastern Europe educated in the West under the guidance of Martin Heidegger and the phenomenological tradition and forced to flee during the Holocaust because of their Jewish identity it should come as no surprise that Emmanuel Levinas and Hannah Arendt's ideas intersect in an important way This book demonstrates for the first time the significance of a dialogue between Levinas' ethics of alterity and Arendt's politics of plurality Anya Topolski brings their respective projects into dialogue by means of the notion of relationality a concept inspired by the Judaic tradition that is prominent in both thinker's work The book explores questions relating to the relationship between ethics and politics the Judaic contribution to rethinking the meaning of the political after the Shoah and the role of relationality and responsibility for politics The result is an alternative conception of the political based on the ideas of plurality and alterity that aims to be relational inclusive and empowering **The Ashgate Research Companion to Political Leadership** Mikhail A. Molchanov, 2016-03-23 Discussing the major theories of political leadership with a focus on contemporary challenges that political leaders face worldwide this research companion provides a comprehensive and up to date resource for an international readership The editors combine empirical and normative approaches to emphasize the centrality of political culture as well as the limits of culture and the universal demands of innovative adaptation The volume examines **The Wandering Thought of Hannah Arendt** Hans-Jörg Sigwart, 2016-09-15 This book interprets Hannah Arendt's work as a wandering type of political theory Focusing on the sub text of Arendt's writings which questions how to think adequately in political theory whilst categorically refraining from explicitly investigating meta theoretical questions of epistemology and methodology the book characterizes her theorizing as an oscillating movement between the experiential positions of philosophy and politics and by its distinctly multi contextual perspective In contrast to the not of this world attitude of philosophy the book argues that Arendt's political theory is of this world In contrast to politics it refrains from being at home in any particular part of this world and instead wanders between the multiple horizons of the many different political worlds in time and space The book explores how these two decisive motives of Arendt's theoretical self perception majorly influence her epistemological methodological and normative frame of reference and inspire her understanding of major concepts including politics judgment understanding nature and space **Promoting Justice Across Borders** Lucia M. Rafanelli, 2024-01-11 Global political actors of all kinds exert influence in societies beyond their own in myriad ways including via public criticism consumer boycotts divestment campaigns sanctions and forceful intervention Often they do so in the name of justice promotion These attempts to promote justice in foreign societies raise several moral questions For example are there ways to promote one's own ideas about justice in another society while still treating its members tolerantly Are there ways to do so without disrespecting their legitimate political institutions or undermining their collective self determination This book addresses these and other questions to develop ethical principles we can use to determine whether

a proposed attempt to promote justice in a foreign society is morally permissible

Walzer and War Graham Parsons, Mark A. Wilson, 2020-04-17 This book presents ten original essays that reassess the meaning relevance and legacy of Michael Walzer's classic *Just and Unjust Wars* Written by leading figures in philosophy theology international politics and the military the essays examine topics such as territorial rights lessons from America's wars in Iraq and Afghanistan the practice of humanitarian intervention in light of experience Walzer's notorious discussion of supreme emergencies revisionist criticisms of noncombatant immunity gender and the rights of combatants the peacebuilding critique of just war theory and the responsibility of soldiers for unjust wars Collectively these essays advance the debate in this important field and demonstrate the continued relevance of Walzer's work

Justifying Contract in Europe Martijn Willem Hesselink, 2021 This title uses contemporary political theories to address fundamental questions on European contract law It also places these theories in the context of the current European contract law landscape This book highlights future options for contract law in the EU and how it may need to change

Intolerance Robert E. Tully, Bruce Chilton, 2017-07-14 Aristotle accurately characterized humans as political animals Whether through birth or from choice people naturally cluster into groups for protection advancement and the pursuit of well being But Aristotle's description does not hint at the powerful binary tension within this human tendency Leaders enhance a social group's sense of identity by appealing to the members' commitments and shared traditions to their hopes strengths sacrifices and fears Often however they cultivate not only an awareness of difference but even a sense of superiority since for every social group there are those outside the group Maintaining a group's solidarity can too easily lead to the righteousness of intolerance towards those who are excluded The reinforcement of group identity in this way runs so deep in human nature that holding up a mirror to ourselves inevitably reveals a split image the people we want to see and the people we're glad we're not

Intolerance: Political Animals and Their Prey presents stark examples of how the US has treated the "other" The papers in this volume hold up various unflattering mirrors of intolerance from the areas of History Law Philosophy Political Science and Religion The authors of these scholarly studies do not condemn Rather their research compels us to look at ourselves as the political animals we are

Intolerance: Political Animals and Their Prey is the product of a year-long multi-disciplinary collaboration between faculty members of Bard College and the United States Military Academy at West Point The project involved parallel seminar courses at both institutions along with Joint Sessions all focused on the central theme of intolerance and culminated in a three-day academic Conference at Bard in the Spring of 2015 This volume inaugurates a new series being published by Hamilton Books under the general title *Dialogues on Social Issues* Bard College and West Point

Reconstructing Human Rights Joe Hoover, 2016-06-02 We live in a human rights world The language of human rights claims and numerous human rights institutions shape almost all aspects of our political lives yet we struggle to know how to judge this development Scholars give us good reason to be both supportive and sceptical of the universal claims that human rights enable alternatively suggesting that they are pillars of cross-cultural understanding

of justice or the ideological justification of a violent and exclusionary global order All too often however our evaluations of our human rights world are not based on sustained consideration of their complex ambiguous and often contradictory consequences Reconstructing Human Rights argues that human rights are only as good as the ends they help us realise We must attend to what ethical principles actually do in the world to know their value So for human rights we need to consider how the identity of humanity and the concept of rights shape our thinking structure our political activity and contribute to social change Reconstructing Human Rights defends human rights as a tool that should enable us to challenge political authority and established constellations of political membership by making new claims possible Human rights mobilise the identity of humanity to make demands upon the terms of legitimate authority and challenges established political memberships In this work it is argued that this tool should be guided by a democratising ethos in pursuit of that enables claims for more democratic forms of politics and more inclusive political communities While this work directly engages with debates about human rights in philosophy and political theory in connecting our evaluations of the value of human rights to their worldly consequences it will also be of interest to scholars considering human rights across disciplines including Law Sociology and Anthropology

[The Meaning of Partisanship](#) Jonathan White, Lea Ypi, 2016-09-29 For a century at least parties have been central to the study of politics Yet their typical conceptual reduction to a network of power seeking elites has left many to wonder why parties were ever thought crucial to democracy This book seeks to retrieve a richer conception of partisanship drawing on modern political thought and extending it in the light of contemporary democratic theory and practice Looking beyond the party as organization the book develops an original account of what it is to be a partisan It examines the ideas orientations obligations and practices constitutive of partisanship properly understood and how these intersect with the core features of democratic life Such an account serves to underline in distinctive fashion why democracy needs its partisans and puts in relief some of the key trends of contemporary politics

Thinking Politically Essays In Political Theory Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has be more apparent than ever.
