Religious Violence in Contemporary Japan Ian Reader, 2013-10-11 The Tokyo subway attack in March 1995 was just one of a series of criminal activities including murder kidnapping extortion and the illegal manufacture of arms and drugs carried out by the Japanese new religious movement Aum Shinrikyo under the guidance of its leader Asahara Shoko Reader looks at Aum s claims about itself and asks why did a religious movement ostensibly focussed on yoga meditation asceticism and the pursuit of enlightenment become involved in violent activities Reader discusses Aum s spiritual roots placing it in the context of contemporary Japanese religious patterns Asahara s teaching are examined from his earliest public

pronouncements through to his sermons at the time of the attack and statements he has made in court In analysing how Aum not only manufactured nerve gases but constructed its own internal doctrinal justifications for using them Reader focuses on the formation of what made all this possible Aum s internal thought world and on how this was developed Reader argues that despite the horrors of this particular case Aum should not be seen as unique nor as solely a political or criminal terror group Rather it can best be analysed within the context of religious violence as an extreme example of a religious movement that has created friction with the wider world that escalated into violence
