Smarts! Everybody's Got Them Thomas Armstrong, 2020-12-22 An imaginative picture book that defines eight ways everyone is smart and shows how to get smarter in each way It's easy for kids to get dejected and believe they're not as smart as the people around them Maybe they got a low grade on their math test last week or maybe they have a difficult time making new friends but what kids may not realize is that math skills and people skills are just two types of smarts There are actually eight types of smarts Word smarts Music smarts Number smarts Picture smarts Body smarts People smarts Self smarts Nature smarts *Smarts Everybody's Got Them* vividly explains and depicts the eight ways that everyone is smart and shows kids how they can get better at each one even when they make a mistake

In Their Own Way Thomas Armstrong, 2000-08-07 Does your child have a favorite subject activity or hobby Children learn in multiple ways and educator Thomas Armstrong has shown hundreds of thousands of parents and teachers how to locate those unique areas in each of our children where learning and creativity seem to flow with special vigor In this fully updated classic on multiple intelligences Armstrong sheds new light on the eight ways to bloom or the eight kinds of multiple intelligences While everyone possesses all eight intelligences Armstrong delineates how to discover your child's particular areas of strength among them The book shatters the conventional wisdom that brands our students as underachievers unmotivated or as suffering from learning disabilities attention deficit hyperactivity disorder or other learning diseases Armstrong explains how these flawed labels often overlook students who are in possession of a

distinctive combination of multiple intelligences and demonstrates how to help them acquire knowledge and skills according to their sometimes extraordinary aptitudes Filled with resources for the home and classroom this new edition of In Their Own Way offers inspiration for every learning situation **Becoming a Multiple Intelligences School** Thomas R. Hoerr,2000-02-15 In this invaluable book Tom Hoerr relates a decade s worth of MI experiences at St Louis New City School We learn about the staff s initial exposure to MI theory the many activities some more successful than others that were undertaken by faculty and staff in teaching curriculum adult development and assessment the challenges that the leader faces in attempting to bring about significant and lasting change Especially compelling are the continuing efforts to develop the personal intelligences during a period when issues of diversity multiculturalism and standards loom so large Hoerr underscores the centrality of collegiality the problems posed by transient students and faculty the complementary role played by public exhibitions and standardized test scores the role of friends in determining the activities and intelligences favored by children the delicate line between support and challenge that the leader must walk the tension between excellence and perfection I value the concrete examples as well as the ties to important conceptual work such as that undertaken by Roland Barth on collegiality Peter Salovey on emotional intelligence and Peter Senge on the learning organization Achieving excellence has always been a process Hoerr makes it abundantly clear that the effort to use MI ideas effectively must remain on the agenda Still I can testify that over a 10 year period clear palpable impressive progress can be made We can improve schools significantly but only if we take the long view and do not settle for patchwork fixes Note This product listing is for the Adobe Acrobat PDF version of the book **Teaching English using the internet and multiple intelligences approach (第四版)** 2007-05-01 This book can be regarded as a resource book for teachers who would like to apply multiple entry point approaches a framework of multiple intelligences proposed by Gardner in their language classes On line sources are particularly valuable in learning situations where teachers usually expect authentic materials Moreover this book builds a bridge from theory to practical approach aiming to assist teachers who believe intrinsically in the use of technology but have not been trained in its use 1 2 3 4 **Celebrating Every Learner** Thomas R. Hoerr,Sally Boggeman,Christine Wallach,The New City School,2010-09-07 Howard Gardner s groundbreaking theory applied for classroom use This important book offers a practical guide to understanding how Howard Gardner s theory of Multiple Intelligences MI can be used in the classroom Gardner identified eight different types of intelligence linguistic logical spatial musical bodily kinesthetic naturalist interpersonal and intrapersonal Celebrating Every Learner describes the characteristics of each type of intelligence and follows up with ready to use lesson plans and activities that teachers can use to incorporate MI in their pre K through 6 classrooms Offers a treasury of easily implemented activities for engaging all students multiple intelligences from the New City School a leading elementary school at the forefront of MI education Provides ready to use lesson plans that teachers can use to incorporate MI in any elementary classroom Includes valuable essays on how and why to integrate MI in the classroom

Hoerr is the author of a bi monthly column for Educational Leadership as well as the editor of the Intelligence Connections e newsletter

Multiple Intelligences and Student Achievement Linda Campbell, Bruce Campbell, 1999-11-15 Finally a book about multiple intelligences MI theory that answers the questions that all educational innovations must ultimately address What are the results on student achievement How were those results achieved Multiple Intelligences and Student Achievement describes six schools that have used MI theory for five or more years Through case studies of two elementary two middle level and two high schools Linda and Bruce Campbell illustrate why markedly different schools large and small rich and poor inner city and suburban looked to MI when they wanted to boost student learning In schools with long term MI programs achievement gains are impressive in fact the disparity between white and minority students is reduced or eliminated Students at all three levels outperform their district county and national peers in basic skills Such gains are possible even though teachers do not teach to standardized and state assessment tests Instead they believe that all students have strengths and as a result students come to believe in themselves as well Moreover teachers have discovered that instruction through multiple intelligences is so positive and engaging that students all students can't help but learn This book provides educators who are new to MI theory with solid achievement data and curricular formats to support inform and inspire their work Those who have already worked with MI theory will find encouragement to continue and suggestions for refining their efforts
