Vol. III, Metaphysics** Henri Grenier, 1950 **Thomistic Philosophy** Henri Grenier, 1948 **METAPHYSICS Thomistic Philosophy Vol. III.** Henry Grenier, 1950 **Understanding the Divine in Early Modern Reformed Theology** Richard A. Muller, 2025-01-14 In *Understanding the Divine* Richard A Muller clarifies concepts and distinctions used by Reformed theologians of the sixteenth and seventeenth centuries to discuss the essence attributes and Trinitarian nature of God He wipes away caricatures of Calvin and succeeding generations of Reformed theologians as revolutionary thinkers by showing where they retrieved their concepts the contexts that demanded them to employ those ideas and what they actually meant

Reading these essays one comes to see the Reformed tradition as a conservative movement that developed patristic and medieval understandings of God in ways to address emerging problems and concerns of their day

The Architecture of Law Brian M. McCall, 2018-05-30 This book argues that classical natural law jurisprudence provides a superior answer to the questions What is law and How should law be made rather than those provided by legal positivism and new natural law theories What is law How should law be made Using St Thomas Aquinas's analogy of God as an architect Brian McCall argues that classical natural law jurisprudence provides an answer to these questions far superior to those provided by legal positivism or the new natural law theories The Architecture of Law explores the metaphor of law as an architectural building project with eternal law as the foundation natural law as the frame divine law as the guidance provided by the architect and human law as the provider of the defining details and ornamentation Classical jurisprudence is presented as a synthesis of the work of the greatest minds of antiquity and the medieval period including Cicero Aristotle Gratian Augustine and Aquinas the significant texts of each receive detailed exposition in these pages Along with McCall's development of the architectural image he raises a question that becomes a running theme throughout the book To what extent does one need to know God to accept and understand natural law jurisprudence given its foundational premise that all authority comes from God The separation of the study of law from knowledge of theology and morality McCall argues only results in the impoverishment of our understanding of law He concludes that they must be reunited in order for jurisprudence to flourish This book will appeal to academics students in law philosophy and theology and to all those interested in legal or political philosophy

Divine Will and Human Choice Richard A. Muller, 2017-05-02 This fresh study from an internationally respected scholar of the Reformation and post Reformation eras shows how the Reformers and their successors analyzed and reconciled the concepts of divine sovereignty and human freedom Richard Muller argues that traditional Reformed theology supported a robust theory of an omnipotent divine will and human free choice and drew on a tradition of Western theological and philosophical discussion The book provides historical perspective on a topic of current interest and debate and offers a corrective to recent discussions
