repeats the image of the object for owing to the general law that energy flows in the direction of least resistance the matter of the mental body is shaped most easily into the form already frequently taken this tendency to repeat vibrations once started when acted on by energy is due to Tamas to the inertia of matter and is the germ of Memory The molecules of matter having been grouped together fall slowly apart as other energies play on them but retain for a considerable time the tendency to resume their mutual relation if an impulse such as grouped them be given to them they promptly fall again into position Further when the Knower has vibrated in any particular way that power of vibration remains in him and in the case of the pleasuregiving or pain giving object the desire for the object or for avoiding the object sets that power free pushes it outwards one might say and thus gives the necessary stimulation to the mental body The image thus produced is recognized by the Knower and in the one case the attachment caused by pleasure makes him reproduce also the image of the pleasure In the other the repulsion caused by pain equally causes the image of the pain The object and the pleasure or the object and the pain are connected together in experience and when the set of vibrations that compose the image of the Thought Power, Its Control and Culture - Primary Source Edition Annie Besant,2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The below data was compiled from various identification fields in the bibliographic record of this title This data is provided as an additional tool in helping to ensure edition identification Thought Power Its Control And Culture Annie Besant Theosophical Publishing House Krotona 1918 Theosophy Thought and thinking

The O.E. Library Critic ,1911 **The Theosophical Review** ,1903 *The Theosophist* ,1901 *Thinking about Other People in Nineteenth-Century British Writing* Adela Pinch,2010-07-08 Nineteenth century life and literature are full of strange accounts that describe the act of one person thinking about another as an ethically problematic sometimes even a dangerously powerful thing to do In this book Adela Pinch explains why when and under what conditions it is possible or desirable to believe that thinking about another person could affect them She explains why nineteenth century British writers poets novelists philosophers psychologists devotees of the occult were both attracted to and repulsed by radical or substantial notions of purely mental relations between persons and why they moralized about the practice of thinking about other people in interesting ways Working at the intersection of literary studies and philosophy this book both sheds new light on a neglected aspect of Victorian literature and thought and explores the consequences of and the value placed on this strand of thinking about thinking *The Westminster Review* ,1902 *Accelerating Human Evolution by Theosophical Initiation* Yves Mühlematter,2022-12-19 The main subjects of analysis in the present book are the stages of initiation in the grand scheme of Theosophical evolution These initiatory steps are connected to an idea of evolutionary self development by means of a set of virtues that are relative to the individual s position on the path of evolution The central thesis is that these stages were translated from the Hindu tradition to the Theosophical tradition through multifaceted hybridization processes in which several Indian members of the Theosophical Society partook Starting with Annie Besant s early Theosophy the stages of initiation are traced through Blavatsky s work to Manilal Divedi and T Subba Row both Indian members of the Theosophical Society and then on to the San tana Dharma Text Books In 1898 the English Theosophist Annie Besant and the Indian Theosophist Bhagavan Das together founded the Central Hindu College Benares which became the nucleus around which the Benares Hindu University was instituted in 1915 In this context the San tana Dharma Text Books were published M hlematter shows that the stages of initiation were the blueprint for Annie Besant s pedagogy which she implemented in the Central Hindu College in Benares In doing so he succeeds in making intelligible how esoteric knowledge was transferred to public institutions and how a broader public could be reached as a result The dissertation has been awarded the ESSWE PhD Thesis prize 2022 by the European Society for the Study of Western Esotericism
