Winners Losers And Microsoft Competition And Antitrust In High Technology:

Winners, Losers & Microsoft S. J. Liebowitz, Stephen Margolis, 1999 Few issues in the high technology field are as divisive as the raging debate over competition innovation and antitrust Why do certain products and technologies become dominant while others fail Is there something about high technology that makes markets less dependable at choosing goods and services Will the robust competition and tremendous technological advances of the past two decades continue Or will they be suffocated by larger firms employing monopolistic practices Is antitrust primarily employed against monopolies to increase competition for the benefit of consumers or is it actually a vehicle that firms use against their rivals to restrict the competitive process *Winners Losers and Microsoft* is the authoritative and in depth book on these and other pressing questions now confronting high technology markets

Culture Wars Roger Chapman, 2010 Although openness and inclusion are cornerstones of life in the United States intolerance and reactionary politics are also very real As the nation prepares to elect a new president *The Culture Wars* addresses the key defining issues of contemporar

The Determination of Antitrust Liability in U.S. V. Microsoft Wayne R. Dunham, 2004

Competition, Innovation, and Antitrust Federico Etro, 2007-09-05 This book reviews recent progress in the theory of oligopoly and market leadership and provides new results on the theory of Stackelberg competition and Nash competition with strategic investment under endogenous entry These theories are applied to models of competition in quantities prices and to patent races The results are used to propose a new approach to competition policy and issues of the abuse of dominance

Evolutionary Spatial Economics Miroslav N. Jovanović, 2020-01-31 A crucial question in contemporary economics concerns where economic activities will locate and relocate themselves in the future This comprehensive innovative book applies an evolutionary framework to spatial economics arguing against the prevailing neoclassical equilibrium model providing important concrete and theoretical insights and illuminating areas of future enquiry

Competition Law and Regulation in European Telecommunications Pierre Larouche, 2000-05-24 Using numerous practical examples this book examines the evolution of EC telecommunications law following the achievement of liberalisation the main policy goal of the 1990s After reviewing the development of regulation in the run up to liberalisation the author identifies the methods used to direct the liberalisation process and tests their validity in the post liberalisation context A critical analysis is made of the claim that competition law will offer sufficient means to regulate the sector in the future Particular emphasis is given to the way in which EC Competition Law changed in the 1990s using the essential facilities doctrine an expansive non discrimination principle and the policing of cross subsidisation to tackle what were then thought of as regulatory matters Also examined within the work is the procedural and institutional interplay between competition law and telecommunications regulation In conclusion Larouche explores the limits of competition law and puts forward a long term case for sector specific regulation with a precise mandate to ensure that the telecommunications sector as a whole fulfils its role as a foundation for economic and social activity

The

International Handbook of Competition Manfred Neumann, Jürgen Weigand, 2013-01-01 This comprehensive Handbook demonstrates that academic thinking new and old has a role to play in shaping modern competition policy Gunnar Niels Oxera This indispensable Handbook examines the interface of competition policy competition law and industrial economics The book aims to further our understanding of how economic reasoning and legal expertise complement each other in defining the fundamental issues and principles in competition policy In specially commissioned chapters the book provides a scholarly review of economic theory empirical evidence and standards of legal evaluation with respect to monopolization of markets exploitation of market power and mergers among other issues The International Handbook of Competition Second Edition will be accessible to a wide audience including students of economics and law public administrators lawyers consultants and business executives

Geek and Hacker Stories Brian Alleyne, 2018-11-02 Geeks hackers and gamers share a common geek culture whose members are defined and define themselves mainly in terms of technology and rationality The members of geek culture produce and circulate stories to express who they are and to explain and justify what they do Geek storytelling draws on plots and themes from the wider social and cultural context in which geeks live The author surveys many stories of heated exchanges and techno tribal conflicts that date back to the earliest days of personal computing which construct the self and the enemy and express and debate a range of political positions *Geek and Hacker Stories* will be of interest to students of digital social science and media studies Both geeky and non technical readers will find something of value in this account

Evolutionary Economic Geography Miroslav Jovanovic, 2008-10-07 The purpose of this book is to provide a guided tour through the theoretical foundations of spatial locations of firms and industries in an evolutionary economic framework It addresses the issues of how a location of business in geographical space is selected and where economic activity may relocate in the future The analysis is in the context

Reproducing Racism Daria Roithmayr, 2023-11-21 Argues that racial inequality reproduces itself automatically over time because early unfair advantage for whites has paved the way for continuing advantage This book is designed to change the way we think about racial inequality Long after the passage of civil rights laws blacks and Latinos possess barely a nickel of wealth for every dollar that whites have Why have we made so little progress Legal scholar Daria Roithmayr provocatively argues that racial inequality lives on because white advantage functions as a powerful self reinforcing monopoly reproducing itself automatically from generation to generation even in the absence of intentional discrimination Drawing on work in antitrust law and a range of other disciplines Roithmayr brilliantly compares the dynamics of white advantage to the unfair tactics of giants like AT T and Microsoft With penetrating insight Roithmayr locates the engine of white monopoly in positive feedback loops that connect the dramatic disparity of Jim Crow to modern racial gaps in jobs housing and education Wealthy white neighborhoods fund public schools that then turn out wealthy white neighbors Whites with lucrative jobs informally refer their friends who refer their friends and so on Roithmayr concludes that racial inequality might now be locked in place unless policymakers

immediately take drastic steps to dismantle this oppressive system
