targets watched NATO's military spokesman on CNN for guidance in choosing their targets Henriksen argues that structures preceding the Kosovo crisis shaped the management to a much greater degree than events taking place in Kosovo and that the air power community's largely institutionalized focus on high intensity conflicts like the 1991 Gulf War hampered them from developing strategies to fit the political complexities of crises Because fighting and wars in the lower end of the intensity spectrum are likely to surface again study of the Kosovo crisis offers lessons for future international conflicts in which the combination of force and diplomacy will play a very significant role
