Women and the White House Justin S. Vaughn,Lilly J. Goren,2012-11-30 As the first female vice president takes office this volume explores gender perceptions and the executive role An important impressive book Lane Crothers author of Globalization and American Popular Culture The president of the United States has traditionally served as a symbol of power virtue ability dominance popularity and patriarchy In recent years however a number of high profile female candidacies have provoked new interest in gendered popular culture and how it influences Americans perceptions of the country s highest political office In this timely volume editors Justin S Vaughn and Lilly J Goren lead a team of scholars in examining how the president and the first lady exist as a function of public expectations and cultural gender roles The authors investigate how the candidates messages are conveyed altered and interpreted in hard and soft media forums from the nightly news to daytime talk shows and from tabloids to the blogosphere They also address the portrayal of the presidency in film and television productions such as 1964 s Kisses for My President and 2005 s Commander in Chief With its strong multidisciplinary approach Women and the White House commences a wider discussion about the growing possibility of a female president in the United States the ways in which popular perceptions of gender will impact her leadership and the cultural challenges she will face

Religion in the Oval Office Gary Scott Smith,2015-02-27 In his highly praised book Faith and the Presidency Gary Scott Smith cast a revealing light on the role religion has played in presidential politics throughout our nation s history offering comprehensive even handed examinations of the role of religion in the lives politics and policies of eleven presidents Now in Religion in the Oval Office Smith takes on eleven more of our nation s most interesting and influential chief executives John Adams James Madison John Quincy Adams Andrew Jackson William McKinley Herbert Hoover Harry Truman Richard Nixon George H W Bush Bill Clinton and Barack Obama Drawing on a wide range of sources and paying close attention to historical context and America s shifting social and moral values he examines their religious beliefs commitments affiliations and practices and scrutinizes their relationships with religious leaders and communities The result is a fascinating account of the ways in which religion has helped shape the course of our history From John Quincy Adams treatment of Native Americans to Harry Truman s decision to recognize Israel to Bill Clinton s promotion of religious liberty and welfare reform to Barack Obama s policies on poverty and gay rights Smith shows how strongly our presidents religious commitments have affected policy from the earliest days of our nation to the present

Together with *Faith and the Presidency* Religion in the Oval Office provides the most comprehensive examination of the inseparable and intriguing relationship between faith and the American presidency This book will be invaluable to anyone interested in the presidency and the role of religion in politics *God and the Oval Office* John C. McCollister, 2005-04-03 A look into how the temporary residents of the White House expressed the deepest of all human feelings personal religious faith in their own words We need to remember that the separation of church and state must never mean the separation of religious values from the lives of public servants Lyndon B Johnson So help me God George Washington added those words to the presidential oath and every president since has followed suit Whether their faith was devout or doubted heartfelt or pragmatic John McCollister plumbs America's strong and deep spiritual heritage showing the fascinating and vital role faith played in the lives of each of our forty-three presidents Thomas Jefferson's edited version of the Gospels Abraham Lincoln's unique approach to organized religion Andrew Johnson's secret Catholicism James Garfield's personal sacrifice of the pulpit for the presidency Dwight Eisenhower's trust in God's sovereignty Ronald Reagan's profound sense of forgiveness George W Bush's unapologetic faith in Jesus Christ From George Washington to George W Bush most of our country's chief executives have turned to God for assurance guidance and hope Through what they learned in the Bible bolstered by strength found in prayer they have led America to become the greatest nation on earth Timely and timeless *God and the Oval Office* tells their story *Recapturing the Oval Office* Brian Balogh, Bruce J. Schulman, 2015-09-04 Several generations of historians figuratively abandoned the Oval Office as the bastion of out of fashion stories of great men And now decades later the historical analysis of the American presidency remains on the outskirts of historical scholarship even as policy and political history have rebounded within the academy In *Recapturing the Oval Office* leading historians and social scientists forge an agenda for returning the study of the presidency to the mainstream practice of history and they chart how the study of the presidency can be integrated into historical narratives that combine rich analyses of political social and cultural history The authors demonstrate how bringing the presidency back in can deepen understanding of crucial questions regarding race relations religion and political economy The contributors illuminate the conditions that have both empowered and limited past presidents and thus show how social cultural and political contexts matter By making the history of the presidency a serious part of the scholarly agenda in the future historians have the opportunity to influence debates about the proper role of the president today Contributors Brian Balogh University of Virginia Michael A Bernstein Tulane University Kathryn Cramer Brownell Purdue University N D B Connolly The Johns Hopkins University Frank Costigliola University of Connecticut Gareth Davies University of Oxford Darren Dochuk Washington University Susan J Douglas University of Michigan Daniel J Galvin Northwestern University William I Hitchcock University of Virginia Cathie Jo Martin Boston University Alice O Connor University of California Santa Barbara Bruce J Schulman Boston University Robert O Self Brown University Stephen Skowronek Yale University **In the Shadow of the Oval Office** Ivo H. Daalder, I. M.

Destler,2009-02-10 The most solemn obligation of any president is to safeguard the nation's security. But the president cannot do this alone. He needs help. In the past half century presidents have relied on their national security advisers to provide that help. Who are these people, the powerful officials who operate in the shadow of the Oval Office, often out of public view and accountable only to the presidents who put them there? Some remain obscure even to this day. But quite a number have names that resonate far beyond the foreign policy elite: McGeorge Bundy, Henry Kissinger, Zbigniew Brzezinski, Colin Powell, Condoleezza Rice, Ivo Daalder, and Mac Destler. They provide the first inside look at how presidents from John F. Kennedy to George W. Bush have used their national security advisers to manage America's engagements with the outside world. They paint vivid portraits of the fourteen men and one woman who have occupied the coveted office in the West Wing, detailing their very different personalities, their relations with their presidents, and their policy successes and failures. It all started with Kennedy and Bundy, the brilliant young Harvard dean who became the nation's first modern national security adviser. While Bundy served Kennedy well, he had difficulty with his successor. Lyndon Johnson needed reassurance more than advice, and Bundy wasn't always willing to give him that. Thus the basic lesson: the president sets the tone, and his aides must respond to that reality. The man who learned the lesson best was someone who operated mainly in the shadows: Brent Scowcroft. He was the only adviser to serve two presidents, Gerald Ford and George H. W. Bush. Learning from others' failures, he found the winning formula: gain the trust of colleagues, build a collaborative policy process, and stay close to the president. This formula became the gold standard; all four national security advisers who came after him aspired to be like Brent. The next president and national security adviser can learn not only from success but also from failure. Rice stayed close to George W. Bush, closer perhaps than any adviser before or since. But her closeness did not translate into running an effective policy process, as the disastrous decision to invade Iraq without a plan underscored. It would take years and another national security aide to persuade Bush that his Iraq policy was failing and to engineer a policy review that produced the surge. The national security adviser has one tough job. There are ways to do it well and ways to do it badly. Daalder and Destler provide plenty of examples of both. This book is a fascinating look at the personalities and processes that shape policy and an indispensable guide to those who want to understand how to operate successfully in the shadow of the Oval Office. *Leadership in a Nutshell*

Veronika Zhidkov,2025-08-26 Unlock your potential as a godly leader by embracing timeless biblical principles. This guide offers a holistic approach to leadership, integrating mind, body, and spirit with economic, social, and environmental considerations.
