Bloomer, 1997-01-01 **The Cambridge History of American Literature: Volume 1, 1590-1820** Sacvan Bercovitch, Cyrus R. K. Patell, 1997-01-28 Volume I of The Cambridge History of American Literature was originally published in 1997 and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature **New Age Spirituality** Steven J. Sutcliffe, Ingvild Saelid Gilhus, 2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion *Witchcraft in the Pews* George G. Bloomer, 1997 This powerful and explosive book exposes the shocking truth about witchcraft and occultic practices right within the Christian church **The Dissenters: The expansion of evangelical nonconformity** Michael R. Watts, 1978 English and Welsh society in the nineteenth century was profoundly influenced by religion For millions of people religion determined their choice of marriage partner conditioned the upbringing of their children and moulded their family life Religion pervaded education and literature inspired poetry stimulated music motivated philanthropy moderated industrial strife and decided political loyalties The driving religious force which dominated the early nineteenth century was Evangelical Christianity While a substantial minority of Anglicans subscribed to it its main influence was mediated through the channels of the Baptists the Congregationalists and the Methodists otherwise known as Dissenters or Nonconformists They are the subject of this book the second part of the comprehensive study of Dissent in England and Wales The first volume dealt with the period between the Reformation and

French Revolution this volume takes the study into the nineteenth century examining Dissent in the years from 1791 to 1869 Michael Watts shows how the influence of Nonconformism extended beyond the confines of the ministers of religion and travelling evangelicals He argues that whilst the appeal of rational Dissent was often to the prosperous the well educated and the cultured Evangelical Nonconformity found its main support among the poor the ignorant and the unsophisticated where its influence on working class men and women was almost as great as that of the population explosion the industrial revolution and possibly that of its great rival the public house The followers of Evangelical Dissent vastly outnumbered those of Owenism Socialism or even Chartism This impressive synthesis combines smoothly written narrative with shrewd analysis and clearly demonstrates that no one can fully understand the history of the nineteenth century without a thorough knowledge of Nonconformism
