With Stalin Against Tito Cominformist Splits In Yugoslav Communism:

With Stalin against Tito Ivo Banac, 2018-10-18 In 1948 in a series of moves that culminated in the famous Cominform Resolution Stalin struck at the Communist Party in Yugoslavia provoking the first split in the Communist state system With this long awaited book Ivo Banac becomes the first scholar to assess the domestic consequences of Yugoslavia's expulsion from the Cominform and his findings will radically revise some of our most basic assumptions about Tito's revolution Banac's subject is the nature and fate of those elements in the Yugoslav Communist party who were said to have sided with Moscow against their own country's leadership He demonstrates that the so called Cominformists represented as much as twenty percent of the party membership and had widely divergent aims He then reconstructs the history of the labyrinthine factional struggles that preceded and accompanied the 1948 split and shows that as always the national question played the dominant role in Yugoslav politics After identifying the members of the opposition and mapping its course Banac recounts the harsh repression of the movement He provides massive documentation of startling irony the conflict with Stalin played the same part in the shaping of Yugoslavia's political system as the collectivization and purges of the 1930s did in the history of Soviet communism

Creating a Socialist Yugoslavia Hilde Katrine Haug, 2012-03-30 When the Yugoslav communists came into power in 1945 they claimed to have introduced a socialist solution to the Yugoslav national question But what did this claim imply Creating a Socialist Yugoslavia Tito Communist Leadership and the National Question charts the approach pursued by Yugoslav communist leaders from their endorsement in 1935 of a strategy committing to the search for a socialist solution to the national question within a multinational Yugoslav context until the party disintegrated in 1990 Hilde Katrine Haug examines the impact of the communist leadership's aspirations to create a socialist Yugoslavia on their management of national conflict in the highly heterogeneous Yugoslav state entity

Eastern Europe Sabrina P. Ramet, 1998 Eastern Europe addresses the emergence of uncertain pluralism in the region following the disintegration of the communist regimes in 1989 Taking a broad historical approach the volume considers issues and challenges that have marked Eastern Europe from 1939 through World War II and the era of socialism up to the present Eight comprehensive country studies are augmented by detailed assessments of economic developments security issues religious currents cultural policies and gender relations in the region

Constructing Yugoslavia Vesna Drapac, 2010-01-27 Vesna Drapac provides an insightful survey of the changing nature of the Yugoslav ideal demonstrating why Yugoslavism was championed at different times and by whom and how it was constructed in the minds of outside observers Covering the period from the 1850s to the death of Tito in 1980 Drapac situates Yugoslavia in the broader international context and examines its history within the more familiar story of Europe in the nineteenth and twentieth centuries This approachable study also explores key themes and debates including The place of the nation state within the worldview of nineteenth century intellectuals The memory of war and commemorative practices in the interwar years Resistance and collaboration The nature of dictatorships Gender and

citizenship Yugoslavia's role from the perspective of the Superpowers Drawing on a wide range of sources in order to recreate the atmosphere of the period Constructing Yugoslavia traces the formation of popular perceptions of Yugoslavia and their impact on policy toward Yugoslavs It is essential reading for anyone with an interest in the history of this fascinating nation and its ultimate demise

Designing Tito's Capital Brigitte Le Normand, 2014-07-16 A major influence was modernist Le Corbusier and his Athens Charter published in 1943 which called for the total reconstruction of European cities transforming them into compact and verdant vertical cities unfettered by slumlords private interests and traffic congestion As Yugoslavia transitioned toward self management and market socialism the functionalist district of New Belgrade and its modern living were lauded as the model city of socialist man The glow of the utopian ideal would fade by the 1960s when market socialism had raised expectations for living standards and the government was eager for inhabitants to finance their own housing By 1972 a new master plan emerged under Aleksandar ordevic fashioned with the assistance of American experts Espousing current theories about systems and rational process planning and using cutting edge computer technology the new plan left behind the dream for a functionalist Belgrade and instead focused on managing growth trends

Beyond Boycotts Philippe Vonnard, Nicola Sbeti, Grégory Quin, 2017-12-18 Sport during Cold War has recently begun to be studied in more depth Some scholars have edited a book about the US and Soviet sport diplomacy and show ow the government of these two countries have used sport during this period notably as a tool of soft power during the Olympic games Our goal is to continue in this direction and to focus more on the sport field as a place of exchanges during the Cold War Regarding this point our aim is to show that there were events beyond boycotts many and that unknown connections existed inside sport Morevoer many actors were involved in these exchanges Thus it is important not only to focus on the action of States but also on private actors international sporting bodies and journalists considering that they acted around sport an apolitic field as it was tool to maintain links between the two blocs Our project offers a good opportunity for young scholars to present original research based on new materials notably the use of institutional or personals archives Morevoer it is also a step forward with a view to conduct research within a global history paradigm one that is still underused in sport academic fields

Building Democracy in the Yugoslav Successor States Sabrina P. Ramet, Christine Hassenstab, Ola Listhaug, 2017-05-15 A comprehensive analysis of how the Yugoslav successor states have coped with the challenges of building democracy since 1990

Non-alignment and Its Origins in Cold War Europe Rinna Kullaa, 2012-03-13 After World War II Europe stood divided between two clearly defined and competing ideologies and systems of government Within this context of confrontation and mutual hostility between the United States and the Soviet Union Rinna Kullaa provides a unique analysis of the attempts of two European states to successfully avoid absorption into the Soviet bloc This book explores the relations of Yugoslavia and Finland both with the Soviet Union and with each other as they strove to preserve and create their independence Whilst at first attempting the neutralism strategy employed by Finland in the face of Soviet hostility Tito's

Yugoslavia instead led the way to the founding of the Non Aligned Movement in 1961 Kullaa s crucial analysis of the formative period of the Cold War will be of vital interest to students and researchers of International Relations European History the Cold War and diplomacy Historical Dictionary of the Cold War Joseph Smith, Simon Davis, 2000-03-29 Joseph Smith and Simon Davis have captured the essence and madness of the balance of terror of the Cold War in the Historical Dictionary of the Cold War Covering an extensive period and much of the globe this dictionary presents a year by year chronology and alphabetical entries on civilian and military leaders crucial countries and peripheral conflicts the increasingly lethal weapons systems and the various political and military strategies While both authors are specialists in American foreign policy and diplomacy Smith has a particular interest in United States relations with Latin America and Davis in Anglo American relations This broader focus is helpful since it enables the authors to have a broader view of the Cold War and having studied and lived in Great Britain they view events from a more neutral perspective This and a conscious effort to maintain a scholarly balance enhances the objectivity of this volume Smith and Davis have produced an easy to use reference tool for both the history scholar and student Breaking Down Bipolarity Martin Previšić, 2021-10-04 This book is aimed at presenting fresh views interpretations and reinterpretations of some already researched issues relating to the Yugoslav foreign policy and international relations up to year 1991 Yugoslavia positioned itself as a communist state that was not under the heel of the Soviet diplomacy and policy and as such was perceived by the West as an acceptable partner and useful tool in counteracting the Soviet influence
