Witness To An Extreme Century:

Witness to an Extreme Century Robert Jay Lifton, 2011-06-14 On a fateful day in the spring of 1954 Robert Jay Lifton a young American psychiatrist just discharged from service in the Korean War decided to stay in Hong Kong rather than return home changing his life plans entirely so that he could continue work that had enthralled him interviewing people subjected to Chinese thought reform He had plunged into uncharted territory in probing the far reaches of the human psyche as he would repeatedly in the years ahead and his Hong Kong research provided the first understanding of the insidious process that came to be known as brainwashing From that day in Hong Kong forward Lifton has probed into some of the darkest episodes of human history bearing his unique form of psychological witness to the sources and consequences of collective violence and trauma as well as to our astonishing capacity for resilience In this long awaited memoir Lifton charts the adventurous and constantly surprising course of his fascinating life journey a journey that took him from what a friend of his called a Jewish Huck Finn childhood in Brooklyn to friendships with many of the most influential intellectuals writers and artists of our time from Erik Erikson David Riesman and Margaret Mead to Howard Zinn and Kurt Vonnegut Stanley Kunitz Kenzaburo Oe and Norman Mailer In his remarkable study of Hiroshima survivors he explored the human consequences of nuclear weapons and then went on to uncover dangerous forms of attraction to their power in the spiritual disease he calls nuclearism During riveting face to face interviews with Nazi doctors he illuminated the reversal of healing and killing in ordinary physicians who had been socialized to Nazi evil With Vietnam veterans he helped create unprecedented rap groups in which much was revealed about what we now call post traumatic stress disorder helping veterans draw upon their experience for valuable even prophetic insights about atrocity and war As a pioneer in psychohistory Lifton's encounters with the consequences of cruelty and destructiveness led him to become a passionate social activist lending a powerful voice of conscience to the suppressed truths of the Vietnam War and the dangers of nuclear weapons Written with the warmth of spirit along with the humor and sense of absurdity that have made Lifton a beloved friend and teacher to so many *Witness to an Extreme Century* is a moving and deeply thought provoking story of one man's extraordinary commitment to looking into the abyss of evil in order to help us move beyond it **Psychoanalysis, Trauma, and Community** Judith L. Alpert, Elizabeth R.

Goren, 2016-11-18 Trauma is one of the hottest contemporary topics within psychoanalysis whilst many psychoanalysts are increasingly interested in applying their skills outside the traditional setting of the consulting room especially in response to disasters wars and serious social issues *Psychoanalysis Trauma and Community* seeks to correct the misconceptions of what analysts do and how they do it and debunk the stereotype of psychoanalysts stuck in their offices plying their wares on the worried well Bringing together a group of eminent contributors this volume considers how psychoanalysis may best be expanded to help in social and community settings to understand these wider issues from a psychoanalytic perspective and provide clear clinical guidance and clinical examples of how best to work in a wide variety of non traditional ways The

innovative work featured includes taking testimony in situ interviewing documentary film making social activism ethnic and political conflict mediation on site workshops as well as direct clinical interventions The reader is taken from the Holocaust Hiroshima and the Vietnam War to the Balkan Wars and Palestinian Israeli conflict from the political violence of the disappeared in Argentina to the devastation wrought by Hurricane Katrina and from chronic conditions of poverty in India to racism in the post Jim Crow South Psychoanalysis Trauma and Community will appeal to psychoanalysts psychoanalytic psychotherapists and anyone studying on the increasing number of trauma courses being given today in universities Lay readers with an interest in the traumatic fallout as a result of chronic conditions or the myriad disasters that occur globally will find this book illuminating For the non specialist mental health professional including non analytic psychotherapists social workers and others who work in the community this book offers concrete advice on dealing with intervention issues such as entry and integration as well as on management of multiple and complex trauma in a non clinical setting

Hiroshima Ran Zwigenberg, 2014-09-15 In 1962 a Hiroshima peace delegation and an Auschwitz survivor s organization exchanged relics and testimonies including the bones and ashes of Auschwitz victims This symbolic encounter in which the dead were literally conscripted in the service of the politics of the living serves as a cornerstone of this volume capturing how memory was utilized to rebuild and redefine a shattered world This is a powerful study of the contentious history of remembrance and the commemoration of the atomic bomb in Hiroshima in the context of the global development of Holocaust and World War II memory Emphasizing the importance of nuclear issues in the 1950s and 1960s Zwigenberg traces the rise of global commemoration culture through the reconstruction of Hiroshima as a City of Bright Peace memorials and museums global tourism developments in psychiatry and the emergence of the figure of the survivor witness and its consequences for global memory practices

The Instability of Truth Rebecca Lemov, 2025-03-25 An acclaimed historian of science uncovers the hidden history of brainwashing and its troubling implications for today Because brainwashing affects both the world and our observation of the world we often don t recognize it while it s happening unless we know where to look As Rebecca Lemov writes in *The Instability of Truth* Brainwashing erases itself What we call brainwashing is more common than we think it is not so much what happens to other people as what can happen to anyone *The Instability of Truth* exposes the myriad ways our minds can be controlled against our will from the brainwashing techniques used against American POWs in North Korea to the soft brainwashing of social media doomscrolling and behavior shaping In our increasingly data driven world anyone can fall victim to mind control Lemov identifies invasive forms of emotional engineering that exploit trauma and addiction to coerce and persuade in everyday life Tracing the word brainwashing from deep in the files of an operative of the U S Office of Strategic Services in the 1950s to the pioneering research of Robert Jay Lifton to the public trials of cult leaders and the case of Patty Hearst Lemov also studies how the idea of mind control has spread across the globe and penetrated courtrooms secret labs military schools and today s digital sites *The Instability of*

Truth offers lessons from mind control episodes past and present Truth is always subject to question in more mundane walks of life than most people believe and Lemov equips us for the increasing challenges we face from social media AI and an unprecedented global form of surveillance capitalism The Instability of Truth develops a rigorous new understanding of both brainwashing s paradoxes and its emotional roots by giving voice to brainwashers the brainwashed and third party observers alike

Reality, Grief, Hope Walter Brueggemann, 2014-02-21 Walter Brueggemann is one of the most highly regarded Old Testament scholars of our time talk show host Krista Tippett has even called him a kind of theological rock star In this new book Brueggemann incisively probes our society in crisis from the ground up Pointing out striking correlations between the catastrophe of 9 11 and the destruction of ancient Jerusalem Brueggemann shows how the prophetic biblical response to that crisis was truth telling in the face of ideology grief in the face of denial and hope in the face of despair He argues that the same prophetic responses are urgently required from us now if we are to escape the deathliness of denial and despair Brueggemann s Reality Grief Hope boldly confronts the dominant forces of our time taking on principalities and powers that vie for our souls and calls the church to courageous action

Erving Goffman and the Cold War Gary D. Jaworski, 2023-08-07 Erving Goffman and the Cold War presents a provocative new reading of the work of sociologist Erving Goffman Instead of viewing him as a marginal man or academic outsider Gary D Jaworski explores Goffman as a social theorist of the Cold War Goffman was deeply connected to both the ethos of his time and to a range of cold warriors and their critics such as Edward A Shils Thomas C Schelling and the researchers on brainwashing associated with the Walter Reed Army Institute of Research among others Chapters on loyalty betrayal secrecy strategy interrogation provocation and aggression concretely illustrate these connections Erving Goffman and the Cold War shows that Goffman was much more than a microsociologist of mundane life he was a perceptive analyst of the Cold War America

Invisible Injured Adam Montgomery, 2017-05-01 Canadian soldiers returning home

have always been changed by war and peacekeeping frequently in harmful but unseen ways The Invisible Injured explores the Canadian military's continuous battle with psychological trauma from 1914 to 2014 to show that while public understanding and sympathy toward affected soldiers has increased myths and stigmas have remained Whether diagnosed with shell shock battle exhaustion or post traumatic stress disorder Canadian troops were at the mercy of a military culture that promoted stoic and manly behaviour while shunning weakness and vulnerability Those who admitted to mental difficulties were often ostracized released from the military and denied a pension Through interviews with veterans and close examination of accounts and records on the First World War the Second World War and post Cold War peacekeeping missions Adam Montgomery outlines the intimate links between the military psychiatrists politicians and the Canadian public He demonstrates that Canadians' views of trauma developed alongside the nation's changing role on the international stage from warrior nation to peacekeeper While Canadians took pride in their military's accomplishments around the globe soldiers who came back haunted by their experiences were often ignored Utilizing a wide range of historical sources and a frank approach The Invisible Injured is the first book length history of trauma in the Canadian military over the past century It is a timely and provocative study that points to past mistakes and outlines new ideas of courage and determination

Migrant Representations Peter Leese, 2022-01-15 *Migrant Representations* pairs twenty four carefully selected histories in order to compare how migrants themselves Irish labourer Lithuanian refugee or Indian doctor and their social investigators capture in words and images defining private and historical moments These comparative case studies from the 1780s to the 2000s explore how migrants constructed their own narratives of mobility and settlement through procedures of reflecting remembering and recording Moreover these studies examine how speech writing and picture were used for instance by a missionary social scientist or activist to make outside representations of the migrant Such life stories social surveys and pictures emerge as alternative archives Leese's transnational cultural history considers life story forms and their uses the tension between external surveillance and self observation the power of narratives to afford legibility and acknowledgement Leese argues that historically and in the present first person migrant stories and outsider investigations create a continuous charged exchange of views where both migrant and observer negotiate position authority authenticity and potential advantage Within the history of migrant representations this exchange generates a persistent subversive strain of opposition and critique Such self observations observations of others and images never settle

Anti-Semitism and Psychiatry H. Steven Moffic, John R. Peteet, Ahmed Hankir, Mary V. Seeman, 2020-02-25 Following World War II and the exposure of the concentration camps psychiatry turned its attention to a vast range of cultural concerns with results that seemed to indicate a decline of stigma over time However it is now clear that whatever drives prejudices especially in the case of anti-Semitism was just dormant and perhaps not fully understood Hate crimes and anti-Semitism broad recently re-emerged in Europe and the United States followed shortly thereafter The US Federal Bureau of investigation reports that New York City which is still

considered the most Jewish friendly region in the US experienced a 22% spike in anti Semitic hate crimes in 2018 alone with more extremes in other regions of the country Neo Nazi groups have grown stronger in the United States and abroad often resulting in organized acts of violence The recent Tree of Life synagogue shooting in Pittsburgh PA demonstrated that these acts are not limited to one on one interactions but sometimes as prolific large scale act The medical community is not immune from biases either The Cleveland Clinic recently fired a young doctor after she publicly declared her wishes to inject Jewish patients with lethal substances which is only one of many hateful comments she made on social media over the course of several years Psychiatrists in particular grapple with this as they try to serve patients of both Jewish and non Jewish descent who struggle to process these acts of hate Despite all of this there is no training and no resource to guide medical professionals through these challenges The editors of the recent Springer book Islamophobia and Psychiatry recognize this gap in the literature and seek to develop another high quality text to meet this need Written by expert clinicians in global regions where these incidents are most prevalent the book seeks to be neither political nor opinion based instead the text takes an innovative cross cultural psychiatric interaction similar to what was done with Springer s new Islamophobia book Coverage will range from foci on the social psychiatric aspects of anti Semitism to how it may in turn infuse clinical encounters between patients and clinicians Written by experts in this area the insight and expertise of psychiatrists from a variety of cultural and religious backgrounds will focus on what psychiatrists need to know to combat the negative mental health impact that increasingly rise out of this particular phenomenon Such a multi cultural psychiatric approach has never been taken before for this topic This discourse is the foundation for the primary goal of this book to develop the tools needed to improve clinical outcomes for patients Hence this book aims to present an updated comprehensive bio psychosocial perspective on anti Semitism at the interface of clinical psychiatry
