Consumers Index to Product Evaluations and Information Sources Pierian Press,1977 The Advertising Red Books ,2008-07 *Amateur Telescope Making in the Internet Age* Robert L. Clark,2010-10-14

Building an astronomical telescope offers the amateur astronomer an exciting challenge with the possibility of ending up with a far bigger and better telescope than could have been afforded otherwise In the past the starting point has always been the grinding and polishing of at least the primary mirror a difficult and immensely time consuming process But now that the Internet has brought us together in a global village purchasing off the shelf goods such as parabolic mirrors eyepieces lenses and telescope tubes is possible There are also a vast number of used mirrors and lenses out there and it is now possible to track them down almost anywhere in the world Online stores and auction houses have facilitated commerce regarding all sorts of useful optical components at a reasonable price This is a book about making telescopes from available parts It provides guidance on where to look and what to look for in selecting items useful for telescope making and explains how to assemble these components to produce an excellent instrument on a tight budget At one time many amateurs made their own telescopes from home made parts In today s rushed world that has almost become a lost art The Internet offers a wonderful alternative to either buying a pricey scope fully assembled or making your own from scratch Working Americans, 1880-1999: The working class Scott Derks,2000 The introduction identifies this volume as the first in a multi volume set v 2 will cover the middle class but after that it s not clear what s planned Volume 1 is a compendium focusing on the working class which is nowhere defined Each section deals with a decade and opens with a brief overview Numerous reproductions of cartoons advertisements posters and photographs of families workers and working conditions as well as portions of magazine articles and quotations are interspersed with information about significant events of the decade and bits of social and economic information Family profiles 74 in all are fictional composites intended to represent the financial and social situations of families from an array of ethnic groups and occupations The author s credentials are not identified though he draws heavily on another of his works from the same publisher called *The Value of a Dollar* Inexplicably the volume lacks an index making it more of a browse than a useful reference Annotation copyrighted by Book News Inc Portland OR **Popular Photography** ,1990-06
