Hunt, 2019-09-27 Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til's approach involved a self-conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one's apologetic method should be consistent with the theology revealed in the Bible so also should one's hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament *Identifying Selfhood* Henry Isaac Venema, 2000-09-28 Traces the decentered formulation of self at the heart of Paul Ricoeur's philosophy from his earliest works to his most recent *The Encyclopedia of Human Ecology* Julia R. Mootz III, George H. Taylor, 2011-04-14 Hans Georg Gadamer and Paul Ricoeur were two of the most important hermeneutical philosophers of the twentieth century Gadamer single handedly revived hermeneutics as a philosophical field with his many essays and his masterpiece *Truth and Method* Ricoeur famously mediated the Gadamer/Habermas debate and advanced his own hermeneutical philosophy through a number of books addressing social theory religion psychoanalysis and political philosophy This book brings Gadamer and Ricoeur into a hermeneutical conversation with each other through some of their most important commentators Twelve leading scholars deliver contemporary assessments of the history and promise of hermeneutical philosophy providing focused discussion on the work of these two key hermeneutical thinkers The book shows how the horizons of their thought at once support and question each other and how in many ways the work of these two pioneering philosophers defines the issues and agendas for the new century Contemporary Sociological Theory Doyle Paul Johnson, 2008-04-23 This volume is designed as a basic text for upper level and graduate courses in contemporary sociological theory Most sociology programs require their majors to take at least one course in sociological theory sometimes two A typical breakdown is between classical and contemporary theory Theory is perhaps one of the broadest areas of sociological inquiry and serves as a foundation or framework for more specialized study in specific substantive areas of the field In addition the study of sociological theory can readily be related to various aspects of other social science disciplines as well From the very beginning sociology has been characterized by alternative theoretical perspectives Classical theory includes the European founding figures of the discipline whose works

were produced during the later half of the nineteenth century and the first couple of decades of the twentieth century plus early American theorists. For most of the second half of the twentieth century a fairly high consensus has developed among American sociologists regarding these major founders particularly with regard to the works of Durkheim and Weber in analyzing the overall society and of Simmel in analyzing social interaction processes. Since the late 1960s and early 1970s the influence of Marx has also been recognized. Recent decades have also witnessed an increased emphasis on the important contributions of several pioneering feminist perspectives in the early years of sociology.

Leadership and Coherence

Nathan W. Harter, 2014-07-17 *Leadership and Coherence* investigates how leaders justify their decisions and how they bring about coherence amongst followers. Taking a cognitive approach it builds on the work of Hannah Arendt to attempt a phenomenology of judgment examining how the moral imperative experienced by leaders can be shared by their community so both leader and led are guided by a mutual purpose. Through biographical case studies of historical leaders this book illustrates how successful leaders operate in a turbulent world not only making their own decisions but also gathering likeminded followers to share in a common vision and shared sense of purpose.

Unveiling the Apocalyptic Paul R.

Barry Matlock, 1996-02-01 *Apocalyptic* is a key concept for 20th century interpretation of Paul embracing several major figures and strands of inquiry. But the category apocalyptic has itself of late come in for scrutiny which in turn reflects back on apocalyptic interpretation of Paul. This study offers a review of interpretation ranging beyond Pauline studies to address apocalyptic interpretation generally. Sustained attention to what interpreters are doing with this category placed alongside what is claimed as being done reveals a hermeneutical story of considerable interest and wide relevance which situates the whole interpretive dialogue.

Mindful Inquiry in Social Research Valerie Malhotra Bentz, Jeremy J. Shapiro, 1998-06-24

This innovative introduction to research in the social sciences guides students and new researchers through the maze of research traditions, cultures of inquiry and epistemological frameworks. It introduces the underlying logic of ten cultures of inquiry: ethnography, quantitative behavioral science, phenomenology, action research, hermeneutics, evaluation research, feminist research, critical social science, historical comparative research and theoretical research. It clarifies conceptual and intellectual traditions in research and puts researchers firmly in the investigative saddle, able to choose, justify and explain the intellectual framework and personal rationale of their research.

Bodies in Society Margaret R. Miles, 2008-08-01

Education is about learning to think. Much of what we call thinking, however, is a hodge-podge of repetitious self-talk, opinion and cutting and pasting of second-hand ideas. Moreover, thinking in the present has often been alien to scholars who were tempted to think abstractly. But life and thought belong together and require each other, as Plotinus pointed out many centuries ago. The object of contemplation is living and life and the two together are one. Ennead 3.8.8. Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable. The essays in this volume

consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles s work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society

Limning the Psyche Robert Campbell Roberts, Mark R. Talbot, 1997 Sixteen essays by respected psychologists theologians and philosophers look at the practice of psychology from a Christian perspective and explore the implications of the Christian view of human nature
