USN Destroyer vs IJN Destroyer Mark Stille,2012-11-20 This book covers the fierce night naval battles fought between the US Navy and the Imperial Japanese Navy during late 1943 as the Allies advanced slowly up the Solomons Islands toward the major Japanese naval base at Rabaul During this period several vicious actions were fought featuring the most modern destroyers of both navies Throughout most of 1942 the Imperial Navy had held a marked edge and a key ingredient of these successes was their destroyer force which combined superior training and tactics with the most capable torpedo in the world Even into 1943 mixed Allied light cruiser destroyer forces were roughly handled by Japanese destroyers After these battles the Americans decided to stop chasing Japanese destroyers with cruisers so the remainder of the battles in 1943 with one exception were classic destroyer duels This book explores the Americans technical edge provided to them by radar and now added new more aggressive tactics The final result was the defeat of the Imperial Navy s finely trained destroyer force and the demonstration that the Japanese were unable to stop the Allies advance

**USN PT Boat vs IJN Destroyer** Mark Stille,2025-02-27 This fully illustrated book assesses the trial of strength between US Navy PT boats and Japanese destroyers operating in the Solomon Islands during 1942 43 During the Solomons fighting the IJN was forced to rely on destroyers to move men and materiel to its forward garrisons Conducted at night to avoid American air power these missions first seen during the struggle for Guadalcanal were dubbed the Tokyo Express Unable to derail the Tokyo Express by using its destroyers the USN deployed PT boats off Guadalcanal from October 1942 sinking one destroyer and damaging another As the fighting moved into the Central Solomons the USN attempted to disrupt the build up of Japanese forces on New Georgia Island and other Japanese strongholds by using cruisers and destroyers but this approach resulted in heavy losses PT boat operations were increasingly important after the Japanese turned to barges to move troops and supplies Full colour artwork and mapping and carefully chosen archive photographs complement vivid battle narratives and shrewd analysis in this lively account of the ships and men fighting on both sides in the crucial Solomon Islands campaign at the height of World War II Renowned authority Mark Stille explores the background to this epic clash of arms charts its course during 1942 43 and offers insights into the performance of both sides in this pivotal campaign of World War II in the Pacific

**USN Cruiser vs IJN Cruiser** Mark Stille,2012-01-20 Although the war in the Pacific is usually considered a carrier war it was the cruisers that dominated the early fighting This thrilling duel presents the cruiser clashes during the battles for Guadalcanal highlighting the Battle of Savo Island and the Battle of Cape Esperance The first was a Japanese victory that resulted in the loss of four Allied cruisers However in the latter the Americans managed to turn the tables despite the battle being fought throughout the night This book presents a view of the design and development of the opposing weapons systems illustrated with newly commissioned digital artwork It uses firsthand accounts to bring the battles to life and explain why the Americans suffered early on but eventually had their revenge

**USN Submarine vs IJN Aircraft Carrier** Mark Lardas,2025-01-16

Fully illustrated this book pits US Navy submarines against the aircraft carriers of the Imperial Japanese Navy at the height of World War II. Before World War II the world's navies envisioned the submarine as a tool to hunt and kill cruisers and capital ships, aircraft carriers, and battleships. Instead, they became best known for their abilities as commerce raiders. Yet hunting capital ships remained an important auxiliary role for the US submarine force in World War II. Featuring specially commissioned artwork and mapping alongside carefully chosen archive illustrations, this absorbing study focuses on five revealing battles between US submarines and Japanese aircraft carriers during 1942-44. At first, a combination of factors—bad torpedoes, poor US tactics, and plain bad luck—foiled every US submarine attack on a Japanese capital ship in 1942 and 1943. But over the space of six months in 1944, from June through November of that year, US submarines sank three of Japan's largest aircraft carriers as well as a battleship. Thereafter, Japanese capital ships clung to port or sheltered waters beyond the reach of submarines. In this book, Mark Lardas explains how the technologies and procedures employed by both sides helped to determine the victor in five revealing clashes, from the battle of Midway in June 1942 to the sinking of Shinano, the largest warship sunk by a submarine in November 1944.

The Imperial Japanese Navy in the Pacific War Mark Stille, 2014-11-20. A highly illustrated examination of the key ships, tactics, and operations of the Imperial Japanese Navy in the War in the Pacific in World War II. The Imperial Japanese Navy (IJN) was the third most powerful navy in the world at the start of World War II and came to dominate the Pacific in the early months of the war. This was a remarkable turnaround for a navy that only began to modernize in 1868, although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose. Bringing together for the first time material previously published in Osprey series books and with the addition of new writing making use of the most recent research, this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed, how they were armed, when and where they were deployed, and how effective they were in battle. The Imperial Japanese Navy in the Pacific War provides a history of the IJN's deployment and engagements, analysis of the evolution of strategy and tactics, and finally addresses the question of whether it truly was a modern navy fully prepared for the rigors of combat in the Pacific. Illustrated throughout with photographs and detailed colour artworks, this is a valuable reference source for Pacific War enthusiasts and historians alike.

**USN Fleet Destroyer vs IJN Fleet Submarine** Mark Stille, 2018-11-29. Leading up to the Pacific War, Japanese naval strategists believed that a decisive fleet engagement would be fought against the United States Navy. Outnumbered by the USN, the Imperial Japanese Navy planned to use its large ocean-going submarines to chip away at its opponent before the grand battle. In order to accomplish this, the IJN's submarine force was tasked to perform extended reconnaissance of the USN's battle fleet, even in port, and then shadow and attack it. For their part, the USN was fully aware of the potential threat posed by Japanese submarines, and destroyer crews were trained and equipped with modern anti-submarine weapons and tactics to screen the battle fleet. Challenging the assumption that Japanese submarines were ineffective during the Pacific

War this fully illustrated study examines their encounters with the US Navy and the successes and failures of American destroyers in protecting their capital ships

**General Naval Tactics** Milan Vego, 2020-10-15 In General Naval Tactics Naval War College professor and renowned tactical expert Milan Vego describes and explains those aspects of naval tactics most closely related to the human factor Specifically he explains in some detail the objectives and methods elements of tactical employment of naval forces command and control combat support tactical design decision making and planning execution leadership doctrine and training Vego derives certain commonalities of naval tactics that occurred in recent and distant wars at sea Many parts of his theoretical constructs are based on works of a number of well known and influential naval theoreticians such as Admirals Alfred T Mahan Bradley A Fiske Raoul Castex and Ren Daveluy and influential naval theoreticians Whenever possible the author illustrates each aspect of theory by carefully selected examples from naval history making the theory more understandable and interesting Vego aims to present theory that is general in nature and therefore more durable in its validity The more general the theory the greater the possibility of accommodating changes based on new interpretations of past events and as a result of gaining fresh insight from the lessons learned

**F6F Hellcat vs A6M Zero-sen** Edward M. Young, 2014-08-20 A fully illustrated study pitting together the superb Mitsubishi A6M Zero sen the world's finest carrier fighter in 1942 and the heavyweight F6F Hellcat The Grumman F6F Hellcat and Mitsubishi A6M Zero sen were the two principal opposing fighters in the brutal aerial clashes of the Pacific War from 1943 onwards Reminiscent of the preceding F4F Wildcat the F6F Hellcat was designed specifically to counter the earlier A6M2 Zero sen the strengths and weaknesses of which became fully understood by US designers after an undamaged example was recovered in the Aleutians The powerful Hellcat had an impressive top speed rate of climb and armament and it retained its predecessor's incredible ruggedness The A6M5 Zero sen was also born out of an earlier type but was intended merely as a stop gap until more modern Japanese fighters could be produced to restore performance parity with Allied aircraft The chaotic conditions of the Japanese Aircraft industry and war economy prevented new types from being built Featuring detailed artwork illustrating the technical specifications of these two types and the dramatic encounters between them this volume focuses on how these iconic fighters came into being and how they fared as they faced one another over the Pacific skies of World War II
