Waiting A Nonbelievers Higher Power:

Waiting Marya Hornbacher, 2011-05-18 For those who don't believe in God or don't know whether they believe New York Times best selling author Marya Hornbacher offers an insightful moving approach to the concept of faith Many of us have been trained to think of spirituality as the sole provenance of religion and if we have come to feel that the religious are not the only ones with access to a spiritual life we may still be casting about for what precisely a spiritual life would be without a God a religion or a solid set of spiritual beliefs In *Waiting* Hornbacher uses the story of her own journey beginning with her recovery from alcoholism to offer a fresh approach to cultivating a spiritual life Relinquishing the concept of a universal Spirit that exists outside of us Hornbacher gives us the framework to explore the human spirit in each of us the very thing that sends us searching that connects us with one another the thing that comes knocking at the door of our emotionally and intellectually closed lives and asks to be let in When we let it in and only when we do she says we begin to be integrated people and can walk a spiritual path There will be many points along the way where we stop or we fumble or we get tangled up or turned around Those are the places where we wait *Waiting* you'll discover can become a kind of spiritual practice in itself requiring patience acceptance and stillness Sometimes we do it because we know we need to though we may not know why In short we do it on faith

The Macro Event Andrew Adams,2020-02-11 The United States political climate is prime for attack from enemies outside and within Two of the world s most dangerous Axis of Evil Iran and North Korea coordinate a nuclear missile attack designed to drive the United States to its knees Embedded groups of coordinated and well trained terrorist leaders lie waiting throughout the United States One group of radicals attacks Washington DC with a truck bomb to start the war Orders sent to other terrorist leaders around the country start the assembly of small armies of haters who aim to destroy what remains after the carnage of the nuclear attacks A critically injured president lies in a coma Many high ranking politicians are dead or missing A high altitude EMP electromagnetic pulse detonated successfully over Northern California destroys the power grids electronics and modern automobiles throughout the Western United States Secret plans created in advance by Homeland Security are the only salvation for the devastated desperate and stranded population The attack activates the plan known as the Macro Event Mass Casualty Relocation Operation The extensive well thought out MACRO Event plans must now deal with millions of stranded hungry and angry Americans now living in darkness Lee Andrew Garrett

awakes in his hotel room in Las Vegas finding the twenty four hour city of light dark and panic stricken Thousands of locals and tourists have few choices except to fight for survival Lee Garrett s obsession with Doomsday preparation is now his salvation He quickly gathers his supplies and makes a dangerous trek out of Sin City Jake Rodriguez is winning big when the lights go out The army soldier on leave from Fort Irwin California also knows getting out of Vegas is paramount Not as well prepared but a soldier Jake also finds danger as he moves quickly west toward his base in the Mohave Desert Surrounded by armed crazies taking advantage of the devastation and confusion Jake finds himself facing sure death Lee Garrett becomes his unlikely but lucky salvation United the two men continue their escape from Vegas into the desert toward the remote army base They arrive at Fort Irwin where they learn just how bad the attack has been Spread way too thin the government must somehow find ways to deal with the millions of expected refugees Lee Garrett s knowledge of his hometown makes him a valuable asset to one of the many small teams needed for control of the choke points out of Los Angeles The small town of Agua Dulce lies directly in the path of desperate people trying to flee the chaos of the big city Lee agrees to join a small force of soldiers Flown to Agua Dulce on military choppers Lee and Jake build a small but capable force of professionals and volunteers The soldiers police and volunteers band together helping the needy and fighting those who wreak havoc The situation goes from difficult to worse when a major terrorist cell heads toward Agua Dulce setting the stage for a major battle between good and evil The story does not end with this first book

Grace in Auschwitz Jean-Pierre Fortin,2016-09-01 The postmodern human condition and relationship to God were forged in response to Auschwitz Christian theology must now address the challenge posed by the Shoah Grace in Auschwitz offers a constructive theology of grace that enables twenty first century Westerners to relate meaningfully to the Christian tradition in the wake of the Holocaust and unprecedented evil Through narrative theological testimonial history the first part articulates the human condition and relationship to God experienced by concentration camp inmates The second part draws from the lives and works of Simone Weil Dorothee Solle Dietrich Bonhoeffer Alfred Delp Hans Urs von Balthasar and Sergei Bulgakov to propose and apply a coherent kenotic model enabling the transposition of the Christian doctrine of grace into categories strongly correlating with the experience of Auschwitz survivors This model centers on the vulnerable Jesus Christ a God who takes on the burden of the human condition and freely suffers alongside and for human beings In and through the person of Jesus God is made present and active in the midst of spiritual desolation and destitution providing humanity and solace to others

Atheists Bruce E. Hunsberger,2010-03-05 According to polls most Americans believe in God But disbelief is spreading After reviewing the mounting evidence that organized religion is declining in many countries this accessible book provides the first scientific study of active atheists The authors surveyed nearly 300 members of atheist organizations in the United States Besides soliciting these nonbelievers level of education political leanings etc the researchers sought to understand how each respondent had become an atheist Had they ever believed in God or had they never Had they paid a price for their atheism

Three chapters describe the levels of dogmatism zealotry and religious prejudice found among the active atheists These results compared with others obtained from more ordinary samples of atheists and strong fundamentalists often surprised the authors Uniquely the book features a chapter in which the atheists give their reaction to the study and its often surprising findings Another chapter breaks down the answers a large Canadian sample gave to the measures used in the American study according to how religious the respondent was from atheist to agnostic to four different levels of theistic intensity A clear finding emerged the more religious a group was the more their personalities prejudices and beliefs separated them from everyone else

God Yes? God No? Frans Komhoff, 2024-07-16 Can science rule out God To properly understand the history of the universe and humanity one can turn to any of the three religions discussed herein but gaining insights into the theories of scientists like Charles Darwin Albert Einstein and Stephen Hawking is a much better idea Komhoff takes the interested layman past God and through a series of eminent scientists on a timeless journey spanning fourteen billion years from the Big Bang to the present day In understandable steps the author guides the reader through the various fields and introduces them to theories contradictions philosophers black holes evolution logic relativity God proofs and the Big Bang singularity The appendices add in understandable language in depth introductions to the fascinating theories the author discusses According to Komhoff we live in the Cosmos of Coincidence This sheds a completely new light on the Big Questions What is man Where do we come from What is our place in the cosmos What is the meaning of our existence Where are we going And last but not least is there a God With present day knowledge his final conclusion is yes science can rule out God as the creator of man and the universe but no science cannot rule out the existence or non existence of God
