Wall Street And The Rise Of Hitler

Christopher R. Fee, Jeffrey B. Webb

Wall Street And The Rise Of Hitler:

Wall Street and the Rise of Hitler Antony Cyril Sutton, 2012-12-17 The contribution made by American capitalism to German war preparations can only be described as phenomenal It was certainly crucial to German military capabilities Not only was an influential sector of American business aware of the nature of Naziism but for its own purposes aided Naziism wherever possible and profitable with full knowledge that the probable outcome would be war involving Europe and the United States Penetrating a cloak of falsehood deception and duplicity Professor Antony C Sutton reveals one of the most remarkable but unreported facts of the Second World War that key Wall Street banks and American businesses supported Hitler s rise to power by financing and trading with Nazi Germany Carefully tracing this closely guarded secret through original documents and eyewitness accounts Sutton comes to the unsavoury conclusion that the catastrophic Second World War was extremely profitable for a select group of financial insiders He presents a thoroughly documented account of the role played by J P Morgan T W Lamont the Rockefeller interests General Electric Company Standard Oil National City Bank Chase and Manhattan banks Kuhn Loeb and Company General Motors the Ford Motor Company and scores of others in helping to prepare the bloodiest most destructive war in history This classic study first published in 1976 the third volume of a trilogy is reproduced here in its original form The other volumes in the series study the 1917 Lenin Trotsky Revolution in Russia and the 1933 election of Franklin D Roosevelt in the United States

Wall Street and the Rise of Hitler Antony C. Sutton, 1976 The third volume of a trilogy the preceding volumes are *Wall Street and the Bolshevik Revolution* *Wall Street and FDR* Includes index Bibliography p 207 211 [Summary of Antony C. Sutton's Wall Street and the Rise of Hitler](#) Everest Media, 2022-04-16T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The post World War II Kilgore Committee of the United States Senate heard detailed evidence from government officials that American financial assistance had helped build the German cartel system and the German Wehrmacht 2 The American business press was aware of the Nazi threat and the nature of German war preparations and they warned their readers about them They were also aware of the financial burden imposed on Germany by the Treaty of Versailles and they used it for their own benefit 3 The reparations Germany was required to pay after World War I were fixed at 132 billion gold marks In 1924 the Allies appointed a committee of bankers to develop a reparations plan The resulting Dawes Plan was largely a J P Morgan production 4 The Young Plan was a successor to the Dawes Plan and it was designed by Morgan agent Owen D Young It required payments in goods produced in Germany financed by foreign loans German firms with U S affiliations evaded the Plan by the device of temporary foreign ownership

Searching for the Spirit of the West Luigi Morelli, 2023-05-29 How can the West rediscover its authentic spirit Exploring the period from 1899 to 1945 from the end of the US frontier and the writing of *The Wonderful Wizard of Oz* to the conclusion of World War II and the dropping of the atom bomb Luigi Morelli traces the events that led the United States to become the world s dominating imperial force America he demonstrates is

deeply connected to Britain Germany and Eastern Europe particularly Russia Yet despite their tragic collective histories there is hope for the future if only America can claim its true task Searching for the Spirit of the West challenges many of the falsehoods that pass for mainstream history Utilizing a wealth of documented evidence from the research of overlooked historians economists social and spiritual thinkers the author takes a symptomatic view of the past revealing hidden longer term trends This approach offers a new understanding of events such as the rise of Nazism the Great Depression the new Deal and even the roles of banking and clandestine brotherhoods in world history Morelli also appraises The Wonderful Wizard of Oz in parallel with America s cultural achievements Through imagination L Frank Baum s contemporary fairy tale enables us to intuit the true mission of the West and its potential contribution to world culture now and in the future Wall Street and the Rise of Hitler ANTONY. SUTTON,2025-05-28 This is the third and final volume of a trilogy describing the role of the American corporate socialists otherwise known as the Wall Street financial elite or the Eastern Liberal Establishment in three significant twentieth century historical events the 1917 Lenin Trotsky Revolution in Russia the 1933 election of Franklin D Roosevelt in the United States and the 1933 seizure of power by Adolf Hitler in Germany Each of these events introduced some variant of socialism into a major country i e Bolshevik socialism in Russia New Deal socialism in the United States and National socialism in Germany Contemporary academic histories with perhaps the sole exception of Carroll Quigley s Tragedy And Hope ignore this evidence On the other hand it is understandable that universities and research organizations dependent on financial aid from foundations that are controlled by this same New York financial elite would hardly want to support and to publish research on these aspects of international politics The bravest of trustees is unlikely to bite the hand that feeds his organization **Two World Wars and Hitler: Who was Responsible?** Jim Macgregor,John O'Dowd,2025-03-19 A radical re interpretation of events between 1914 and 1945 this book is a scholarly revision of the history of Nazi Germany that is sure to open the eyes of many thus far reluctant to face the truth Deeply researched well sourced evidence relates the true origins of the world wars Corporal Hitler s meteoric rise to supreme power thanks to Britain and the United States of America and how in 1939 the world was once again and very deliberately taken into the abyss The book does not like so many histories about Hitler and the world wars tinker around the edges of modern history It is a unique re writing of the history at a level that is clearly understandable not merely to the academic with a wide level of expertise but to ordinary readers with no more than a general interest in the subject matter Told here for the first time the astonishing truth about British and American secret agents encouraging facilitating and funding Hitler s rise to power is sure to attract a substantial readership Two World Wars and Hitler Who Was Responsible by Jim Macgregor and John O Dowd takes readers on a deep dive into the murky waters of global politics exposing the intricate web of money foreign agents and geopolitical schemes that shaped the events of the 20th century This book challenges the accepted narratives surrounding the causes of the two world wars and Adolf Hitler s rise to power peeling back layers of propaganda to uncover hidden truths

The authors bring their medical and academic backgrounds to bear on a meticulously researched investigation connecting dots that span continents and decades From the clandestine dealings of financial elites to the machinations of intelligence operatives the authors argue that the outcomes of these conflicts were anything but inevitable They propose that powerful individuals and institutions actively manipulated the course of history prioritizing profit and dominance over the welfare of nations and humankind

The Wall Street Trilogy Antony C. Sutton, 2018-06-04 Though he was a prolific author Professor Sutton will always be remembered by his great trilogy Wall St and the Bolshevik Revolution Wall St and the Rise of Hitler and Wall St and FDR This is a trilogy describing the role of the American corporate socialists otherwise known as the Wall Street financial elite or the Eastern Liberal Establishment in three significant twentieth century historical events the 1917 Lenin Trotsky Revolution in Russia the 1933 election of Franklin D Roosevelt in the United States and the 1933 seizure of power by Adolf Hitler in Germany Each of these events introduced some variant of socialism into a major country i e Bolshevik socialism in Russia New Deal socialism in the United States and National socialism in Germany Contemporary academic histories with perhaps the sole exception of Carroll Quigley's *Tragedy And Hope* ignore this evidence On the other hand it is understandable that universities and research organizations dependent on financial aid from foundations that are controlled by this same New York financial elite would hardly want to support and to publish research on these aspects of international politics The bravest of trustees is unlikely to bite the hand that feeds his organization It is also eminently clear from the evidence in this trilogy that public spirited businessmen do not journey to Washington as lobbyists and administrators in order to serve the United States They are in Washington to serve their own profit maximizing interests Their purpose is not to further a competitive free market economy but to manipulate a politicized regime call it what you will to their own advantage Periodic crises and wars are used to whip up support for other plunder reward cycles which in effect tighten the noose around our individual liberties And of course we have hordes of academic sponges amoral businessmen and just plain hangers on to act as non productive recipients for the plunder Stop the circle of plunder and immoral reward and elitist structures collapse But not until a majority finds the moral courage and the internal fortitude to reject the something for nothing con game and replace it by voluntary associations voluntary communes or local rule and decentralized societies will the killing and the plunder cease

Conspiracies and Conspiracy Theories in American History Christopher R. Fee, Jeffrey B. Webb, 2019-05-24 This up to date introduction to the complex world of conspiracies and conspiracy theories provides insight into why millions of people are so ready to believe the worst about our political legal religious and financial institutions Unsupported theories provide simple explanations for catastrophes that are otherwise difficult to understand from the U S Civil War to the Stock Market Crash of 1929 to the terrorist attacks on the World Trade Center in New York Ideas about shadowy networks that operate behind a cloak of secrecy including real organizations like the CIA and the Mafia and imagined ones like the Illuminati additionally provide a way for people to criticize prevailing political and economic arrangements while for society's disadvantaged and forgotten groups conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society Through interpretive essays and factual accounts of various people organizations and ideas the reader will gain a much greater appreciation for a set of beliefs about political scheming covert intelligence gathering and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper and with a global reach
