Philip Barnes, 2019-12-05 Crisis Controversy and the Future of Religious Education sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of

responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for religious and theological educators RE advisers classroom teachers student teachers and those interested in the field of religious education
