Kondrath,2013-08-05 Facing Feelings in Faith Communities is based on a simple premise We have emotions because we need them God created us as affectively competent beings William Kondrath argues to help us understand our world and to give appropriate signals to people around us about what we are experiencing When we express our feelings clearly other people can more easily respond in ways that are helpful to us thus enhancing our relationships and the work we might do together Kondrath also recognizes that unfortunately for many of us our emotional software was infected early on with viruses early familial and social conditioning that distorted the way we responded to natural stimuli Because we are underusing or misusing our emotional capacities we are missing out on the opportunity to express our full humanity Fortunately we can reprogram our emotional software Facing Feelings in Faith Communities helps us restore our emotional systems to their original state or at least invites us to imagine how we would live differently if our emotional expressions were more nearly congruent with the situations and events we encounter Kondrath invites us to explore six feelings fear anger sadness peace power and joy through poetry meditation on an evocative drawing as well as through his own analysis of each feeling Congregational Resources for Facing Feelings is a companion collection to this book For more information [click here](#)

Tragedies and Christian Congregations Christopher Southgate, Carla Grosch-Miller, Hilary Ison, Megan Warner, 2019-09-26 When tragedy strikes a community it is often unexpected with long lasting effects on the people left in its wake Too often there aren't adequate systems in place to aid those affected in processing what has happened This study uniquely combines practical theology pastoral insight and scientific data to demonstrate how Christian congregations can be helped to be resilient in the face of sudden devastating events Beginning by identifying the characteristics of trauma in individuals and communities this collection of essays from practitioners and academics locates sudden trauma inducing tragedies as a problem in practical theology A range of biblical and theological responses are presented but contemporary scientific understanding is also included in order to challenge and stretch some of these traditional theological resources The pastoral section of the book examines the ethics of response to tragedy locating the role of the minister in relation to other helping agencies and exploring the all too topical issue of ministerial abuse Developing a nuanced rationale for good practical pastoral liturgical and theological responses to major traumas this book will be of significant value to scholars of practical theology as well as practitioners counselling in and around church congregations
