When China Ruled the Seas Louise Levathes, 1994 The Treasure Fleet of the Dragon Throne 1405 33 **When China Ruled the Seas** Louise Levathes, 1996 When China Ruled the Seas Louise Levathes, 2014-12-02 One hundred years before Columbus and his fellow Europeans began their voyages of discovery fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains lacquerware and silk ventured to the world's four corners Seven epic expeditions brought China's treasure ships across the China Seas and Indian Ocean from Japan to the spice island of Indonesia and the Malabar Coast of India on to the rich ports of the Persian Gulf and down the East African coast to China's El Dorado and perhaps even to Australia three hundred years before Captain Cook's landing It was a time of exploration and expansion but it ended in a retrenchment so complete that less than a century later it was a crime to go to sea in a multimasted ship In *When China Ruled the Seas* Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China's enigmatic history focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority Drawing on eyewitness accounts official Ming histories and African Arab and Indian sources many translated for the first time Levathes brings readers inside China's most illustrious scientific and technological era She sheds new light on the historical and cultural context in which this great civilization thrived as well as the perception of China by other contemporary cultures Beautifully illustrated and engagingly written *When China Ruled the Seas* is the fullest picture yet of the early Ming dynasty the last flowering of Chinese culture before the Manchu invasion *Leaders* General Stanley McChrystal, Jeff Eggers, Jay Mangone, 2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of *Team of Teams* profiles thirteen of history's great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch's *Lives* as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake

Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation **NASA 50th**

Elleman,2019-08-31 *The Making of the Modern Chinese Navy* includes 14 historical case studies that help to illuminate a number of special characteristics of the modern day Chinese navy most Chinese naval officers perhaps take for granted including a belief in the Mandate of Heaven tributary system and the fear of losing face either in a diplomatic setting or by risking valuable equipment in battle Ethnic and language differences regional loyalties and political mistrust potentially exacerbate these problems Special peculiarities include the Mongol dual officer diarchy that led to the political commissar system utilized by the People s Liberation Army Outside influences such as blockade sanctions or embargoes can exert a profound impact on China just as foreign intervention or equally important a decision not to intervene can often determine the outcome of major maritime events NP The 14 case studies discuss many of these characteristics while the Conclusion examines all case studies together and places them in a historical perspective *The Making of the Modern Chinese Navy* assesses which of these historical characteristics and peculiarities are still present in full force in China and which ones may no longer have as great

an impact on the contemporary Chinese navy
