Where These Memories Grow History Memory And Southern Identity:

Where These Memories Grow W. Fitzhugh Brundage, 2015-12-01 Southerners are known for their strong sense of history But the kinds of memories southerners have valued and the ways in which they have preserved transmitted and revitalized those memories have been as varied as the region's inhabitants themselves This collection presents fresh and innovative perspectives on how southerners across two centuries and from Texas to North Carolina have interpreted their past Thirteen contributors explore the workings of historical memory among groups as diverse as white artisans in early nineteenth century Georgia African American authors in the late nineteenth century and Louisiana Cajuns in the twentieth century In the process they offer critical insights for understanding the many communities that make up the American South As ongoing controversies over the Confederate flag the Alamo and depictions of slavery at historic sites demonstrate southern history retains the power to stir debate By placing these and other conflicts over the recalled past into historical context this collection will deepen our understanding of the continuing significance of history and memory for southern regional identity Contributors Bruce E Baker Catherine W Bishir David W Blight Holly Beachley Brear W Fitzhugh Brundage Kathleen Clark Michele Gillespie John Howard Gregg D Kimball Laurie F Maffly Kipp C Brenden Martin Anne Sarah Rubin Stephanie E Yuhl

The Civil War in Art and Memory Kirk Savage, 2016-01-01 Proceedings of the symposium The Civil War in Art and Memory organized by the Center for Advanced Study in the Visual Arts National Gallery of Art and sponsored by the Arthur Vining Davis Foundations The symposium was held November 8 9 2013 in Washington *Race and Masculinity in Southern Memory* Matthew Mace Barbee, 2013-12-05 In *Race and Masculinity in Southern Memory* Matthew Mace Barbee explores the long history of Richmond Virginia's iconic Monument Avenue As a network of important memorials to Confederate leaders located in the former capitol of the Confederacy Monument Avenue has long been central to the formation of public memory in Virginia and the U S South It has also been a site of multiple controversies over what who and how Richmond's past should be commemorated This book traces the evolution of Monument Avenue by analyzing public discussions of its memorials and their meaning It pays close attention to the origins of Monument Avenue and the first statues erected there including memorials to Robert E Lee and Jefferson Davis Barbee provides a detailed and focused analysis of the evolution of Monument Avenue and public memory in Richmond from 1948 to 1996 through the Civil Rights Movement and the Civil War Centennial and up to the memorial to Arthur Ashe erected in 1996 An African American native of Richmond Ashe was an international tennis champion and advocate for human rights The story of how a monument to him ended up in a space previously reserved for statues of Confederate leaders helps us understand the ways Richmond has grappled with its past especially the histories of slavery Jim Crow and Civil Rights **South Carolina Women** Marjorie Julian Spruill, Valinda W. Littlefield, Joan Marie Johnson, 2012-06 Covering an era from the early twentieth century to the present this volume features twenty seven South Carolina women of varied backgrounds whose stories reflect the ever widening array of activities and occupations in which

women were engaged in a transformative era that included depression world wars and dramatic changes in the role of women Some striking revelations emerge from these biographical portraits in particular the breadth of interracial cooperation between women in the decades preceding the civil rights movement and ways that women carved out diverse career opportunities sometimes by breaking down formidable occupational barriers Some women in the volume proceeded cautiously working within the norms of their day to promote reform even as traditional ideas about race and gender held powerful sway Others spoke out more directly and forcefully and demanded change Most of the women featured in these essays were leaders within their respective communities and the state Many of them such as Wil Lou Gray Hilla Sheriff and Ruby Forsythe dedicated themselves to improving the quality of education and health care for South Carolinians Septima Clark Alice Spearman Wright Modjeska Simkins and many others sought to improve conditions and obtain social justice for African Americans Others including Victoria Eslinger and Tootsie Holland were devoted to the cause of women s rights Louise Smith Mary Elizabeth Massey and Mary Blackwell Butler entered traditionally male dominated fields while Polly Woodham and Mary Jane Manigault created their own small businesses A few including Mary Gordon Ellis Dolly Hamby and Harriet Keyserling exercised political influence Familiar figures like Jean Toal current chief justice of the South Carolina Supreme Court are included but readers also learn about lesser known women such as Julia and Alice Delk sisters employed in the Charleston Naval Yard during World War II

Away Down South James C. Cobb,2005-10-01 From the seventeenth century Cavaliers and Uncle Tom s Cabin to Civil Rights museums and today s conflicts over the Confederate flag this book offers a brilliant portrait of southern identity served in an engaging blend of history literature and popular culture In this insightful book written with dry wit and sharp insight James C Cobb explains how the South first came to be seen and then came to see itself as a region apart from the rest of America This is a major work by one of America s finest Southern historians a magisterial synthesis that combines rich scholarship with provocative new insights into what the South means to southerners and to America as well

Southern Farmers and Their Stories Melissa Walker,2006-09-01 The industrial expansion of the twentieth century brought with it a profound shift away from traditional agricultural modes and practices in the American South The forces of economic modernity specialization mechanization and improved efficiency swept through southern farm communities leaving significant upheaval in their wake In an attempt to comprehend the complexities of the present and prepare for the uncertainties of the future many southern farmers searched for order and meaning in their memories of the past In *Southern Farmers and Their Stories* Melissa Walker explores the ways in which a diverse array of farmers remember and recount the past The book tells the story of the modernization of the South in the voices of those most affected by the decline of traditional ways of life and work Walker analyzes the recurring patterns in their narratives of change and loss filling in gaps left by more conventional political and economic histories of southern agriculture *Southern Farmers and Their Stories* also highlights the tensions inherent in the relationship between history and memory Walker

employs the concept of communities of memory to describe the shared sense of the past among southern farmers History and memory converge and shape one another in communities of memory through an ongoing process in which shared meanings emerge through an elaborate alchemy of recollection and interpretation In her careful analysis of more than five hundred oral history narratives Walker allows silenced voices to be heard and forgotten versions of the past to be reconsidered Southern Farmers and Their Stories preserves the shared memories and meanings of southern agricultural communities not merely for their own sake but for the potential benefit of a region a nation and a world that has much to learn from the lessons of previous generations of agricultural providers *Challenging History* Leah Worthington, Rachel Clare

Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage *Challenging History* through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories *Challenging History* invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship *Literary Theory* Julie Rivkin, Michael Ryan, 2017-01-23 The new edition of this

bestselling literary theory anthology has been thoroughly updated to include influential texts from innovative new areas including disability studies eco criticism and ethics Covers all the major schools and methods that make up the dynamic field of literary theory from Formalism to Postcolonialism Expanded to include work from Stuart Hall Sara Ahmed and Lauren Berlant Pedagogically enhanced with detailed editorial introductions and a comprehensive glossary of terms *Abolitionists Remember* Julie Roy Jeffrey, 2012-02-01 In *Abolitionists Remember* Julie Roy Jeffrey illuminates a second little noted

antislavery struggle as abolitionists in the postwar period attempted to counter the nation's growing inclination to forget why the war was fought what slavery was really like and why the abolitionist cause was so important In the rush to mend fences after the Civil War the memory of the past faded and turned romantic slaves became quaint owners kindly and the war itself a noble struggle for the Union Jeffrey examines the autobiographical writings of former abolitionists such as Laura Haviland Frederick Douglass Parker Pillsbury and Samuel J May revealing that they wrote not only to counter the popular image of themselves as fanatics but also to remind readers of the harsh reality of slavery and to advocate equal rights for African Americans in an era of growing racism Jim Crow and the Ku Klux Klan These abolitionists who went to great lengths to get their accounts published challenged every important point of the reconciliation narrative trying to salvage the nobility of their work for emancipation and African Americans and defending their own participation in the great events of their day
