Robinson,2006 The Influence of the Tourist Industry and Municipality on Cultural Changes Nora Görne,2011-08-30 Essay from the year 2010 in the subject Geography Earth Science Tourism Geography grade A Utrecht University Roosevelt Academy language English abstract That tourism flows pollute the local culture¹ and degrade the authenticity of a location Desforges 517 518 has almost become a truism In fact as Coleman and Crang observe such critiques are as old as tourism itself qtd in Desforges 522 524 and are linked up with a wrong understanding of places at least from a human geographical point of view If detractors state that a locality has become inauthentic under touristic influence than in reverse it must have been authentic meaning genuine unaffected and stable before travelers visited it and brought their own culture In contrast there is basically no place which developed without the influence of travelers As Doreen Massey notes a place is not the way it is because of internal characteristics but because of global linkages qtd in Crang 45 49 and as Desforges adds tourism and travel are merely a new form of interconnection between places 523 For instance the Dutch city Middelburg gained some of its today s distinctive appearance and character by the slave trade and the resulting prosperity some hundred years ago Encyclop dia Britannica As Greenwood concludes some of what we see as destruction is construction 182 However distinctive local traditions like certain ceremonies can change or even lose not only their original meaning but also the sense for residents under the influence of mass tourism Hall and Page 122 Greenwood 181 182 One example for such a change of meaning can be seen in the development of the wine festivals in the Palatinate in Germany which will be examined later

DESTINATION CULTURE: TOURISM, MUSEUMS AND HERITAGE (INTERLOAN 322011). , **Tourism and Visual Culture Methods and cases** Peter M. Burns,Cathy Palmer,Jo-Anne Lester,Lyn Bibbings,2010 The study of tourism as a complex social phenomenon beyond simply business is increasing in importance Providing an examination of perceptions of culture and society in tourism destinations through the tourist s eyes this book discusses how destinations were and are created and perceived through the lens of the tourist s gaze **Emotion in Motion** Mike Robinson,David Picard,2016-05-06 What happens when tourists scream with fear shout with anger and frustration weep with joy and delight or even faint in the face of revealed beauty How can certain sites affect some tourists so deeply that they require hospitalisation and psychiatric treatment What are the inner contours of tourist experience and how does it relate to specific emotional cultures What are the consequences of the emotional cultures of tourists upon destinations How are differences in emotional culture mobilized and played out in the transnational contact zones of international tourism While many books have engaged with the structural frames of tourist practice and experience this is the first to deal with the emotional dimensions of tourism travel and contact and the ways in which they can transform tourists destinations and travel cultures through emotional engagements The book brings together an international array of scholars from anthropology psychiatry history cultural geography and critical tourism studies to explore how the movement to and through the realms of exotic people wild nature s subliminal art spirit worlds metropolitan cities and sexualised others variably provoke emotions peak experiences travel

syndromes and inner dialogues The authors show how tourism challenges us to engage with concepts of self other time nature sex the body and death Through a set of ethnographic and historic cases they demonstrate that such engagements usually have little to do with the actual destination but rather are deeply anchored in personal memories repressed fears and desires and the collective imaginaries of our societies *Rethinking Cultural Tourism* Greg Richards,2021-04-30 This insightful book reappraises how traditional high culture attractions have been supplemented by popular culture events contemporary creativity and everyday life through inventive styles of tourism Greg Richards draws on over three decades of research to provide a new approach to the topic combining practice and interaction ritual theories and developing a model of cultural tourism as a social practice *The Semiotics of Heritage Tourism* Emma Waterton,Steve Watson,2014-01-20 This book is a fast paced and thorough re evaluation of what heritage tourism means to the people who experience it It draws on contemporary thinking in human geography and heritage studies and applies it to a sector of tourism that is both pervasive yet poorly researched in terms of the perspective of tourists themselves In a series of lucid and tightly argued chapters it traces the use of semiotics as an analytical tool from its theoretical origins in text through the all important dynamics of visibility into an expanded realm of feeling and sensuality Challenging assumptions about the way that heritage is experienced this book uses examples from around the world to explore the semiotic landscape that surrounds heritage sites linking what is represented about the past and how it feels to be there **Cultural Tourism in a Changing World** Melanie Kay Smith,Mike Robinson,2006-09-12 At the interface between culture and tourism lies a series of deep and challenging issues relating to how we deal with issues of political engagement social justice economic change belonging identity and meaning This book introduces researchers students and practitioners to a range of interesting and complex debates regarding the political and social implications of cultural tourism in a changing world Concise and thematic theoretical sections provide the framework for a range of case studies which contextualise and exemplify the issues raised The book focuses on both traditional and popular culture and explores some of the tensions between cultural preservation and social transformation The book is divided into thematic sections Politics and Policy Community Participation and Empowerment Authenticity and Commodification and Interpretation and Representation and will be of interest to all who wish to understand how cultural tourism continues to evolve as a focal point for understanding a changing world **Great Expectations** Jonathan Skinner,Dimitrios Theodossopoulos,2011-10-01 The negotiation of expectations in tourism is a complex and dynamic process one that is central to the imagination of cultural difference Expectations not only affect the lives and experiences of tourists but also their hosts and play an important part in the success or failure of the overall tourism experience It is for this reason the authors argue that special attention should be given to how expectations constitute and sustain tourism The case studies presented here explore what fuels the desires to visit particular places to what degree expectations inform the experience of the place and the frequent disjunctions between tourist expectations and

experiences Careful attention is paid to how the imagination of the visitor inspires the imagination of the host and vice versa how tourists and host communities actively imagine re imagine and shape each other s lives This realization has profound consequences not solely for academic analysis but for all those who participate in and work within the tourism industry

Destinations Greg Ringer,2013-04-15 Drawing on selected research from Europe Southeast Asia the Pacific and North America this book combines perspectives in human geography and tourism to present cultural landscapes of tourist destinations as socially constructed *Touring Cultures* Chris Rojek,John Urry,2002-09-11 It is becoming ever clearer that while people tour cultures cultures and objects themselves are in a constant state of migration This collection brings together some of the most influential writers in the field to examine the complex connections between tourism and cultural change and the relevance of tourist experience to current theoretical debates on space time and identity **Histories of Tourism** John K. Walton,2005-01-01 This collection of essays presents develops the historical dimension to tourism studies through thematic case studies The editor s introduction argues for the importance of a closer relationship between history and tourism studies and an international team of contributors explores the relationships between tourism representations environments and identities in settings ranging from the global to the local from the Roman Empire to the twentieth century and from Frinton to the Far East **Culture on Tour** Edward M.
