that made such an impressive reform possible The court is a transplant taken from the European integration process and it materializes the visions expectations and dreams of the transnational development movement of integration through law The book discusses the outcomes of the Court in light of the debates about judicial reform in the process of development and regional integration Although clearly confirming several earlier claims that one size does not fit all Osvaldo Saldias provides new insights into how legal transplants adapt and evolve and how we can learn much more about legal reform from a project that presumably failed than from successful copies The Andean Court of Justice is a remarkable example of an institution capable of adapting to political and economic challenges therefore in times of a severe European economic crisis we should not forget that we might improve our understanding of European integration by looking at developments in other regions An interesting new study with an international focus this book will be a fascinating read for students and scholars of Law and Latin American Studies
