WAGGING PEACE

THE ART OF WAR FOR THE ANTIWAR MOVEMENT

SCOTT RITTER

Waging Peace The Art Of War For The Antiwar Movement

Patricia Appelbaum

Waging Peace The Art Of War For The Antiwar Movement:

Waging Peace Scott Ritter, 2007-04-25 Scott Ritter former Marine and UN weapons inspector argues that there is a growing despondency amongst the anti war movement Ritter proposes the anti war movement seek guidance from sources they normally spurn that one must study the enemy in order to learn the art of campaigning and of waging battles when necessary They need to understand the pro war movement s decision making cycle then undertake a comprehensive course of action Waging War on War Giorgio Mariani, 2015-12-15 The notion that war plays a fundamental role in the United

States idea of itself obscures the rich and by no means naive seam of anti war thinking that winds through American culture Non violent resistance far from being a philosophy of passive dreamers instead embodies Ralph Waldo Emerson s belief that peace can never be defended never be executed by cowards Giorgio Mariani rigorously engages with the essential question of what makes a text explicitly anti war Ranging from Emerson and Joel Barlow to Maxine Hong Kingston and Tim O Brien Waging War on War explores why sustained attempts at identifying the anti war text s formal and philosophical features seem to always end at an impasse Mariani moves a step beyond to construct a theoretical model that invites new inquiries into America s nonviolent nonconformist tradition even as it challenges the ways we study U S warmaking and the cultural reactions to it In the process he shows how the ideal of nonviolence and a dislike of war have been significant if nonhegemonic features of American culture since the nation s early days Ambitious and nuanced Waging War on War at last defines anti war literature while exploring the genre s role in an assertive peacefighting project that offered and still offers alternatives to violence **Globalizing Resistance against War** Tiina Seppälä, 2012-03-15 The political revival of the anti

war movement after 9 11 launched a controversial debate on global resistance Through detailed study of the anti war movement in Britain this book critically evaluates the theoretical debate from the perspective of critical theory in political practice This book presents new arguments and theoretical framework to consider globalized resistance to war In an attempt to develop the theoretical debate further this book analyses two strands of current thought liberal cosmopolitanism which considers the movement a consensual force of opposition against war in the form of global civil society and radical poststructuralism which speaks of the Multitude s war against war Including detailed empirical case study of four anti war organizations the Stop the War Coalition the Campaign for Nuclear Disarmament Globalise Resistance and War Resisters International the author illustrates the limitations of the abstract nature of current theorizing and highlights the need for theory to be more engaged with political practice While revealing tensions and conflicts within the new anti war movement the study not only underlines the need to critically analyse the dominant theoretical discourses but also suggests that the movement would benefit from a more open discussion about the complex relationship between unity and diversity Globalizing Resistance against War is invaluable reading for students and scholars of International Sociology International Relations War and Peace Studies International Theory and Political Theory **Peace and Conflict Studies** David P. Barash, Charles P.

Webel,2008-07-10 Thoroughly revised the Second Edition of Peace and Conflict Studies sets the new gold standard as an accessible introduction and comprehensive exploration of this vital subject The authors share their vast knowledge and analysis about 21st century world events including new coverage on timely topics such as terrorism the truth and reconciliation process and the clash of civilizations With an encyclopedic scope this introductory text chronicles a plethora of important global topics from pre history to the present Key Features of the Second Edition Includes updated chapters and examines current conflicts including the Iraq War Explores the important aspects of positive peace individual violence nationalism and terrorism Provides numerous visual aids questions for further study and suggested readings Furnishes a comprehensive range of material to enlighten and enrich future discussion and encourage further academic pursuit Intended Audience This text is invaluable for students and professors in peace and or conflict studies psychology and or the sociology of peace and conflict studies international relations comparative politics history and others interested in gaining a solid foundation about the global arena Praise for the First Edition Barash and Webel have penned a masterpiece that should appeal to seasoned scholars of peace and conflict studies as well as to others who have little knowledge of this multidisciplinary field Daniel J Christie Ohio State University *Handbook on Building Cultures of Peace* Joseph de Rivera,2008-11-28 Mediation and negotiation personal transformation non violent struggle in the community and the world these behaviors and their underlying values underpin the United Nations definition of a culture of peace and are crucial to the creation of such a culture The Handbook on Building Cultures of Peace addresses this complex and daunting task by presenting an accessible blueprint for this development Its perspectives are international and interdisciplinary involving the developing as well as the developed world with illustrations of states and citizens using peace based values to create progress on the individual community national and global levels The result is both realistic and visionary a prescription for a secure future **Dangerous Ground** Scott Ritter,2010-03-30 In Dangerous Ground Scott Ritter one of the world s leading experts on arms control tells a bold and revisionist account of the inseparable histories of the post World War II American presidency and nuclear weapons Unpacking sixty years of nuclear history Ritter shows that nuclear weapons have become such a fixture that they define present day America on economic military political and moral grounds And despite fears of global nuclear proliferation the greatest threat to international stability Ritter argues is the US s addiction to nuclear weapons Even in light of Barack Obama s historic speech in April 2009 which called for the eventual abolition of nuclear weapons America continues to guard a significant and dangerous nuclear stockpile The notion that we are more secure with nuclear weapons is deeply entrenched in the American psyche and virulently protected by forces in the US establishment As long as this paradigm persists Ritter suggests there will be no fundamental US policy change and as such no change in global nuclear proliferation Kingdom to Commune Patricia Appelbaum,2009-03-01 American religious pacifism is usually explained in terms of its practitioners ethical and philosophical commitments Patricia Appelbaum argues that Protestant

pacifism which constituted the religious center of the large scale peace movement in the United States after World War I is best understood as a culture that developed dynamically in the broader context of American religious historical and social currents Exploring piety practice and material religion Appelbaum describes a surprisingly complex culture of Protestant pacifism expressed through social networks iconography vernacular theology individual spiritual practice storytelling identity rituals and cooperative living Between World War I and the Vietnam War she contends a paradigm shift took place in the Protestant pacifist movement Pacifism moved from a mainstream position to a sectarian and marginal one from an embrace of modernity to skepticism about it and from a Christian center to a purely pacifist one with an informal flexible theology The book begins and ends with biographical profiles of two very different pacifists Harold Gray and Marjorie Swann Their stories distill the changing religious culture of American pacifism revealed in *Kingdom to Commune* The ABCs of Human Survival Arthur Clark, 2010 *The ABCs of Human Survival* examines the effect of militant nationalism and the lawlessness of powerful states on the well being of individuals local communities and global citizenship Based on the analysis of world events Dr Arthur Clark presents militant nationalism as a pathological pattern of thinking that threatens our security while emphasizing effective democracy and international law as indispensable frameworks for human protection Within the contexts of history sociology philosophy and spirituality *The ABCs of Human Survival* calls into question the assumptions of consumer culture and offers as an alternative strategies to improve overall well being through the important choices we make as individuals

Waging Peace in Vietnam Ron Carver, David Cortright, Barbara Doherty, 2019-09-10 How American soldiers opposed and resisted the war in Vietnam While mainstream narratives of the Vietnam War all but marginalize anti war activity of soldiers opposition and resistance from within the three branches of the military made a real difference to the course of America's engagement in Vietnam By 1968 every major peace march in the United States was led by active duty GIs and Vietnam War veterans By 1970 thousands of active duty soldiers and marines were marching in protest in US cities Hundreds of soldiers and marines in Vietnam were refusing to fight tens of thousands were deserting to Canada France and Sweden Eventually the US Armed Forces were no longer able to sustain large scale offensive operations and ceased to be effective Yet this history is largely unknown and has been glossed over in much of the written and visual remembrances produced in recent years *Waging Peace in Vietnam* shows how the GI movement unfolded from the numerous anti war coffee houses springing up outside military bases to the hundreds of GI newspapers giving an independent voice to active soldiers to the stockade revolts and the strikes and near mutinies on naval vessels and in the air force The book presents first hand accounts oral histories and a wealth of underground newspapers posters flyers and photographs documenting the actions of GIs and veterans who took part in the resistance In addition the book features fourteen original essays by leading scholars and activists Notable contributors include Vietnam War scholar and author Christian Appy and Mme Nguyen Thi Binh who played a major role in the Paris Peace Accord The book originates from the exhibition *Waging Peace* which has been shown

in Vietnam and the University of Notre Dame and will be touring the eastern United States in conjunction with book launches in Boston Amherst and New York **The Publishers Weekly** ,2007
