Rabbi Marc Katz

Walden And Civil Disobedience Barnes And Noble Classics:

Taxation in Utopia Donald Morris, 2020-09-01 Taxation in Utopia explores utopian political philosophy from the neglected perspective of taxation At its core taxation is an ethical question It requires people to sacrifice for the benefit of others whether or not they also benefit themselves Donald Morris refers to this broader nonmonetary context as constructive taxation which includes restrictions on privacy and access to information constraints on marriage and child rearing and conventions restricting the proprietorship of land Morris examines this in the context of various utopian writings such as More's Utopia as well as literary treatments of these issues such as Bellamy's Looking Backward This interdisciplinary exploration of utopian taxation provides a novel approach to examining relations between a state's view of the general welfare and the sacrifices this view requires of its citizens

The Heart of Loneliness Rabbi Marc Katz, 2016-09-27 Using the wisdom of the Jewish tradition to better understand and deal with the pain of loneliness in our lives and in the lives of those we love Long description Loneliness is pervasive in our society but is rarely addressed It comes in many forms from the loneliness of loss to that of sickness from single life to marriage to divorce In fact even the most successful among us are not immune Even achievement can be an avenue to loneliness Through sensitivity compassion and insight this book provides the stories and tools we need to begin addressing loneliness in our lives and the lives of those we love With masterful storytelling Rabbi Marc Katz uses the pains of our ancestors to show us the unique ways loneliness appears in our lives Drawing on the stories of Isaac and Rachel King Uzziah and Tamar Jeremiah and Honi Hagar and Aaron Rabbi Katz helps readers understand the nuances of loneliness in their own lives He helps them understand that although their pain may feel like an island others have walked there before them Thoughtful insights on loneliness also help family and friends have a better sense of how and why their friends children parents and co workers suffer Then using the tools of the Jewish tradition Rabbi Katz looks at concrete ways as individuals and as community members we may help those who are lonely in our midst This book is for anyone who is or has suffered from the pain of loneliness as well as those loved ones who stand on the sideline feeling ill equipped to address the alienation they see

The Literatures of the U.S.-Mexican War Jaime Javier Rodríguez, 2010-05-15 The literary archive of the U S Mexican War 1846 1848 opens to view the conflicts and relationships across one of the most contested borders in the Americas Most studies of this literature focus on the war's nineteenth century moment of national expansion In The Literatures of the U S Mexican War Jaime Javier Rodríguez brings the discussion forward to our own moment by charting a new path into the legacies of a military conflict embedded in the cultural cores of both nations Rodríguez's groundbreaking study moves beyond the terms of Manifest Destiny to ask a fundamental question How do the war's literary expressions shape contemporary tensions and exchanges among Anglo Americans Mexicans and Mexican Americans By probing the war's traumas anxieties and consequences with a fresh attention to narrative Rodríguez shows us the relevance of the U S Mexican War to our own era of demographic and cultural

change Reading across dime novels frontline battle accounts Mexican American writings and a wide range of other popular discourse about the war Rodr guez reveals how historical awareness itself lies at the center of contemporary cultural fears of a Mexican invasion and how the displacements caused by the war set key terms for the ways Mexican Americans in subsequent generations would come to understand their own identities Further this is also the first major comparative study that analyzes key Mexican war texts and their impact on Mexico s national identity *Peace in the Mountains* Tom Weyant,2023-08-18 *Peace in the Mountains* analyzes student activism at the University of Pittsburgh Ohio University and West Virginia University during the Vietnam War era Drawing from a wide variety of sources including memoirs periodicals archival manuscript collections and college newspapers such as The Pitt News author Thomas Weyant tracks the dynamics of a student led campus response to the war in real time and outside the purview of the national media Along the way he musters evidence for an emerging social and political conscience among the student bodies of northern Appalachia citing politics on campus visions of patriotism and dissent campus citizenship antiwar activism and draft resistance campus issues and civil rights as major sites of contention and exploration Through this regional chronicle of student activism during the Vietnam War era Weyant holds to one reoccurring and unifying theme citizenship His account shows that political activism and civic engagement were by no means reserved to students at elite colleges on the contrary Appalachian youth were giving voice to the most vexing questions of local and national responsibility student and citizen identity and the role of the university in civil society Rich in primary source material from student op eds to administrative documents *Peace in the Mountains* draws a new map of student activism in the 1960s and early 1970s Weyant s study is a thoughtful and engaging addition to both Appalachian studies and the historiography of the Vietnam War era and is sure to appeal not only to specialists Appalachian scholars political historians political scientists and sociologists but to college students and general readers as well **Playing Dystopia** Gerald Farca,2018-11-05 Video games permeate our everyday existence They immerse players in fascinating gameworlds and exciting experiences often inviting them in various ways to reflect on the enacted events Gerald Farca explores the genre of dystopian video games and the player s aesthetic response to their nightmarish gameworlds Players he argues will gradually come to see similarities between the virtual dystopia and their own offline environment thus learning to stay wary of social and political developments In his analysis Farca draws from a variety of research fields such as literary theory and game studies combining them into a coherent theory of aesthetic response to dystopian games On Religion and Memory Babette Hellemans,Willemien Otten,Burcht Pranger,2013-05 Religion and Pastness examines the implications of the Augustinian concept of time as favoring a causality over linear continuity From this viewpoint the various essays address problems of dynamics and stasis in texts paintings and music ranging from Augustine to Abelard Eriugena Thoreau Calvin Shakespeare Rubens Bach Stravinsky Messiaen Virginia Woolf Cavell Forces of Nature Bernadette H. Hyner,2009-03-26 In *Forces of Nature* the authors investigate the relationships between the natural world and

gender and sexuality The authors explore the frameworks within which femininity and nature have been constructed as well as the impact nature has had on our understandings of masculinity homosexuality and heterosexuality For some writers nature has restorative powers for others nature embodies violence and destruction Yet one common thread runs across all of the chapters in this collection nature and animals can not be separated from the human experience Forces of Nature brings to light the intimate connection humans have with the natural world and provides students and scholars with innovative readings of both canonical and noncanonical texts

Maxwell Anderson and the Marriage Crisis Fonzie D. Geary II, 2022-10-23 This book focuses on the re evaluation of four Maxwell Anderson plays within the context of the emergence of the New Woman and the perception of a marriage crisis in the United States during the 1920s The four plays under consideration are White Desert 1923 Sea Wife 1924 Saturday s Children 1927 and Gypsy 1929 These plays are largely forgotten and even when the titles appear in Anderson scholarship coverage has tended to be cursory and dismissive This work represents a fresh approach and re assessment of an American playwright who bore a significant impact on the drama of his time serving not only to place Anderson s work more effectively within the context of American theatre during the 1920s but also to bridge the gap between his work and the marriage related plays of the late twentieth and early twenty first centuries

How Globalization Spurs Terrorism Fathali M. Moghaddam, 2008-08-30 This book explores modern Islamic terrorism in the context of globalization and cultural evolution 21st century terrorism is different and new first because it relies heavily on electronic communication systems and other aspects of modern technologies and second because it is in large part a product of fractured globalization with its associated threats to the collective identity of Muslims Part one of this work contrasts globalization as an ideal with globalization as it is actually taking place with its enormous contradictions and threats Moghaddam a longtime and highly respected terrorism and conflict researcher argues that globalization is resulting in serious threats to the basic psychological needs of some particularly in connection with collective identity Part two explores how globalization has brought sudden contact between different groups with no previous history of large scale contact resulting in a rapid decline in diversity Terrorism is one of the dysfunctional defense mechanisms of people in such conditions facing external threats Part three describes long term solutions focusing particularly on the role of women and the nature of the family in traditional Islamic societies Moghaddam shows us why globalization is resulting in what he calls catastrophic evolution the rapid decline and disappearance of minority cultures and languages and why that brings a clash of ideologies and the rise of extremism There are also other dangerous trends and those call for inspired solutions springing from an understanding that traditional conflict resolution evolved in the shadow of the Cold War is no

longer effective and needs to change
