Handbook of Handguns Jeffrey Strickland, 2013-04-25. In light of the 2nd Amendment debates, shooting may become the national pastime. To act responsibly within the 2nd Amendment means knowing how to properly bear arms. Knowing involves understanding firearm types, firearm operation, ammunition, internal ballistics and shooting. These require training, especially shooting. Whether you own or plan to own a handgun for recreation, competition or self defense, training is of the utmost importance. When you fire a projectile bullet from a firearm, you are responsible for where it goes. You need to understand how fast it travels, how far it can travel and how accurate your firearm is in delivering the projectile to your intended target. Yes, bearing arms is a right but not one to be taken lightly. Firing a handgun is a grave responsibility and must be done correctly and with a full understanding of all the components that make up shooting. **Splinters of You** Anne
