The Wild Longing of the Human Heart William Cooney, 2016 The search for happiness has been an enduring quest for us all The greatest minds from history Plato Aristotle Epicurus Rousseau Kant Mill Gandhi Einstein and many others all confirm that happiness is the one thing we all crave after The Wild Longing of the Human Heart is divided into two parts Part one examines the brief history of happiness which has not always meant exactly the same thing to all cultures and individuals and then moves on to summarize the latest information from the areas of brain science as well as the field of positive psychology Part two proposes that it is not happiness in the psycho physiological sense of something like tranquility which is the true goal of human living Rather the true goal of the wild longing is a meaningful life guided by the search for truth beauty and goodness The Wild Longing of the Human Heart William Cooney, 2015-12-01 The search for happiness has

been an enduring quest for us all The greatest minds from history Plato Aristotle Epicurus Rousseau Kant Mill Gandhi Einstein and many others all confirm that happiness is the one thing we all crave after The Wild Longing of the Human Heart is divided into two parts Part one examines the brief history of happiness which has not always meant exactly the same thing to all cultures and individuals and then moves on to summarize the latest information from the areas of brain science as well as the field of positive psychology Part two proposes that it is not happiness in the psycho physiological sense of something like tranquility which is the true goal of human living Rather the true goal of the wild longing is a meaningful life guided by the search for truth beauty and goodness Finite Transcendence Steven A. Burr, 2014-05-01 Absurdity time death each

poses a profound threat to Being compelling us to face our limits and our finitude Yet what does it mean to fully realize and experience these threats Finite Transcendence Existential Exile and the Myth of Home presents a thoughtful and thorough examination of these challenges and questions arguing the universality of the realization of finitude in the experience of exile By tracing the historical presence and experience of notions of faith and exile in Western thought from the Ancient Greeks to the present Steven A Burr demonstrates the character of each as fundamental constitutive components of what it means to be human The book discusses essential elements of each culminating in a compelling account of existential exile as a definitive name for the human experience of finitude Burr follows with a comprehensive analysis of the writings of Albert Camus demonstrating an edifying articulation of engagement with and reconciliation of the condition of existential exile Finally based on the model suggested in Camus s approach Burr discusses responses to exile and articulates the meaning of home as the transcendence of exile Finite Transcendence is a work that will be of great value to anyone working in or studying existentialism philosophy of religion hermeneutics and social theory as well as to anyone interested in questions of faith and society religion or secularity **“In the Tight Triangle of the Night”** Maria Grazia Bartolini, 2024-03-19 This book examines the early poetry 1956 1971 of the Ukrainian American writer Yuriy Tarnawsky one of the founders of the New York Group of Ukrainian poets and a unique figure among Ukrainian writers with regard to his experiments with forms

Demonstrating the radical changes that occurred in his poetic style between the 1950s and 1970s Maria Grazia Bartolini analyzes the relationship between these innovations and the similar shifts taking place in Western poetry and culture during the 1950s and 1960s when new forms of expression and a new consciousness developed in the interstices between modernism and nascent postmodernism The book provides the reader with a selection of unpublished materials from the Yuriy Tarnawsky Papers at the Bakhmeteff Archive of Columbia University

The Meaning of Life and Death Michael Hauskeller, 2019-09-19 What is the point of living If we are all going to die anyway if nothing will remain of whatever we achieve in this life why should we bother trying to achieve anything in the first place Can we be mortal and still live a meaningful life Questions such as these have been asked for a long time but nobody has found a conclusive answer yet The connection between death and meaning however has taken centre stage in the philosophical and literary work of some of the world's greatest writers Fyodor Dostoyevsky Leo Tolstoy Søren Kierkegaard Arthur Schopenhauer Herman Melville Friedrich Nietzsche William James Ludwig Wittgenstein Marcel Proust and Albert Camus This book explores their ideas weaving a rich tapestry of concepts voices and images helping the reader to understand the concerns at the heart of those writers work and uncovering common themes and stark contrasts in their understanding of what kind of world we live in and what really matters in life

Understanding Existentialism Dr. Jack Reynolds, 2014-12-18 Understanding Existentialism provides an accessible introduction to existentialism by examining the major themes in the work of Heidegger Sartre Merleau Ponty and de Beauvoir Paying particular attention to the key texts Being and Time Being and Nothingness Phenomenology of Perception The Ethics of Ambiguity and The Second Sex the book explores the shared concerns and the disagreements between these major thinkers The fundamental existential themes examined include freedom death finitude and mortality phenomenological experiences and moods such as anguish angst nausea boredom and fear an emphasis upon authenticity and responsibility as well as the denigration of their opposites inauthenticity and Bad Faith a pessimism concerning the tendency of individuals to become lost in the crowd and even a pessimism about human relations more generally and a rejection of any external determination of morality or value Finally the book assesses the influence of these philosophers on poststructuralism arguing that existentialism remains an extraordinarily productive school of thought

The Philosophy of Camus Anthony Rudd, 2024-11-11 Although Albert Camus is recognised as an important novelist and political commentator he is often still underrated as a philosopher Camus Philosophy focussing on Camus explicitly philosophical writings provides a detailed examination of his intellectual development and argues that his work constitutes a coherent carefully argued meditation on central philosophical themes A systematic comparison of Camus with Søren Kierkegaard provides an interpretive lens through which Camus central philosophical concerns are brought into focus Camus three thematic cycles dealing with Absurdity Revolt and Love Nemesis are compared and contrasted with Kierkegaard's three stages of life the aesthetic ethical and religious Anthony Rudd argues that the Absurd in Camus refers primarily to an experience of the world

as lacking Meaning in a broadly religious sense which Camus sees as entailing a radical amorality. Rudd compares this outlook to Kierkegaard's aestheticism before considering the reasons for Camus' eventual rejection of Absurdist amorality for the ethical philosophy which Camus develops in *The Rebel*. Camus' Philosophy raises questions in a Kierkegaardian spirit about whether Camus' ethics can be viable without a fuller metaphysical background than he articulates in *The Rebel*. Rudd concludes by considering the continuing tension between Camus' affirmation of a Meaningful order in nature and his sensitivity to suffering and evil looking at his account of tragedy and the apparent pessimism of his last published novel *The Fall*.

Well-Being and Theism William A. Lauinger, 2012-07-12 *Well Being and Theism* is divided into two distinctive parts. The first part argues that desire fulfillment welfare theories fail to capture the good part of good for and that objective list welfare theories fail to capture the for part of good for. Then with the aim of capturing both of these parts of good for a conjunctive theory one which places both a value constraint and a desire constraint on well being is advanced. Lauinger then defends this proposition which he calls the desire perfectionism theory against possible objections. In the second part Lauinger explores the question: What metaphysics best supports the claim that the vast majority of humans have the desires for friendship, accomplishment, health, etc. built into themselves? It is argued that there are two general metaphysical routes that might convincingly be taken here and that each one leads us toward theism.

Posthuman Bliss? Susan B. Levin, 2020-12-03 Transhumanists would have humanity's creation of posthumanity be our governing aim. Susan B. Levin challenges their overarching commitments regarding the mind, brain, ethics, liberal democracy, knowledge, and reality. Her critique unmasks their notion of humanity's self-transcendence via science and technology as pure, albeit seductive, fantasy.

Unraveling Life's Riddle Tami Yaguri, 2019-01-14 Happiness is fleeting but meaning endures even through terrible unhappiness. This book helps to unravel the riddle of how to bring meaning to one's life. It also outlines a disciplined technique for uncovering meaning in life. This meaning becomes a north star for navigation and appears in the overlap between an identity and a worldview.

Cosmology, History, and Theology Wolfgang Yourgrau, 2012-12-06 It is difficult to doubt that we suffer at present from the manifold aspects of an economic crisis which affects all walks of life. Well, men in almost every epoch in history have maintained that they were going through a crisis which was supposed to be always more grave than any preceding critical phase. Very often those crises were not of an economic nature but concerned either health, the political structure, the opportunity of acquiring knowledge, and so on. I think that we would consider today that some of those claims that were made in various historical epochs were often exaggerated if viewed from a historical point of view. However, it seems undeniable that we at present are in the middle of a universal economic crisis which has affected almost every facet of our daily life. And yet the fact that despite these adverse conditions it is still possible to gather scholars from all corners of the world to deal with often sheer theological and sometimes abstract pursuits is a refutation of any facile pessimism. It is reassuring to all who wonder where political and social events are taking us. Our salvation may well come
