wishes but it also demonstrates that animals have an existence in and for themselves and are not simply useful counters functioning within discourse **Bibliographie nationale française** ,1992 **A new dictionary of the French and English languages compiled from the dictionaries of the French Academy, Bescherelle, Littré, Beaujean, Bourguignon, etc., etc., and from the most recent works on arts and sciences** Ebenezer Clifton,Adrien Grimaux,1889 **A Critical Bibliography of French Literature** David Clark Cabeen,Urban Tigner Holmes,1980 **Medieval French on the Move** Leah Tether,Patrick Moran,Anne Salamon,2025-03-17

When Keith Busby published his field shaping *Codex and Context* in 2002 the work was referred to as groundbreaking and monumental It prompted scholars of medieval literature to return to manuscripts in their droves However Busby's *Codex and Context* would also enact another more gradual movement His formulation of the term medieval Francophonia to describe the presence power and effect of French outside France would filter steadily into academic enquiry The term and concept are now widely recognised and applied in global scholarship including in multiple major projects dedicated to the topic This volume brings together a series of cutting edge studies of medieval Francophonia covering in one place and for the first time the fullest scope of the concept's remit with contributions on history historiography language literature culture society and authority At the same time as offering a timely contribution to the field this volume pays tribute to Busby's life work not only to pioneer medieval Francophonia but also and moreover to encourage the study of the medieval through material philology Each of the studies here written by Busby's friends and colleagues thus roots its approach in a material context **Modern France** Arthur Augustus Tilley,1922 **A Critical Bibliography of French Literature: The twentieth century, ed. by D.W. Le social ne se laisse pas saisir facilement Il est multiple tant par les objets qui permettent de l'explorer que par la manière dont ces objets eux-mêmes se donnent à voir Ces textes questionnent les catégories qui sont aujourd'hui redessinées par notre société La nature le corps les techniques le religieux l'identité la création l'esthétique la production des normes ou encore les pratiques ludiques sont ce titre interrogés dans ce qu'ils produisent en termes d'exister ensemble *Biological Time, Historical Time* ,2018-11-26

Biological Time Historical Time presents a new approach to 19th century thought and literature by focussing on the subject of time it offers a new perspective on the exchanges between French and German literary texts on the one hand and scientific disciplines on the other Hence the rivalling influences of the historical sciences and of the life sciences on literary texts are explored texts from various scientific domains medicine natural history biology history and multiple forms of vulgarisation are investigated Literary texts are analysed in their participation in and transformation of the scientific imagination Special attention is accorded to the temporal dimension this allows for an innovative account of key concepts of 19th century culture
