Jordan,2019-05-02 Work in Progress Curatorial Labor in Twenty First Century American Fiction interrogates contemporary texts that showcase forms of reading practices that feel anachronistic and laborious in times of instantaneity and short buffering times Objects of analysis include the graphic narrative Building Stories by Chris Ware the music album Song Reader by the indie rock artist Beck Hansen and the computer game Kentucky Route Zero by the programming team Cardboard Computer These texts stage their fragmentary nature and alleged unfinishedness as a quintessential part of both their narrative and material modus operandi These works in and of progress feel both contemporary and retro in the 21st century They draw upon and work against our expectations of interactive art in the digital age incorporating and likewise rejecting digital forms and practices This underlines the material and narrative flexibilities of the objects for no outcome or reading experience is the same or can be replicated It becomes apparent that the texts presuppose a reader who invests her spare time in figuring these texts out diagnosing a contorted work leisure dichotomy working these stories out is a significant part of the reading experience for the reader curatorial labor This conjures up a reader who as the author argues is turned into a curator and creative entity of and in these texts for she implements and reassembles the options made available

alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is ars vitae the art of living Today signs of stress and duress point to a full fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self s needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today s culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions Ars Vitae sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need
