Wise Fools in Shakespeare Robert Hillis Goldsmith, 1974 *The parlour menagerie [signed J.H.]*. John Hogg (publisher.), 1878 **The Judge**, 1917 Leslie's Illustrated Weekly Newspaper, 1917 **The Literary World**, 1899 Shakespeare's First Folio 1623-2023 Matthias Bauer, Angelika Zirker, 2024-09-05 This wide ranging collection reflects on the various motivations that caused the Folio to come into being in 1623 7 years after Shakespeare's death and on how the now iconic book has been continually reimagined after its initial publication to the present day In honour of its original publication Shakespeare's First Folio 1623 2023 Text and Afterlives brings together a remarkable set of ground breaking essays by an international group of scholars From the beginning the publication that came to be called the First Folio was defined by the tension between the book as text and the book as a material object In this volume the individual contributions move between these two meanings in that they consider precursors to the First Folio in the form of reader assembled volumes the poetic identity of Shakespeare and how misfortunes and successes in the early modern printing house shaped Shakespeare's text Chapters examine the unpredictable and often surprising subsequent histories of the book that has even been given a sacred status

and become the basis of Shakespeare's unique position in the history of literature. They consider the afterlife of the text in relation to the reception of Shakespeare's First Folio in Spain, its presence in and influence on James Joyce's *Ulysses*, the role that Meisei University of Japan's Shakespeare Collection has played in the education and research of the institution, and what the collection of 82 copies at the Folger Shakespeare Library in Washington DC tells us about the ongoing role of these books within the study of Shakespeare and the early modern period.

Early Modern Performance Beyond the Public Stage

Amrita Sen, Jennifer Linhart Wood, 2025-09-18. The first major work to explore and analyse the popular extra-theatrical performances in late medieval and Renaissance England. This wider heterogeneous category of early modern performance included puppetry, fireworks, shows, rope dancing, minstrelsy, performing animals, games, civic drama, court masques, university drama, morris dances, and ceremonial rituals, all taking place in a variety of venues. The volume reveals how these extra-theatrical productions shaped urban and rural life and conveyed a sense of spectacular excess, of exceeding traditional genres, conventional modes of performance, and the typical bounds of theatrical space. The spaces where medieval and early modern drama flourished include pageant carts, convents, private homes, universities, waterways, and the streets of both urban and rural communities. Much like public theatres, these performance spaces also played a pivotal role in articulating individual, communal, and national aspirations. Spanning the medieval period to the late 17th century, this volume engages with questions of spatiality, gender, religion, transcontinental exchanges, and colonialism, presenting the latest research from scholars across the globe.
