**Captain Scott's Invaluable Assistant: Edgar Evans** Isobel Williams, 2011-11-30 Petty Officer Edgar Evans was Captain s Scott s giant worker and his invaluable assistant He went with Scott on both the British Antarctic Expeditions of the early 1900s the Discovery expedition of 1901 and the Terra Nova expedition in 1910 distinguishing himself on both In 1903 with Scott Edgar made the first long and arduous sortie onto the Plateau of Victoria Land The journey highlighted Edgar s common sense strength courage wit and unflappability Thus it came as no surprise when in 1911 Edgar was chosen by Scott to be one of the five men to go on the final attempt at the South Pole Tragically the Welsh Giant was the first to die on the ill fated return and posthumously Edgar was blamed in some quarters for causing the deaths of the whole party It was suggested that his failure was due to his relative lack of education which made him less able to endure the conditions than his well educated companions Isobel Williams repudiates this shameful suggestion and redresses the balance of attention paid to the upper and lower deck members of Scott s famous expeditions

**Colonialism and Antarctica** Peder Roberts, Alejandra Mancilla, 2024-07-30 This book explores how the concept of colonialism can help to understand the past and present of Antarctica and how Antarctica may illuminate the limits of colonialism as an analytic concept Despite lacking an indigenous population the continent has been shaped by many of the same political and economic forces that have defined the rest of the world notwithstanding its unique governance arrangement the Antarctic Treaty System The book provides a fresh and timely set of contributions that critically explore different practices attitudes and logics that suggest that colonialism may have been and may still be present in Antarctica ranging from religion to material culture to the treatment of animals The chapters also explore the connection between colonialism and cognate terms like capitalism socialism nationalism and environmentalism An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

*Antarctica, Art and Archive* Polly Gould, 2020-12-10 Antarctica that icy wasteland and extreme environment at the ends of the earth was at the beginning of the 20th century the last frontier of Victorian

imperialism a territory subjected to heroic and sometimes desperate exploration Now at the start of the 21st century Antarctica is the vulnerable landscape behind iconic images of climate change In this genre crossing narrative Gould takes us on a journey to the South Pole through art and archive Through the life and tragic death of Edward Wilson polar explorer doctor scientist and artist and his watercolours and through the work of a pioneer of modern anthropology and opponent of scientific racism Franz Boas Gould exposes the legacies of colonialism and racial and gendered identities of the time Antarctica the White Continent far from being a blank and white canvas is revealed to be full of colour Gould argues that the medium matters and that the practices of observation in art anthropology and science determine how we see and what we know Stories of exploration and open air watercolour painting of weather experiments and ethnographic collecting of evolution and extinction are interwoven to raise important questions for our times Revisiting Antarctica through the archive becomes the urgent endeavour to imagine an inhabitable planetary future
