Weiss,2021-10-01 This ground breaking book presents multifaceted perspectives to examine assumptions about gender intersecting identities and power that impact women s experience as group psychotherapy leaders mentors and educators Leaders in the field discuss the theories training personal experience mentorship and clinical work that empower women group psychotherapists beyond the limits of traditional technique and practice Chapters boldly investigate theoretical cultural and personal paradigms and explore themes of intersectionality gender role identity and hidden bias The authors challenge embedded societal norms to encourage deeper gender and cultural intelligence in group psychotherapy leadership This text provides guidance and clinical wisdom that will inspire scaffold and embolden contemporary group psychotherapy leadership *Women and Leadership in the European Union* Henriette Müller,Ingeborg Tömmel,2022-03-03 This volume is the first comprehensive analysis of women s ascendance to leadership positions in the European Union as well as their performance in such positions It provides a new theoretical and analytical framework capturing both positional and behavioural leadership and the specific hurdles that women encounter on their path to and when exercising leadership The volume encompasses a detailed set of single and comparative case studies analyzing women s representation and performance in the core EU institutions and their individual pathways to and exercise of power in top level functions as well as comparative analyses regarding the position and behaviour of women in relation to men Based on these individual studies the volume draws overarching conclusions about women s leadership in the EU Regarding positional leadership women continue to be underrepresented in leadership positions they more often hold less prestigious portfolios in such positions and manifold structural hurdles hamper their access to power Furthermore huge variations exist across EU institutions with the intergovernmental bodies being the hardest to access Regarding behavioural leadership women acting in powerful EU positions generally perform excellently They successfully exercise a combined leadership style that integrates attributes of leadership considered to be masculine and feminine This is not to argue that women per se are the better leaders Yet more often than men they are exposed to stronger selection processes and their prevalent practice of a combined leadership style tends to best meet the requirements of modern democratic systems and particularly those of the highly fragmented EU Women and Leadership Lisa

sometimes non conforming lived experiences shaped their understandings of leadership It goes beyond hero she ro person centered approaches to get at the complex and intrapersonal nature of leadership It also situates intersectional identities critical consciousness and student development theory as important lenses throughout the text Recognizing that there are many possible manifestations of leadership or gender this text encourages students to embrace the contradictions rather than engaging in dualistic black and white thinking challenging them to address such questions as Should women lean in and work harder to achieve their own leadership goals or should they focus on bigger systemic issues to create equity in the workplace Each chapter concludes with a brief chapter review a narrative from a current college student and critical reflection questions

Women as Global Leaders Faith Wambura Ngunjiri, Susan R. Madsen, 2015-02-01 Women as Global Leaders is the second volume in the new Women and Leadership Research Theory and Practice book series published for the International Leadership Association by IAP Global leadership is an emerging area of research with only a small but growing published literature base More specifically the topic of women s advances and adventures in leading within the global context is barely covered in the existing leadership literature Although few women are serving in global leadership roles in corporate and non profit arenas and as heads of nations that number is growing e g Indira Nooyi at PepsiCo Sheryl Sandberg at Facebook Marissa Mayer at Yahoo Ellen Johnson Sirleaf as president of Liberia Angela Merkel as chancellor of Germany The purpose of this volume is to provide the reader with current conceptualizations and theory related to women as global leaders recent empirical investigations of the phenomenon analysis of effective global leadership development programs and portraits of women who lead or have led in a global role The volume is divided into four sections The first section covers the state of women as global leaders containing chapters by Joyce Osland and Nancy Adler pioneers in the field of global and or women s leadership The second section describes approaches to women s global leadership The third section offers an analysis of programs that are useful in developing women as global leaders with the final section profiling women as global leaders including Margaret Thatcher Nobel Laureate Malala Yousfazai and Golda Meir As Barbara Kellerman noted in the Foreword this book should be understood as a collection whose time has come precisely because women now have opportunities to lead that are far more expansive than they were even in the recent past Though their numbers remain low they are able in some cases to exercise leadership not only as outsiders but also as insiders from

the very positions of power and authority to which men forever have had access **Ways of Seeing Women's Leadership in Education: Stories, Images, Metaphors, Methods and Theories** Kay Fuller, Pontso Moorosi, Victoria Showunmi, Saeeda J. A. Shah, 2022-01-04 *Women as Leaders in Education* Jennifer L. Martin, 2011-09-22 This up to date candid examination of women's careers in education and leadership in education describes the pitfalls triumphs and future promise of female leaders in education Overall education is a field still dominated by women yet women do not typically pursue or attain leadership positions at the administrative level Research has revealed some of the reasons for this women still experience gender discrimination in education careers experience higher attrition rates and have slower career mobility than do men Additionally women in education are apparently less valued and their performance is more critically evaluated as in other fields This insightful text shows the gender based inequities and discrimination women face when aiming for leadership positions in education and lays out a plan to bring success to this level of the field that is still male dominated *Women as Leaders in Education Succeeding Despite Inequity Discrimination and Other Challenges* is the result of a team of leading feminist educators and scholars It delves into feminist women's leadership in education from kindergarten to graduate school This two volume work assesses the historical and current political landscape with regard to women hitting a glass ceiling issues of social justice and the unique challenges women face in educational leadership as well as the new field of teacher leadership **Diversity in Leadership** Joy Damousi, Kim Rubenstein, Mary Tomsic, 2014-11-25 While leadership is an over used term today how it is defined for women and the contexts in which it emerges remains elusive Moreover women are exhorted to exercise leadership but occupying leadership positions has its challenges Issues of access acceptable behaviour and the development of skills to be successful leaders are just some of them *Diversity in Leadership Australian women past and present* provides a new understanding of the historical and contemporary aspects of Indigenous and non Indigenous women's leadership in a range of local national and international contexts It brings interdisciplinary expertise to the topic from leading scholars in a range of fields and diverse backgrounds The aims of the essays in the collection document the extent and diverse nature of women's social and political leadership across various pursuits and endeavours within democratic political structures *Women, Power, and Politics* Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender

justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics
