The Oxford Handbook of Women and Gender in Medieval Europe Judith M. Bennett, Ruth Mazo Karras, 2013-08-22 Provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C.E.

[Women and Gender in Medieval Europe](#) Margaret C. Schaus, 2006-09-20 From women's medicine and the writings of Christine de Pizan to the lives of market and tradeswomen and the idealization of virginity gender and social status dictated all aspects of women's lives during the middle ages A cross disciplinary resource Women and Gender in Medieval Europe examines the daily reality of medieval women from all walks of life in Europe between 450 CE and 1500 CE i.e. from the fall of the Roman Empire to the discovery of the Americas Moving beyond biographies of famous noble women of the middle ages the scope of this important

reference work is vast and provides a comprehensive understanding of medieval women's lives and experiences. Masculinity in the middle ages is also addressed to provide important context for understanding women's roles. Entries that range from 250 words to 4 500 words in length thoroughly explore topics in the following areas: Art and Architecture, Countries, Realms and Regions, Daily Life, Documentary Sources, Economics, Education and Learning, Gender and Sexuality, Historiography, Law, Literature, Medicine and Science, Music and Dance, Persons, Philosophy, Politics, Political Figures, Religion and Theology, Religious Figures, Social Organization and Status. Written by renowned international scholars, *Women and Gender in Medieval Europe* is the latest in the Routledge Encyclopedias of the Middle Ages. Easily accessible in an A to Z format, students, researchers, and scholars will find this outstanding reference work to be an invaluable resource on women in Medieval Europe.

Women's Roles in the Middle Ages Sandy Bardsley, 2007-06-30

Information about women in this truly fascinating period from 500 to 1500 is in great demand and has been a challenge for historians to uncover. Bardsley has mined a wide range of primary sources from noblewomen's writing, court rolls, chivalric literature, laws, and legal documents to archeology and artwork. This fresh survey provides readers with an excellent understanding of how women high and low fared in terms of religion, work, family, law, culture, and politics and public life. Even though medieval women were divided by social class, religion, age, marital status, place, and period, they were all subject to an overarching patriarchal structure and sometimes could transcend their inferior status. Numerous examples of these exceptional women and their words are included.

Chapter 1 examines religion, focusing on women's roles in the early Christian church, the lives of nuns, and other professional religious women such as anchoresses and Beguines; the participation of Christian laywomen and the experiences of Jewish and Islamic women in Western Europe. The second chapter examines women's work, looking in turn at the kinds of work performed by peasant women, townswomen, and noblewomen. Women's roles within the family form the subject of the third chapter. This chapter follows women throughout the typical lifecycle from girl to widow, examining the expectations and experiences of women at each stage. Chapter 4, *Women and the Law*, focuses on the ways in which laws both restricted and protected women. It also considers the crimes with which women were most often charged and surveys laws regarding marriage and widowhood. Women's roles in creative arts form the basis of the fifth chapter, *Women and Culture*. This chapter examines women's roles as artists, authors, composers, and patrons, as well as investigating the ways in which women were represented in works produced by men. Finally, chapter 6 discusses women's experiences in politics and public life. While women as a group were typically banned from holding positions of public authority, some found ways to get around this stricture while others were able to exercise power behind the scenes. The final chapter thus encapsulates a major theme of this book: the interplay between broader patriarchal forces that limited women's status and autonomy and the role of individuals who were able to overcome or circumvent such forces. Medieval women were, as a group, subordinate to their husbands and fathers, but certain women, under certain circumstances, evaded subordination.

Gender in Medieval

Culture Michelle M. Sauer, 2015-09-24 *Gender in Medieval Culture* provides a detailed examination of medieval society's views on both gender and sexuality and shows how they are inextricably linked. Sex roles were clearly defined in the medieval world although there were exceptions to the rules and this book examines both the commonplace world view and the exceptions to it. The volume looks not only at the social and economic considerations of gender but also the religious and legal implications arguing that both ecclesiastical and secular laws governed behaviour. The book covers key topics including femininity and masculinity and how medieval society constructed these terms. Sexuality and sex transgressive sexualities such as homosexuality, adultery and chastity and the gendered body of Christ including the idea of Jesus as mother and affective spirituality. Using a clear chapter structure for easy navigation and categorisation as well as a glossary of terms the book will be a vital resource for students of medieval history. *A Cultural History of Women in the Middle Ages* Kim M.

Phillips, 2015-04-02 The medieval era has been described as the Age of Chivalry and the Age of Faith but also as the Dark Ages. Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities but some scholars have claimed they enjoyed a rough and ready equality with men. The contrasting figures of Eve and the Virgin Mary loom over historians' interpretations of the period 1000-1500. Yet a wealth of recent historiography goes behind these conventional motifs showing how medieval women's lives were shaped by status, age, life stage, geography and religion as well as by gender. *A Cultural History of Women in the Middle Ages* presents essays on medieval women's life cycle, bodies and sexuality, religion and popular beliefs, medicine and disease, public and private realms, education and work, power and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity. **Hildegard of Bingen and Her Gospel Homilies** Beverly Mayne Kienzle, 2009 Hildegard of Bingen 1098-1179 the only medieval woman known to have authored systematic works of exegesis composed fifty-eight little studied *Expositiones euangeliorum* homilies on twenty-seven Gospel passages. Hildegard described her divine charge to restore the tottering faith of her era through the revelation of hidden mysteries in the Scriptures. She was to continue the exegetical tradition of the Fathers and to construct moral fortifications with the words of Scripture in order to defend her sisters against the forces of evil. Hildegard of Bingen and her Gospel Homilies constitutes the first in-depth study of Hildegard's *Expositiones* and of her exegesis, preaching and use of sources. It explores the *Expositiones* in the context of Hildegard's intellectual and cultural milieu and underscores the central role of biblical interpretation in the seer's works. Furthermore, this book re-examines Hildegard's self-depiction in the context of monastic education for women, the magistra's exchange with her mentors and friends and her rich use of divine voice to empower her own expression. This is a new, exciting and erudite study on one of the most influential female mystics. *Reference & User Services Quarterly*, 2006 **Medieval Feminist Forum**, 2008 *Studies and Texts - Pontifical Institute of Mediaeval Studies*, 1955 **American Reference Books Annual**

Bohdan S. Wynar, 2007-1970 issued in 2 vols v 1 General reference: social sciences, history, economics, business v 2 Fine arts

humanities science and engineering **Women in Early Medieval Europe, 400-1100** Lisa M. Bitel, 2002-10-24 This is a history of the early European middle ages through the eyes of women combining the rich literature of women's history with original research in the context of mainstream history and traditional chronology The book begins at the end of the Roman empire and ends with the start of the long eleventh century when women and men set out to test the old frontiers of Europe The book recreates the lives of ordinary women but also tells personal stories of individuals Each chapter also questions an assumption of medieval historiography and uses the few documents produced by women themselves along with archaeological evidence art and the written records of medieval men to tell of women their experiences and ideas and their relations with men It covers the continent and its exotic edges such as Iceland Ireland and Iberia looking at women Christian and non Christian alike The Medieval British Literature Handbook Daniel T. Kline, 2009 One stop resource for courses in medieval literature providing students with a comprehensive guide to the historical and cultural context major texts and movements reading primary and critical texts key critics concepts and topics major critical approaches and directions of new research *Library Journal* Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 2007 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately

Women in Medieval Europe 1200-1500 Jennifer Ward, 2016-04-14 Women in Medieval Europe explores the key areas of female experience in the later medieval period from peasant women to Queens It considers the women of the later Middle Ages in the context of their social relationships during a time of changing opportunities and activities so that by 1500 the world of work was becoming increasingly restricted to women The chapters are arranged thematically to show the varied roles and lives of women in and out of the home covering topics such as marriage religion family and work For the second edition a new chapter draws together recent work on Jewish and Muslim women as well as those from other ethnic groups showing the wide ranging experiences of women from different backgrounds Particular attention is paid to women at work in the towns and specifically urban topics such as trade crafts healthcare and prostitution The latest research on women gender and masculinity has also been incorporated along with updated further reading recommendations This fully revised new edition is a comprehensive yet accessible introduction to the topic perfect for all those studying women in Europe in the later Middle Ages **Book Review Index - 2009 Cumulation** Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **New Books on Women and**
