Early American Women: A Documentary

History, 1600 - 1900 Nancy Woloch,2002 This volume contains a collection of over 100 primary sources in women s history

that reveals the diversity of women's experience from the colonial era through the 19th century. The documents range from the familiar to the unusual. Collectively they evoke interest, inspire reflection, and invite commentary from readers. It presents sources such as census data from Spanish California, accounts of Iroquois women in government, oral histories of slaves, and material on the 19th century suffrage movement. **Timelines of American Women's History** Sue Heinemann, 1996

Spanning five hundred years of American history, this definitive reference provides an incisive look at the contributions that women have made to the social, cultural, political, economic, and scientific development of the United States. Original

1920-1940 Sharon M. Himsl, 2004. Ratification of Nineteenth Amendment, first assembly of League of Nations, United States was absent, Mussolini's March on Rome, Lindbergh's transatlantic flight, Jazz Singer debut, Gandhi's Salt March, Hitler's rise, stock market crash, and Operation Dynamo rescue at Dunkirk are among the events discussed, describing a highly transitional period that begins with the aftermath of World War I and ends with the outbreak of World War II.

Perspectives, 2003. **Program of the Annual Meeting - American Historical Association**. American Historical Association, 2006. Some programs include also the programs of societies meeting concurrently with the association.

Legacy of a Southern Lady, Anna Calhoun Clemson, 1817-1875 Nancy Ann Russell, 2003. **American Women** Susan Ware, 2021. **American Women: A Concise History** offers the most accessible and engaging introduction to the history of American women. **A Century of Women** Sheila Rowbotham, 1997. Davis, 2016-10-19. The fifth edition of **The Disability Studies Reader** addresses the post-identity theoretical landscape by emphasizing questions of interdependency and independence, the human-animal relationship, and issues around the construction or materiality of gender, the body, and sexuality. Selections explore the underlying biases of medical and scientific experiments and explode the binary of the sound and the diseased mind. The collection addresses physical disabilities but also always investigates issues around pain, mental disability, and invisible disabilities as well. Featuring a new generation of scholars who are dealing with the most current issues, the fifth edition continues the Reader's tradition of remaining timely, urgent, and critical. **Mama Learned Us to Work** Lu Ann Jones, 2002. **Mama Learned Us to Work: Farm Women in the New South**. **The Family in America** Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22. An incisive multidisciplinary look at the American family over the past 200 years, written by respected scholars and researchers. **Family in America** offers two powerful antidotes to popular misconceptions about American family life: historical perspective and scientific objectivity. When we look back at our early history, we discover that the idealized 1950s family, characterized by a rising birthrate, a stable divorce rate, and a declining age of marriage, was a historical aberration out of line with long-term historical trends. Working mothers, we learn, are not a 20th-century invention; most families throughout American history have

needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change
