You Want Vet Realities Veterinary:

So You Want to Be a Vet: The Realities of Studying and Working in Veterinary Medicine Neil Paton, 2015-11-23 The publication of Alf Wight's James Herriot books led to an upsurge in interest in the veterinary profession amongst the public and inspired many to study veterinary medicine. However, the profession has changed markedly since those days with many more opportunities for people entering the veterinary field such as job prospects in bioscience research, government work, specialisation in exotic animal medicine, animal welfare advisory work, international development work and a whole host of other career options. The landscape of the veterinary curriculum has also broadened considerably with topics like animal behaviour, ethics, business management, client communication, veterinary public health and clinical skills sitting alongside clinical veterinary medicine. Authored by a Royal Veterinary College tutor with extensive experience within the veterinary profession and with teaching new students, this book provides a thorough explanation of what prospective students can expect to study at veterinary school and discusses career options available to new graduates as well as a useful overview of current issues in the wider veterinary profession and an honest and thought-provoking discussion of what veterinary life is actually like. So You Want to Be a Vet will be a useful resource and advisory guide to those considering entering veterinary school and following veterinary medicine as a career path. It will also be beneficial to qualified vets and agricultural students.

5m Books The Career Chronicles Mike Gregory, 2010-11-17 In this nuts and bolts guide over 750 professionals speak candidly about the good, the bad and the ugly of two dozen popular professions. Dispensing with romantic fantasies, real world professionals from nurses and pharmacists to architects and attorneys speak about the day to day realities of their careers in six categories: College vs Reality, The Biggest Surprise, Hours and Advancement, The Best and the Worst, Changes in the Profession, Would You Do It All Over Again. Chapters include overviews of each profession followed by helpful information about education, testing and registration and licensing requirements, the number of positions across the country and the average starting or median annual salaries. This valuable resource is filled with the open personal insights and observations most students and career changers want and need to make informed decisions about what they will do with the rest of their lives.

Coping with Stress and Burnout as a Veterinarian Nadine Hamilton, 2019-02-07 Being a veterinarian can be a rewarding, challenging and demanding career requiring a passion for animals, great interpersonal skills and a strong work ethic. It also has a dark and very dangerous side. The suicide rate for veterinarians is almost four times higher than the general population across the UK, Australia, US, New Zealand and Canada. The effects of working long hours, performing euthanasia on animals, emotional pressure, financial issues, unrealistic expectations and dealing with distressed clients places considerable stress on both the vet themselves and their families at home. Failure to cope with such stress upsets mental wellbeing and can lead to serious emotional, physical and behavioural issues. For some it leads to death. If we are to reduce this suffering we need to find out what hinders a vet's wellbeing and use targeted solutions that work. In this unique book

psychologist Dr Nadine Hamilton presents an examination of the problem the ways vet mental health is influenced by their daily work and the science we can use to tackle it head on Drawing from the fields of positive psychology acceptance and commitment therapy career construction theory and resiliency studies she outlines a promising new weapon in the profession's fight against suicide Included in this book is a concise self help version of her ground breaking Coping and Wellbeing Program for Veterinary Professionals an evidence based psycho educational intervention to educate vets on how to develop protective attitudes enhance wellbeing and increase their coping skills This is a book for every veterinarian veterinary student and veterinary nurse *The New Vet's Handbook: Information and Advice for Veterinary Graduates* Clare

Tapsfield-Wright, 2018-06-30 Entering the veterinary profession after leaving vet school is a challenging stage of the new vet's career Finding the right first placement fitting in with colleagues adapting to the practice environment and understanding what's expected of you clinically professionally ethically and academically are all challenges that face the new graduate Attrition rates and reports of dissatisfaction of new graduates are high and a matter of concern to the profession and it is recognised that extra support and guidance is needed The New Vet's Handbook acts as a guidebook for newly qualified vets on personal and professional issues covering employment options interviews mentoring working with clients patients and colleagues consulting advice dealing with euthanasia record keeping veterinary standards training and CPD career options professional skills and avoiding pitfalls relating to social media drugs and ethical issues The book also covers topics specific to vets in small animal and large animal practice Written in a supportive and lighthearted way The New Vet's Handbook aims to provide advice based on long held experience and reduce stress at a challenging time It will be an essential read for newly qualified vets and final year vet students 5m Books *The Career Chronicles* Michael G.
