TV Format Mogul Albert Moran, 2013-01-06 Since the late 1990s when broadcasters began adapting such television shows as Big Brother Survivor and Who Wants to Be a Millionaire for markets around the world the global television industry has been struggling to come to grips with the prevalence of program franchising across international borders In *TV Format Mogul* Albert Moran traces the history of this phenomenon through the lens of Australian producer Reg Grundy's transnational career Program copycatting Moran shows began long before its most recent rise to prominence Indeed he reveals that the practice of cultural and commercial cloning from one place to another and one time to another has occurred since the early days of broadcasting Beginning in the late 1950s Grundy brought non Australian shows to Australian audiences becoming the first person to take local productions to an overseas market By following Grundy's career Moran shows how adaptation and remaking became the billion dollar business they are today An exciting new contribution from Australia's foremost scholar of television *TV Format Mogul* will be a definitive history of program franchising

Waterman When the hits dried up in the 1990s Kylie was faced with her first major challenge She had to reinvent herself for a new generation of fans Stepping out of the shadow of her producers she bravely forged her own path as an independent performer But though everyone was still talking about her she had to face the fact that she wasn't at the top any more And so she reinvented herself again in the early 2000s as a disco diva and this time her career which appeared to be in gentle but terminal decline was turned around dramatically Songs such as Spinning Around and Can't Get You Out Of My Head were pop classics and provided reason enough for the public that had always held her in huge affection to fall in love all over again Kylie mania spread all over the world and her reputation was sealed she was an international superstar After her traumatic battle with breast cancer the Aussie diva came back stronger and sexier than ever putting on a breath taking comeback with her ever elaborate Showgirl tour Now still a firm favourite with the public Kylie Minogue can do no wrong And twenty years on from the release of her first single Loco Motion with over 40 million records sold and her tenth studio album released she is showing no signs of slowing down The Queen of Pop is definitely here to stay this is her story
