Youth Participation In Europe Beyond Discourses Practices And Realities:

Youth Participation in Europe Patricia Loncle, 2012-10-10 In a period when social unrest and youth dissatisfaction has manifested itself through highly public protests the question of youth participation in democratic societies is at the forefront This book offers a fresh look at youth participation examining official and unofficial constructions of participation by young people in a range of sociopolitical domains It explores the motivations and rationales underlying official attempts to increase participation among young people and offers a critique of those various efforts effectiveness Based on original research data from a significant study it provides a thorough analysis of an important sector of democratic societies *Youth Participation in Europe* Patricia Loncle, Andreas Walther, Virginie Muniglia, Morena Cuconato, 2013 This timely book offers a fresh look at youth participation examining official and unofficial constructions of participation by young people in a range of socio

political domains **Young People and the Struggle for Participation** Andreas Walther, Janet Batsleer, Patricia Loncle, Axel Pohl, 2019-07-10 Young People and the Struggle for Participation rethinks dominant concepts and meanings of participation by exploring what young people do in public spaces and what these spaces mean to them individually and collectively This book discusses how different spaces and places structure and are in turn structured by young peoples activities Drawing on findings from a comparative study in eight European cities insights into different styles of youth participation emerging from formal non formal and informal settings are presented The book provides a comparative analysis of how transnational discourses national welfare states and local youth policies affect youth participation It also investigates how it comes about that young people get involved in different forms of participation in the course of their biographies This book will appeal to academics researchers and post graduate students in the fields of youth studies community studies sociology of education political science social work psychology and anthropology **The ^AOxford Handbook of**

Intergenerational Connections Elizabeth F. Fideler, 2025-08-22 The need to develop connections between members of different generations is being driven by a host of trends and challenges This handbook presents what is known about the spectrum of intergenerational initiatives in the United States and abroad It addresses specifically what increases cooperation interaction or exchange between any two or more generations and how to foster the sharing of skills knowledge or experience between old and young **Reconsidering Religion, Law, and Democracy** Anna-Sara Lind, Mia Lövheim, Ulf

Zackariasson, 2016-01-05 How are Western mostly secular societies handling religion in its increasingly pluralistic and complex forms What different forms of interactions between and negotiations of religion and religious beliefs can we see in contemporary society What are the primary contenders in these interactions and negotiations The authors of Religion Law and Democracy give ample examples of a variety of interaction processes between different expressions of religion and different spheres of society such as the media the judicial systems and state administration and policy The authors primarily approach these questions from a North European but also to some extent a global perspective A common denominator is a

dynamic perspective on the relation between religious organizations society and the individual actors in other words how all of these levels are interconnected and transformed in these processes

The History of Youth Work in Europe Griet Verschelden, Council of Europe, 2009 The History of youth work in Europe series aims to achieve better understanding of current challenges in youth work and youth policy Volume 5 addresses questions like How have government policies and administrative practices over the past few decades affected youth work What kind of strategies has youth work developed to react to them and to create a positive space for work with young people Can educational approaches of youth work like social pedagogy help mediate between young people in their ever changing lives and society Co operation between youth policy youth research and youth work has been called the Magic Triangle but is the magic still there This publication discusses these and other topics from a variety of perspectives The authors come not only from Europe but also from the USA Australia and South Africa providing a refreshing comparative reflection on youth work issues and opportunities which is revealed to be global in nature They also have diverse and varied backgrounds in youth research youth work youth policy making and youth worker training This comparative historical perspective puts some of the pieces of the youth work puzzle together while many are left unconnected It also becomes apparent that there is an element of randomness in the historical development of youth work Many structures policies approaches and methods are not historically necessary Rather many things could have come out differently This volume on the history of youth work provides many readings it provides a rich collection of national youth histories to complement and build upon the four earlier volumes and histories and analyses of youth work for readers to compare with their own experience sharpen their critical view and inspire their thinking

Youth Work and Non-formal Learning in Europe's Education Landscape ,2015 This publication marks a quarter of a century of EU youth programmes accompanied by EU youth policy It brings together a range of views and highlights best practices with the aim of stimulating debate about what youth work and non formal learning can contribute alongside other sectors to European education From diverse viewpoints it reviews EU cooperation in the field points to successes and sets out possible future scenarios particularly in the context of the Erasmus programme 2014 2020 Page 2

Thinking Seriously about Youth Work, and how to Prepare People to Do it Council of Europe, 2017 If we consider the 50 states having ratified the European Cultural Convention of the Council of Europe or the member states of the European Union the multiple and divergent nature of the realities theories concepts and strategies underlying the expression youth work becomes evident Across Europe youth work takes place in circumstances presenting enormous differences with regard to opportunities support structures recognition and realities and how it performs reflects the social cultural political and economic context and the value systems in which it is undertaken By analysing theories and concepts of youth work and by providing insight from various perspectives and geographical and professional backgrounds the authors hope to further contribute to finding common ground for and thus assure the quality of youth work in general Presenting its purified and essential concept is not

the objective here The focus rather is on describing how to provide opportunities for all young people to shape their own futures as Peter Lauritzen described the fundamental mission of youth work The best way to do this remains an open question This Youth Knowledge book tries to find some answers and strives to communicate the strengths capacities and impact of youth work to those within the youth sector and those beyond to those familiar with its concepts and those new to this field all the while sharing practices and insights and encouraging further reflection Sociological Abstracts ,2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers *Abstracts of the Annual Meeting -- American Anthropological Association* American Anthropological Association,2005 **Polish Psychological Bulletin** ,1999 **Needles in Haystacks** Magda Nico,Marti Taru,Dunja Potočnik,Andrei Salikau,2017

Cross sectorality is a well known aspect of youth policy but the importance of this aspect does not translate into a common understanding of what cross sectoral youth policy means and of the ways it can be developed This book is a collection of articles detailing concrete experiences of cross sectoral youth policy implementation It starts with the idea that the efficacy and the sustainability of cross sectoral youth policy depends on the degree and nature of interaction between various youth policy subdomains and levels ranging from legal frameworks to interinstitutional or interpersonal relations and from pan European to local level By making these examples available this book will hopefully support the development of a common understanding of what cross sectoral youth policy means in different countries and settings The authors themselves reflect the diversity of the people involved in youth policy policy makers youth researchers youth workers and workers in the field of youth and this work represents their intention to provide these professionals as well as others interested in the youth field with the knowledge necessary to implement in a real life scenario cross sectoral youth policy **International Labour Documentation** International Labour Office. Bureau of Library and Information Services,2001 **Abstracts of the Annual Meeting** American Anthropological Association,2008 *Youth political participation* Tomaž Deželan,Cristina Bacalso,Anna Lodeserto,2023-01-09 Young people s participation is crucial for shaping and transforming democracies Youth political participation is taking place within a context of democratic transformation including a global decline in the state of democracy shrinking space for civil society polarisation of the political and social space economic crisis and precarity rapid digitalisation the impact of the Covid 19 pandemic and most recently war In this setting we are witnessing a lack of trust in political institutions an increasing disengagement from the political system and a decline in youth participation in institutional politics This Youth Knowledge book reminds us that while the context might be changing young people s participation is crucial for shaping and transforming democracies Moving beyond the traditional binary of conventional and nonconventional the authors ask the question How are young people engaging with democracies in transformation seeking to

understand the ways in which young people are defining their own participation This volume includes eight chapters ranging from the mapping of young people s involvement in environmental justice movements and climate strikes dissent and radical kindness political participation of young refugees in Europe as well as explorations of the understanding of the concepts of liberal democracy youth voice and European citizenship as well as the importance and role of values and the context In addition to the chapters four personal essays written by young people themselves give a glimpse into the ways young people are engaging in political participation to shape their schools communities and Europe but also the broader systems on which our current politics is built Young people s political participation citizenship and relationship with democracy remain a complex topic for youth research policy and practice While this publication does not claim to answer all the questions or represent the realities of all young people across Europe it gives a glimpse into the landscape of youth engagement in a changing world highlighting realities trends and main issues Signs of the City Stefan Horn,Rudolf Netzelmann,Peter Winkels,2009 The big city is a sea of signs we are surrounded by an exciting pictographic labyrinth whether in notices posters graffiti or advertising Using digital cameras and GPS receivers teenagers and young adults have explored this semiotic realm which invites a continual process of linking and association Accompanied and encouraged by professional artists they become authors of contemporary urban life The emerging views of the European metropolises Barcelona Berlin London and Sofia are not only fascinating and often surprising the four cities are interwoven using innovative possibilities of data processing to create an image of the European city that has never been seen before **Frank Leslie's Illustrated Newspaper** John Albert Sleicher,1877 **Economic Crisis and Political Change in North Africa** Azzedine Layachi,1998-10-28 A collective effort by American and North African scholars this volume provides a comprehensive analysis of recent economic social and political events in North Africa It shows how the Maghrebi states and societies are currently at a very important junction as they try to adjust to different ways of doing things in new regional and international orders Using a political economy approach the book focuses on a series of issues raised by the interaction between economic crisis and reform on the one hand and political change or stagnation on the other The author and his contributors provide a comprehensive and up to date survey of particular value to scholars and researchers of the Arab world in general and North Africa in particular **Yearbook of International Organizations 2004/2005** Union of International Associations,2004
