John Storey

Youtube Online Video And Participatory Culture:

YouTube Jean Burgess, Joshua Green, 2013-04-16 YouTube is one of the most well known and widely discussed sites of participatory media in the contemporary online environment and it is the first genuinely mass popular platform for user created video In this timely and comprehensive introduction to how YouTube is being used and why it matters Burgess and Green discuss the ways that it relates to wider transformations in culture society and the economy The book critically examines the public debates surrounding the site demonstrating how it is central to struggles for authority and control in the new media environment Drawing on a range of theoretical sources and empirical research the authors discuss how YouTube is being used by the media industries by audiences and amateur producers and by particular communities of interest and the ways in which these uses challenge existing ideas about cultural production and consumption Rich with both concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley the book is essential reading for anyone interested in the contemporary and future implications of online media It will be particularly valuable for students and scholars in media communication and cultural studies

YouTube Jean Burgess, Joshua Green, 2018-09-17 Since launching as a website for everyday video sharing in 2005 YouTube has become one of the world s most powerful digital media platforms Originally published in 2009 when YouTube was only four years old this book was the first to systematically investigate its cultural impacts and politics highlighting the productive tensions between its amateur community rhetoric and its commercial media logics Since then YouTube has grown as a platform and matured as a company Its business model is built on coordinating the interests of and extracting value from its content creators audiences advertisers and media partners in a commercial setting where YouTube now competes with other powerful social media and streaming television platforms Meanwhile YouTube s diverse communities of content creators who developed the platform s most distinctive cultural forms and genres have strong ideas and interests of their own While preserving the original edition s forensic analysis of YouTube s early popular culture and uses this fully revised and updated edition weaves fresh examples updated theoretical perspectives and comparative historical insights throughout each of its six chapters Burgess and Green show how over its more than a decade of existence YouTube s dual logics of commerciality and community have persisted generating new genres of popular culture new professional identities and business models for the media industries and giving rise to ongoing platform governance challenges The book is essential reading for anyone interested in the contemporary and future implications of digital media platforms and will be particularly valuable for students and scholars in media communication and cultural studies

Watching YouTube Michael Strangelove, 2010-01-01 Michael Strangelove provides a broad overview of the world of amateur online videos and the people who make them He describes how online digital video is both similar to and different from traditional home movie making and argues that we are moving into a post television era characterized by mass participation from publisher description

The Audience and Business of YouTube and Online Videos Louisa

Ha,2018-06-06 The Audience and Business of YouTube and Online Videos is a thorough analysis of YouTube audiences and creators of online videos that considers how the coexistence of user generated and professional media content on YouTube makes the site a unique platform in the ever expanding online video industry Using a mixed method approach the authors examine the underexplored business side of YouTube with a focus on product review videos brand videos sponsored videos and online video advertising This book also addresses recent developments such as YouTube Red subscription pay TV and movie services and discusses the future of online video audience research Recommended for scholars interested in media studies communication marketing and popular culture Discourse 2.0 Deborah Tannen,Anna Marie Trester,2013-03-12

Our everyday lives are increasingly being lived through electronic media which are changing our interactions and our communications in ways that we are only beginning to understand In Discourse 2 0 Language and New Media editors Deborah Tannen and Anna Marie Trester team up with top scholars in the field to shed light on the ways language is being used in and shaped by these new media contexts Topics explored include how Web 2 0 can be conceptualized and theorized the role of English on the worldwide web how use of social media such as Facebook and texting shape communication with family and friends electronic discourse and assessment in educational and other settings multimodality and the participatory spectacle in Web 2 0 asynchronicity and turn taking ways that we engage with technology including reading on screen and on paper and how all of these processes interplay with meaning making Students professionals and individuals will discover that Discourse 2 0 offers a rich source of insight into these new forms of discourse that are pervasive in our lives

Amateur Media Dan Hunter,2013 The rise of Web 2 0 has pushed the amateur to the forefront of public discourse public policy and media scholarship Typically non salaried non specialist and untrained in media production amateur producers are now seen as key drivers of the creative economy But how do the activities of citizen journalists fan fiction writers and bedroom musicians connect with longer traditions of extra institutional media production This edited collection provides a much needed interdisciplinary contextualisation of amateur media before and after Web 2 0 Surveying the institutional economic and legal construction of the amateur media producer via a series of case studies it features contributions from experts in the fields of law economics and media studies based in the UK Europe and Singapore Each section of the book contains a detailed case study on a selected topic followed by two further pieces providing additional analysis and commentary Using an extraordinary array of case studies and examples from YouTube to online games from subtitling communities to reality TV the book is neither a celebration of amateur production nor a denunciation of the demise of professional media industries Rather this book presents a critical dialogue across law and the humanities exploring the dynamic tensions and interdependencies between amateur and professional creative production This book will appeal to both academics and students of intellectual property and media law as well as to scholars and students of economics media cultural and internet studies **Cultural Analysis** ,2010 2010 Redaktion Osnabrück,2011-06-16 **Cultural Studies**
