Zen And Philosophy An Intellectual Biography Of Nishida Kitaro:

Zen and Philosophy Michiko Yusa, 2002-03-31 This is the definitive work on the first and greatest of Japan's twentieth century philosophers Nishida Kitaro 1870-1945. Interspersed throughout the narrative of Nishida's life and thought is a generous selection of the philosopher's own essays, letters, and short presentations, newly translated into English. **Zen & Philosophy** Michiko Yusa, 2002 This is a biography of one of the greatest of Japan's 20th century philosophers Nishida Kitaro 1870-1945. Interspersed throughout a narrative of Nishida's life and thought is a selection of the philosopher's own essays, letters, and short presentations. Eco-Phenomenology: Life, Human Life, Post-Human Life in the Harmony of the Cosmos William S. Smith, Jadwiga S. Smith, Daniela Verducci, 2018-07-03 This volume presents discussions on a wide range of topics focused on eco-phenomenology and the interdisciplinary investigation of contemporary environmental thought. Starting out with a Tymieniecka Memorial chapter, the book continues with papers on the foundations, theories, readings, and philosophical sources of eco-phenomenology. In addition, it examines issues of phenomenological anthropology, ecological perspectives of the human relationship to nature, and phenomenology of the living body and the virtual body. Furthermore, the volume engages in a dialogue with contemporary behavioral sciences on topics such as eco-alienation, sustainability, and the human relationship to the earth in the context of the cosmos. *Columbia Companion to Twentieth-Century Philosophies* Constantin V. Boundas, 2007 *Columbia Companion to Twentieth-Century Philosophies* is the first guide to cover both the Anglo-American analytic and European continental traditions. Organized thematically, the volume thoroughly discusses the major movements and fields of each tradition and features the contributions of highly distinguished specialists in their fields. This book is divided into three sections. The first is devoted to highlighting the multidimensional work of philosophers identified with the analytic tradition, with Nicholas Rescher writing on neoidealism, Josephine Donovan commenting on feminist philosophy, Tyler Burge discussing the philosophy of language and mind, and Robert Hanna reflecting on Kant's legacy. The second section presents the thought of those who identified themselves with the continental tradition, featuring Jean Grondin on hermeneutics, Leonard Lawlor on phenomenology, Charles Scott on postmodernism, and Babette Babich on the philosophy of science. This volume also covers logical positivism, naturalism, pragmatism, aesthetics, existentialism, Marxism, the Frankfurt School, structuralism, psychoanalysis, political philosophy, ethics, and the philosophy of religion. The final section addresses concurrent trends in Indian, Chinese, Japanese, and African philosophy, and a comprehensive introduction by the editor not only provides a thorough outline of the problems and issues of the analytic and continental traditions but also boldly challenges the conviction that the two approaches must be rivals. *Columbia Companion to Twentieth-Century Philosophies* is an invaluable overview of the ideas that have shaped a monumentally important century in the history of philosophy, offering an unusually panoramic perspective that allows readers to form their own interpretations of original materials. The Cosmic Breath Amos Yong, 2012-05-10 Recent thinking in the interfaith dialogue and in the theology/science dialogue have

taken a pneumatological turn The Cosmic Breath explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective

Buddhism Keith Yandell, Harold Netland, 2009-05-22 In this clear introduction to Buddhism Keith Yandell and Harold Netland lay out the central metaphysical claims of this significant world religion and then offer an honest comparison with Christianity acknowledging some overlap of belief while also noting the clear and significant differences between the two religions

An Inquiry into the Good Kitaro Nishida, 1992-01-29 An Inquiry into the Good the earliest work of Kitaro Nishida established its author as the foremost Japanese philosopher of the twentieth century The book represents the foundation of Nishida's philosophy which reflects both his deep study of Zen Buddhism and his thorough analysis of Western philosophy In this important new translation two scholars one Japanese and one American have worked together to present a lucid and accurate rendition of this basic work They have also included an enlightening introduction and ample notes to aid the Western reader Nishida sets forth the notion of pure experience The concept that pure or direct experience precedes the separation of subject and object and is true reality He next considers reality investigating its relation to thinking volition and intuition The Good which Nishida considered to be the realization of our internal demands or ideals is analyzed in the light of the nature of reality and pure experience In conclusion Nishida suggests a theory of God as the unifier of the universe and the universe as an expression of God Throughout he touches upon the work of Western philosophers such as Kant Hegel Fichte William James and John Dewey in order to explicate his ideas Front flap

Nanzan Studies in Religion and Culture Keiji Nishitani, 1991 In recent years several books by major figures in Japan's modern philosophical tradition have appeared in English exciting readers by their explorations of the borderlands between philosophy and religion What has been wanting however is a book in a Western language to elucidate the life and thought of Nishida Kitaro 1870-1945 Japan's first philosopher of world stature and the originator of what has come to be called the Kyoto School No one is more qualified to write such a book than Nishitani Keiji whose lifetime coincides with the rise and flowering of the Kyoto School and whose own critical contribution to Japanese thought has been so important Nishida Kitaro is a translation of essays Nishitani wrote about his teacher from 1936 to 1968 and published as a book in 1985 This series of meditations by one master on another provides a remarkable living portrait of Nishida the person

and conveys the enthusiasm he aroused in his students Examining Nishida's most important work *An Inquiry into the Good* Nishitani penetrates to the core of his thought and presents it in language that is a marvel of clarity **International Philosophical Quarterly**, 2002 **The Kyoto School and International Relations** Kosuke Shimizu, 2022-03-10 The Kyoto School and International Relations explores the Kyoto School's challenge to transcend the Western domination over the rest of the world and the issues this raises for contemporary non-Western and Global IR literature Was the support of Kyoto School thinkers inevitable due to the despotism of military government thus nothing to do with their philosophy or a logical extension of their philosophical engagement The book answers this question by investigating individual Kyoto School philosophers in detail The author argues that any attempts to transcend the West are destined to be drawn into power politics as far as they uncritically adopt and use the prevailing ontological concept of linear progressive time and dominant meta narrative of Westphalia Thus to fully understand this problem there is the need to be cautious of the power of language of Westphalia and the concept of time in IR Aimed at students and scholars of IR theory Japanese politics and East Asian IR in general this book provides some introductory explanations of these academic subjects developing a theory based on the concepts of time and language of Kyoto School philosophy Biographical Encyclopedia of British Idealism William Sweet, 2010-07-08 Often regarded as an aberrant phase in the history of late 19th and early 20th century philosophy British Idealism provoked a wide range of attacks and replies from all the major figures of the time such as Sidgwick Dewey Broad and Russell This work reflects the shifting intellectual boundaries of British Thought between 1860 and 1920 The Sociology of Philosophies Randall Collins, 2009-07-01 Collins traces the movement of philosophical thought in ancient Greece China Japan India the medieval Islamic and Jewish world medieval Christendom and modern Europe He focuses on the social locations where sophisticated ideas are formed the patterns of intellectual networks and their inner divisions and conflicts Encyclopedia of Philosophy Donald M. Borchert, 2006 This volume covering entries from Masaryk Tomas Garrigue to Nussbaum Martha presents articles on Eastern and Western philosophies medical and scientific ethics the Holocaust terrorism censorship biographical entries and much more **Japanese Journal of Religious Studies**, 2003 **Skepsis**, 2004 *Arc*, 2002 *Japanese and Continental Philosophy* Bret W. Davis, Brian Schroeder, Jason M. Wirth, 2011 Recognizing the importance of the Kyoto School its influence on philosophy politics religion Asian studies this text seeks to initiate a conversation between Japanese Western philosophers *Intuition and Reflection in Self-Consciousness* Kitaro Nishida, 1987-01-09 Nishida Kitaro's reformulation of the major issues of Western philosophy from a Zen standpoint of absolute nothingness and absolutely contradictory self identity represents the boldest speculative enterprise of modern Japan continued today by his successors in the Kyoto School of philosophy This English translation of *Intuition and Reflection in Self Consciousness* evokes the movement and flavor of the original clarifies its obscurities and eliminates the repetitions It sheds new light on the philosopher's career revealing a long struggle with such thinkers as Cohen Natorp Husserl Fichte and

Bergson that ended with Nishida's break from the basic ontological assumptions of the West. Throughout labyrinthine arguments Nishida never loses sight of his theme: the irreducibility and unobjectifiability of the act of self-consciousness which constitutes the self. Extensive annotation is provided for the first time in any edition of Nishida's work. Historians of Japanese philosophy and culture and all those interested in the interaction of Eastern and Western thought forms now have a document which highlights many of the cultural, psychological and intellectual dynamics that have shaped Japanese intellectual life in one of its most fascinating and ambitious manifestations.
