Kōsō-ryoku: Conceptualizing Capability Noboru Konno, 2024-06-03 This book examines conceptualizing capability kōsō-ryoku the most important ability for thriving in the era of innovation A new approach formative conceptualizing capability is

proposed as the core knowledge methodology for innovation and management which is a fundamental human ability that goes beyond the boundaries between cognitive and tangible realities to shape concepts and drive innovation Traditional studies on imagination in Western philosophy are combined with knowledge creation theory based on Eastern way of thinking The book argues the capability should be at the core of innovation management offering insights and principles for navigating the challenges of the present age Japan has experienced the world's earliest capitalist setback and is stuck in a prolonged stagnation The author maintains however that what is needed in this coming chaotic era is not only imagination as it would be called in English but also the power of creating *kyōka* the Japanese term for formative concept The author has a proven track record in research and practice on knowledge creation theory innovation management design thinking and scenario planning He has reorganized and set forth in this book the perspectives he has proposed under the theme of *kyōka* to present a new methodology of knowledge for living in the twenty first century **Zen and the Bible** J.K.

Kadowaki,2002-09-11 Brought up within a Zen Buddhist tradition and later becoming a Jesuit priest the author shows how Zen enriched his understanding of the Bible and how Christianity gave substance to his practice of Zen Original The Exercises of St Ignatius of Loyola and the Traditions of the East Javier Melloni,2013-07-01 The Spiritual Exercises of Ignatius written between 1522 and 1548 are a very representative example of Catholic Christianity Although they were elaborated by one individual they echo the practice of the preceding thousand years The reality of the Exercises is rooted in the principle of personalisation and in the discernment of how the act of following Jesus makes itself concrete in history Javier Melloni follows up his popular exploration of the Spiritual Exercises in their Christian setting The Exercises of St Ignatius in the Western Tradition with a new book examining three spiritual pathways which underlie three different religious traditions the Spiritual Exercise of St Ignatius linked with Christianity Yoga which proceeds from Hinduism and Zen originating from the womb of Buddhism With an understanding of these three ways we place ourselves at the heart of their respective traditions as suggested by the Latin saying *Lex orandi lex credendi* that is to say prayer and by extension every spiritual practice is the reflection of a mode of belief just as every belief is configured to the extent to which it is prayed He presents these three ways with a double purpose to show the specific elements of each one as well as their common or convergent points Only if we do not confuse them can we recognise both the difficulty and the richness to be found in placing them in relation with one another To integrate is not the same as to mix up Above all what certainly unites the three ways is that they are not speculative but initiatory or mystagogical Their objective is the transformation of the person who undertakes them to admit that person into the experience of the Absolute This book explores the Spiritual Exercises through the Yoga Sutras the Yoga Karma or the Yoga of Action the Bhakti Yoga or the Yoga of Devotion the Jnana Yoga or the Yoga of Knowledge through Zen Buddhism and by looking at the role of images and of discursive thought emptying and decentring effort and grace and the presence and absence of a divine Thou Javier Melloni was born in Barcelona He has studied in Kerala and in Paris and is now

working in his home country in the retreat house known as the Cave of St Ignatius in Manresa **Sadhana, a Way to God** Anthony De Mello,1978 A series of spiritual exercises which combine Eastern meditation techniques with Christian prayer is designed to aid in achieving inner peace **Ignatian Mysticism** Stephen J. periodically fast the mind Drawing on the spiritual philosophies and meditative practices of classical yoga Hinduism Buddhism and Taoism Jason Gregory explains how fasting the mind directly impacts your habits and way of being in the world to create peace and calmness in your life as well as allow you to build a firm psychological defense against the increasing bombardment of distractions in our world Applying psychology and cognitive science to samsara the cycle of suffering created by our attachment to the impermanent he explains how overreliance on the rational mind causes imbalances in the autonomic nervous system and suppresses our natural spontaneity feelings and intuition When we are unable to relax the mind deeply we enter a destabilizing state of stress and anxiety and are unable to liberate the true Self from the impermanence and limitations of the material world Sharing Zen Taoist and Vedic practices to help you empty your mind and gradually restore your natural rhythms the author shows how to give the mind time to truly relax from stimulation so it can repair itself and come back into equilibrium He details simple meditation practices that are easy to implement in daily life such as open awareness meditation and contemplation of Zen koans as well as the advanced techniques of Vipassana a Theravadic Buddhist discipline centered on seclusion from all worldly stimuli He also offers methods for digital detox and ensuring a good night's sleep a major support for healing cognitive impairment and restoring a state of equanimity By fasting the mind we strip away the distractions and stresses of modern life and return to our original nature as it exists deep within We become more consciously awake in every moment allowing us to feel the real beauty of the world and in turn to live life more fully authentically and peacefully
