Resonating Sacralities Lieke

Wijnia, 2022-01-19 In The Netherlands the arts have gained a sacralized status while religion is increasingly viewed through the lens of heritage The dynamic resonance of sacred forms this results in is exemplary for the postsecular Exploring this resonance this book offers a strong counterweight to the popular trope of the arts having replaced religion in secularized societies Instead it approaches artistic performance religion and its heritage as mutually engaging sacred forms Lieke Wijnia thoroughly connects theoretical perspectives on the sacred with ethnographic research at the annual festival Musica Sacra Maastricht She explores the continued relevance of a broad conceptual approach to the sacred as well as the practical side to negotiating the sacred at the festival The resulting analyses shed new light on topics like musical performance as generator of the sacred how art and heritage impact the continuity of religion in secularized societies and the fragility of artistic performance in the contemporary fragmented framework of the sacred This book offers an innovative and interdisciplinary interpretation of the continuing significant role of art and religion in postsecular societies Kerken bouwen langs Maas en Rijn na 1945 A. P. J. Jacobs, 2019 De laatste bloeiperiode van de kerkbouw in Noordwest Europa voltrok zich in de eerste decennia na de Tweede Wereldoorlog Enerzijds moest de oorlogsschade worden gerepareerd anderzijds zette de bevolkingsgroei aan tot de uitbreiding van dorpen en steden Afhankelijk van de aanwezige religieuze denominatie s werden nieuwbouwwijken voorzien van n of meerdere kerkgebouwen De spectaculaire opleving in de kerkbouw hield aan tot het midden van de jaren zestig toen toenemende ontkerkelijking en afnemend kerkbezoek zich stevig lieten voelen Die stagnatie werd gevolgd door herbestemming van kerkgebouwen en zelfs afbraak Kerken bouwen langs Maas en Rijn na 1945 zoomt in op deze problematiek in Nederland België en Duitsland met bijzondere aandacht voor de beide Limburgen en de regio s rond Aken Keulen en Düsseldorf die van oudsher culturele banden hadden Naast de nieuwbouw van kerken en hun lokale inplanting komen ook de religieus maatschappelijke en de liturgische evolutie na Vaticanum II aan bod De overzichtsartikelen worden afgewisseld met casestudy s zowel van kerkgebouwen als architecten Material Change Jan De Maeyer, Peter Jan Margry, 2021-12-17 The long nineteenth century c 1780 c 1920 in Western Europe saw an unprecedented rise in the production and possession of material goods The material culture diversified and led to a rich variety of expressions Dovetailing with a process of confessionalisation that manifested itself quite simultaneously material religion witnessed its heyday in this period from church buildings to small devotional objects The present volume analyses how various types of reform state societal and ecclesiastical that were part of the process of modernisation affected the material devotional culture within Protestantism Anglicanism and Roman Catholicism Although the contributions in this book start from a comparative European perspective the case studies mostly focus on individual countries in North West Europe namely Germany Belgium the Netherlands the United Kingdom Ireland Norway Sweden and Denmark The concept of material

religion is approached in a very inclusive way The volume discusses amongst others parish infrastructures and religious buildings that are part of land and cityscapes but also looks into interior design and decorations of chapels churches monasteries cemeteries and educational charitable and health institutions It comprises the fine arts of religious painting and sculpture the applied arts and iconographic designs As far as private material culture is concerned this volume examines and presents objects related to private devotion at home including a great variety of popular devotional and everyday life objects such as booklets cards photographs and posters

Reformatie in Brabant Gerard van Gurp, 2013 In de Meierij van s Hertogenbosch begon de vervolging van de aanhangers van de Reformatie rond 1526 Het aantal mensen dat het nieuwe geloof openlijk aanhing bleef hierdoor aanvankelijk gering Rond 1564 veranderde dit er werden hagenpreken gehouden en steeds meer stedelingen keerden zich af van de katholieke kerk Na de Beeldenstorm in 1566 werden in s Hertogenbosch en Eindhoven gereformeerde gemeenten gevormd De leden vormden een doorsnee van de bevolking In de decennia daarna waren er afwisselend perioden van vervolging waarin de protestanten vluchtten naar veiliger oorden en betrekkelijke rust waarin zij terugkeerden Gedetailleerd beschrijft Gerard van Gurp hoe de Reformatie zich in de Meierij ontwikkelde en welke gevolgen dit had voor de stedelijke samenleving Zijn verhaal laat zien dat sociale en economische factoren van grote invloed waren op de keuze van de vestigingsplaats bij gedwongen verhuizing en op de vorming van gemeenten
