Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present. Intrapsychic, interactional and collective social processes are gendered as are micro, meso and macro social structures. Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors. Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non-academic activist thinkers. However, while incorporating some cross-disciplinary material, this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes, structures and institutions. As editor, I have explicitly tried to shape the contributions to this volume along several lines that reflect my long-standing views about sociology in general and gender sociology in particular. First, I asked authors to include cross-national and historical material as much as possible. This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective. Too often American sociology has been both temperate and ethnocentric. Second, I have asked authors to be sensitive to within-gender differences along class, racial, ethnic, sexual preference and age-cohort lines.

The Role of Adult Attachment Style in Violence Against Women Kristi Louise Medcalf Breen, 1997

Most violence against women occurs in the context of intimate relationships. Henton Cate Koval, Lloyd Collins, 1996. The present study examines whether men who are violent against women have different adult attachment styles than men who are not violent against women. The participants were 176 men with a mean age of 33 who were participants in a longitudinal study of sexual aggression. Malamuth, Linz, Heavey, Barnes, 1996. 55% of the violent men reported using at least 4 of the 14 sexually and physically aggressive behaviors studied. Adult attachment style was unrelated to physical violence, sexual violence and the combination of both physical and sexual violence against women. Four possible explanations were discussed: the high base rate of violence in the sample, problems in the measurement of adult attachment style, the failure of the design of the study to capture the complexity of the relationship between adult attachment style and violence against women, and the possibility that the original hypothesis was wrong. Several directions for additional research were described.

Celeste granted clemency to 25 women who had been incarcerated for killing or assaulting abusive partners or stepfathers Governors in other states quickly followed This book documents the history of the feminist and social activist groups working within the context of the battered women's movement and the role they played in making these events possible The book examines the Ohio movement as a precedent setting case study then discusses and analyzes events in six other states where large scale clemencies were achieved or attempted Before clemency became a movement goal feminist legal activists worked for two decades to challenge laws that they argued prevented women from fully defending themselves when accused of killing abusive men One focus was to ensure that the women who killed could describe the danger with which they had lived and explain the basis of their belief that force was needed to defend their lives Within a few years some activists began to frame their legal defense strategies within the language of the battered woman syndrome a strategy that remains controversial The book analyses the strategies and achievements of the movement for clemency review identifying the factors that led to success or failure The last chapter looks at the post prison lives of some of the 25 Ohio women who received clemency
