Violent Crime Assessing Race And Ethnic Differences Cambridge Studies In Criminology:

Violent Crime Darnell F. Hawkins, 2003-02-24 Analysts have long noted that some societies have much higher rates of criminal violence than others. They have also observed that the risk of being a victim or a perpetrator of violent crime varies considerably from one individual to another. In societies with ethnically and racially diverse populations, some ethnic and racial groups have been reported to have higher rates of violent offending and victimization than other groups. This series of essays explores the extent and causes of racial and ethnic differences in violent crime in the United States and several other contemporary societies. Criminological Perspectives on Race and Crime Shaun L. Gabbidon, 2010-02-25 Ideal for use in either crime theory or race and crime courses, this is the only text to look at the array of explanations for crime as they relate to racial and ethnic groups. Each chapter begins with a historical review of each theoretical perspective and how its original formulation and more recent derivatives account for racial/ethnic differences. The theoretical perspectives include those based on religion, biology, social disorganization, strain, subculture, labeling, conflict, social control, colonialism, and feminism. This new Second Edition includes discussions of Deadly Symbiosis, critical race theory, criminology, comparative conflict theory, maximization, and abortion, race and crime. In the closing chapter, the author considers which perspectives have shown the most promise in the area of race, ethnicity, and crime. Race, Ethnicity, Crime, and Justice Akwasi Owusu-Bempah, Shaun Gabbidon, 2020-09-24 *Race, Ethnicity, Crime, and Justice: An International Dilemma* Second Edition takes a unique comparative approach to the exploration of race and ethnicity-related justice issues in five countries around the world. Using the colonial model as a theoretical lens, Owusu-Bempah and Gabbidon analyse data from Great Britain, the United States, Canada, Australia, and South Africa. These international case studies help students contextualize race and justice issues within and across nations. Concise historical framing illuminates today's racial dynamics in these diverse justice systems, and accessible theory grounds the comparison of crime and justice data from the early 21st century with current statistics. A new concluding chapter revisits the question of where these nations fit in the global context of state and non-state actors and of ethnic and racial justice issues. This new edition is suitable for use as a core or supplemental text for advanced undergraduates and early graduate courses on race and crime, minorities, and criminal justice, diversity in criminal justice, and comparative justice systems. It is also appropriate for use in sociology and ethnic studies courses that focus on race and crime. **Race and Crime** Shaun L. Gabbidon, Helen Taylor Greene, 2024-08-16 Written by two of the most prominent criminologists in the field, *Race and Crime* 6th Edition takes an incisive look at the intersection of race and ethnicity and the criminal justice system. A thought-provoking discussion of contemporary issues uniquely balances the historical context and modern data and research to offer students a panoramic perspective on race and crime. Accessible and reader-friendly, this comprehensive text shows students how race and ethnicity have mattered and continue to matter in all aspects of the administration of justice.

Hollis, Jacob I. Stowell, 2018-09-12 This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration across the United States and industrialized and developing nations It covers the changing dynamics of race

ethnicity and immigration and discusses how it all contributes to variations in crime policing and the overall justice system Through acknowledging that some groups especially people of color are disproportionately influenced more than others in the case of criminal justice reactions the War on Drugs and hate crimes this Handbook introduces the importance of studying race and crime so as to better understand it It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change Featuring contributions from top experts in the field The Handbook of Race and Crime is presented in five sections An Overview of Race Ethnicity Crime and Justice Theoretical Perspectives on Race and Crime Race Gender and the Justice System Gender and Crime and Race Gender and Comparative Criminology Each section of the book addresses a key area of research summarizes findings or shortcomings whenever possible and provides new results relevant to race crime and justice Every contribution is written by a top expert in the field and based on the latest research With a sharp focus on contemporary race ethnicity crime and justice studies The Handbook of Race and Crime is the ideal reference for advanced undergraduate students graduate students and scholars interested in the disciplines such as Criminology Race and Ethnicity Race and the Justice System and the Sociology of Race

Choosing White-Collar Crime Neal Shover, Andrew

Hochstetler, 2005-11-14 For more than three decades rational choice theory has reigned as the dominant approach both for interpreting crime and as underpinning for crime control programs Although it has been applied to an array of street crimes white collar crime and those who commit it have thus far received less attention Choosing White Collar Crime is a systematic application of rational choice theory to problems of explaining and controlling white collar crime It distinguishes ordinary and upperworld white collar crime and presents reasons theoretically for believing that both have increased substantially in recent decades Reasons for the increase include the growing supply of white collar lure and non credible oversight Choosing White Collar Crime also examines criminal decision making by white collar criminals and their criminal careers The book concludes with reasons for believing that problems of white collar crime will continue unchecked in the increasingly global economy and calls for strengthened citizen movements to rein in the increases

Building a Black Criminology, Volume 24 James D. Unnever, Shaun L. Gabbidon, Cecilia Chouhy, 2018-10-26 In light of the Black Lives Matter movement and protests in many cities race plays an ever more salient role in crime and justice Within theoretical criminology however race has oddly remained on the periphery It is often introduced as a control variable in tests of theories and is rarely incorporated as a central construct in mainstream paradigms e g control social learning and strain theories When race is discussed the standard approach is to embrace the racial invariance thesis which argues that any racial differences in crime are due to

African Americans being exposed to the same criminogenic risk factors as are Whites just more of them An alternative perspective has emerged that seeks to identify the unique racially specific conditions that only Blacks experience Within the United States these conditions are rooted in the historical racial oppression experienced by African Americans whose contemporary legacy includes concentrated disadvantage in segregated communities racial socialization by parents experiences with and perceptions of racial discrimination and disproportionate involvement in and unjust treatment by the criminal justice system Importantly racial invariance and race specificity are not mutually exclusive perspectives Evidence exists that Blacks and Whites commit crimes for both the same reasons invariance and for different reasons race specific A full understanding of race and crime thus must involve demarcating both the general and specific causes of crime the latter embedded in what it means to be Black in the United States This volume seeks to explore these theoretical issues in a depth and breadth that is not common under one cover Again given the salience of race and crime this volume should be of interest to a wide range of criminologists and have the potential to be used in graduate seminars and upper level undergraduate courses
