Colourstrings Violin ABC is finally available in digital format. Violin Books A, B, C and D Scales book 1, 2 and 3 and Kreutzerini are released as electronic publications. Colourstrings Violin ABC Violin Book 1 is the first book in the Colourstrings Violin ABC series using the Colourstrings method developed by Géza Szilvay. The Colourstrings method uses a colour for each string and focuses on teaching children rhythm and technique on open strings while gradually introducing them to more complicated methods. Chapter 1: Becoming acquainted with the violin. Developing the basic holds, basic movements and basic rhythms on open strings. Left hand numbered pizzicato. Chapter 2: Connecting the movements of the two hands. Natural octave harmonics. Chapter 3: Natural fifth, fourth and third harmonics in first position. Chapter 4: Introducing the line system. The one line stave. About the Colourstrings method. Colourstrings is child-centred. The materials are colourful, stimulating and entice children to embark on musical adventures that will enable each of them to fulfil their musical potential through fun and creativity without pressure. It is an extension of the Kodály philosophy: everything starts with singing to develop inner hearing. Central to the approach is the role of play and imagination; often the value of play can be overlooked in the rush to get on with the real lesson. String teaching in 21st Century: Bridges between research and practice Clarissa Foletto, Jorge Alves, Dora de Queiroz, 2021-01-01. The 48th International ESTA Conference marked the first Online conference in the history of ESTA. The conference theme, Bridges between research and practice, encouraged the teachers, students and researchers of the ESTA family and abroad to reflect and discuss String teaching in 21st Century. The 21 articles published in this book show how we can join forces to create, develop and disseminate our collective knowledge and experience about string teaching. We hope that this book can be a contribution by ESTA Portugal to this field and an attempt to fill the gap between research and practice.
